**Valuation Tables; Correction**

**AGENCY:** Internal Revenue Service (IRS),  
Treasury.

**ACTION:** Correction to final regulations.

**SUMMARY:** This document contains corrections to final regulations [TD 8540], which were published in the Federal Register for Friday, June 10, 1994 (59 FR 30100). The final regulations relate to the valuation of annuities, interests for life or terms of years, and remainder or reversionary interests.

**EFFECTIVE DATE:** June 10, 1994.

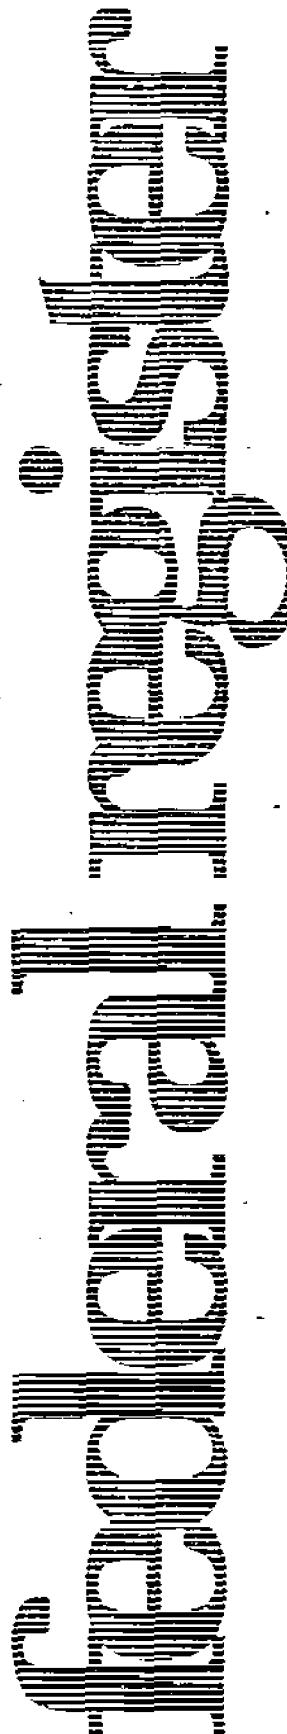

**FOR FURTHER INFORMATION CONTACT:**  
William L. Blodgett, (202) 622-3090  
(not a toll-free number).

**SUPPLEMENTARY INFORMATION:**

**Background**

The final regulations that are the subject of these corrections are under sections 170, 642, 664, 7520, 2031 and 2512 of the Internal Revenue Code.

Valuation Tables and Actuarial Tables  
Exceptions; Final Rule and Proposed  
Rule

**DEPARTMENT OF THE TREASURY****Internal Revenue Service****26 CFR Parts 1, 20, 25, and 602**

[TD 8540]

RIN 1545-AM81

**Valuation Tables****AGENCY:** Internal Revenue Service (IRS), Treasury.**ACTION:** Final regulations.

**SUMMARY:** This document contains final regulations relating to the valuation of annuities, interests for life or terms of years, and remainder or reversionary interests. Changes to the applicable tax law were made by section 5031 of the Technical and Miscellaneous Revenue Act of 1988. These regulations will provide the public with the guidance needed to comply with the Act.

**DATES:** These regulations are effective May 1, 1989. For dates of applicability of these regulations, see the **EFFECTIVE DATES** portion under **SUPPLEMENTARY INFORMATION**.

**FOR FURTHER INFORMATION CONTACT:** William L. Blodgett, (202) 622-3090 (not a toll-free number).

**SUPPLEMENTARY INFORMATION:****Paperwork Reduction Act**

The collection of information contained in these final regulations has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act (44 U.S.C. 3504(h)) under control number 1545-1343. The estimated annual burden per respondent varies from 30 minutes to one hour, depending on individual circumstances, with an estimated average of 45 minutes.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be sent to the Internal Revenue Service, Attn: IRS Reports Clearance Officer, PC:FP, Washington, DC 20224, and to the Office of Management and Budget, Attn: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

**Background**

On November 2, 1992, the IRS published in the **Federal Register** proposed amendments to the income tax regulations [26 CFR part 1] under sections 170, 642, 664, and 7520 of the Internal Revenue Code (Code), and to the estate and gift tax regulations [26 CFR parts 20 and part 25] under sections

2031, 2512, and 7520 of the Code. Conforming changes were proposed for regulations under other sections of the Code. On February 3, 1993, the IRS published in the **Federal Register** certain corrections to the proposed regulations. This project finalizes those amendments. Written comments responding to the Notice of Proposed Rulemaking were received. No public hearing was requested, and none was held. After consideration of all of the comments received regarding the proposed regulations, those amendments are adopted by this Treasury decision with revisions in response to those comments. A summary of the principal comments received and revisions made in the final regulations in response to those comments is provided below.

**Explanation of Provisions**

The notice of proposed rulemaking included estate tax regulations that described the implementation of the new valuation standard, including an explanation of the general effective date of May 1, 1989 (§ 20.7520-1), an explanation of the special elections for charitable interests (§ 20.7520-2), a listing of Code provisions that are not subject to section 7520 (§ 20.7520-3), and a description of transitional rules for income, estate, and gift tax valuations (§ 20.7520-4). In the final regulations, the substance of §§ 20.7520-1 through 20.7520-4 has been incorporated into analogous provisions for the Income Tax Regulations (§§ 1.7520-1 through 1.7520-4) and the Gift Tax Regulations (§§ 25.7520-1 through 25.7520-4).

In response to comments, several editorial changes were made to clarify certain of the formulas contained in the proposed regulations. These clarifications principally involve the insertion of additional parentheses or brackets in order to make the formulas easier for the reader to understand and apply.

Also in response to comments, § 1.170A-12(b) was updated in a correction to the proposed regulations that was published in the **Federal Register** on February 3, 1993. The update includes a formula for the computation of the special factor to value a remainder interest following one life where the property is subject to exhaustion, wear and tear, or obsolescence. A similar formula in § 1.170A-12(e), which is applicable to the valuation of a remainder interest following two lives, was also updated. The change in formulas avoids the need to include lengthy commutation factor tables in the regulations.

Clarifying amendments have been made in the final regulations concerning the meaning of "valuation date" for purposes of an election to value a transfer to a charitable remainder trust. In the case of an election under section 7520 to compute the present value of the charitable interest by use of the interest rate component for either of the 2 months preceding the month in which the transfer is made, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. Sections 1.664-2(c) and 1.664-4(e)(4) of the final regulations have been revised accordingly.

Comments were received pertaining to the rule in the proposed regulations under section 7520 concerning the transfer of more than one partial interest in the same property at different times. In response to these comments, the regulations have been amended to make it clear that, generally, each separate transfer is valued with the interest rate applicable in the month of the transfer.

The proposed regulations provide for making the election to use a prior month's interest rate in the case of a transfer to charity. Comments questioned the need for requiring the filing of detailed information as part of a prior-month election. This information is already required to be filed with the tax return for certain situations involving charitable interests that are subject to measuring lives. See, for example, § 20.2055-2(b)(5). This requirement is now explained in the regulations under section 7520.

Comments also raised a question about the revocability of the election and the time for making the election. The final regulations provide that the taxpayer makes the prior-month election by so stating on the return and identifying the elected month. The failure to include with the return other information that is required to describe the transfer, whether or not the election is made, will ordinarily not invalidate the election. For elections made on or before June 10, 1994, a reasonable attempt to make the election and submit the required information will be treated as a valid election. The final regulations also provide that the election is generally made on a timely filed tax return for the year of the transfer. However, the election may also be made or changed on an amended or supplemented return that is made within 24 months after the original return is filed.

Comments were received concerning whether the five percent de minimis test (i.e., a transfer to charity of at least five percent of the value of the interest) set forth in the proposed regulations should be applied in determining if the

taxpayer may elect to use an alternative prior month interest rate. The final regulations delete this de minimis test.

Comments were received concerning the application of these regulations in situations where an individual is expected to die prematurely or where two individuals die simultaneously. See, for example, Rev. Rul. 80-80, 1980-1 C.B. 194, which holds that, in cases where the individual's death is imminent, the standard actuarial tables prescribed by the regulations are not to be used. See, also, *Carter v. United States*, 291 F.2d 63 (5th Cir. 1991), where the court refused to ascribe value to an income interest for purposes of the section 2013 credit where the death of the transferee was simultaneous with the death of the transferor. Comments

were also received concerning the scope of these regulations in light of *O'Reilly v. Commissioner*, 973 F.2d 1403 (8th Cir. 1992), rem'd, T.C.M. 1994-61. In *O'Reilly*, the Circuit Court held that the standard actuarial tables were not applicable to a situation in which the application of those tables would have produced an unreasonable result. In that case, the property held in trust produced an extraordinarily low rate of return. A similar result was reached by the Tax Court in *Froh v. Commissioner*, 100 T.C. 1 (1993), dealing with depletable property. Consistent with these comments, the Service and Treasury are contemporaneously proposing an amendment to these regulations that defines the circumstances in which the section

7520 tables would not apply in valuing a transferred interest. That Notice of Proposed Rulemaking is published elsewhere in this issue of the Federal Register.

Notice 89-60, 1989-1 C.B. 700, announced a method for determining the deemed yearly rate of return for new pooled income funds. This method defined the deemed rate as the highest annual average section 7520 interest rate for the preceding three years, reduced by one percentage point. The proposed regulations would have defined the deemed rate as the highest annual average section 7520 interest rate for the preceding three years, multiplied by 90 percent. Both methods produced the same result for each of the years after the enactment of section 7520:

First year of pooled income fund	5/1/89 to 12/31/89	1990	1991	1992	1993	1994
Notice 89-60 method .....		9.4	9.8	9.8	9.8	9.4
Proposed regulation method .....		9.4	9.8	9.8	9.4	8.4

Commentators have indicated a strong preference for the method announced in Notice 89-60, because they view the computation as simpler than that set forth in the proposed regulations. In response to these comments, the final regulations adopt the method described in Notice 89-60 for determining the deemed yearly rate of return for new pooled income funds.

Comments were received concerning whether, in valuing transfers to a new pooled income fund, the same deemed rate of return would be used throughout the entire three-year period. The final regulations provide that the deemed rate of return for transfers to a new pooled income fund is recomputed each calendar year using the monthly section 7520 rates for the three-year period immediately preceding the calendar year in which each transfer to the fund is made until the fund has been in existence for three taxable years and can compute its highest rate of return for the three taxable years immediately preceding the taxable year in which the transfer of property to the fund is made.

A commentator suggested that, with respect to the interpolation method for valuing transfers to pooled income funds and charitable remainder unitrusts, a taxpayer be permitted to elect a more exact method of computing the appropriate interest rate. The method prescribed in the proposed regulations has been in use for many years and is prescribed by the Internal Revenue Service in Publication 1457, "Actuarial Values, Alpha Volume," (8-89) and Internal Revenue Service

Publication 1458, "Actuarial Values, Beta Volume," (8-89). The IRS and Treasury believe that any change from the method prescribed in these publications, which are in current use, would create undue confusion for taxpayers. Consequently, the commentator's suggested change is not being adopted at this time.

Comments were received inquiring about the application of section 7520 to the valuation of annuities issued by certain organizations other than insurance companies. In response to these comments, the final regulations explain that the section 7520 tables are to be used in valuing these annuities. This is an application of the principle adopted in Rev. Rul. 84-162, 1984-2 C.B. 200, for transfers after November 23, 1984. A different method of valuation continues to apply for purposes of computing the exclusion ratio in reporting the annuity payments under section 72. These clarifications have been made by updating § 1.101-2(e)(1)(iii)(b) and Example 8 of § 1.101-2(c).

Comments were received concerning the presumption in the proposed regulations under section 664 that, if a governing instrument for a charitable remainder unitrust does not prescribe when the distribution is made during the period, the distribution is presumed to be made on the first day of the period. Unitrusts have traditionally been regarded as providing for distributions at the beginning of each period unless the governing instrument provides to the contrary. This presumption has been

reflected in unitrust factors prescribed in the regulations under section 664 since the enactment of that section. Therefore, the presumption that distributions are made on the first day of the period, if not otherwise provided for in the instrument, is continued in the final regulations.

#### Effective Dates

These regulations are generally effective in the case of annuities, interests for life or terms of years, and remainder or reversionary interests created after April 30, 1989. The regulations provide certain transitional rules intended to alleviate any adverse consequences resulting from the statutory amendments. Several principal provisions of the regulations were announced in Notice 89-24, 1989-1 C.B. 660 (which announced the change from the 10 percent fixed rate of interest to the section 7520 floating rate of interest), and Notice 89-60 (which announced the change in mortality tables) (See § 601.601(d)(2)(ii)(b) of the Statement of Procedural Rules). A transitional rule in the final regulations provides that, for valuation dates of transfers after April 30, 1989, and before June 10, 1994, a transferor can rely on Notice 89-24 or Notice 89-60 in valuing the transferred interest. For gift tax purposes, a transitional rule in the final regulations provides that if, after December 31, 1988, but before May 1, 1989, a donor transferred an interest in property, retaining an interest in the same property, and the donor later transferred the retained interest in the

property after April 30, 1989, and before January 1, 1990, the donor may elect to value the transfer of the retained interest under either the 10 percent tables or the section 7520 tables (whichever is more beneficial). For estate tax purposes, a transitional rule in the final regulations provides that the estate of a mentally incompetent decedent may elect to value the property interest included in the gross estate under the mortality table and interest rate in effect at the time the decedent became mentally incompetent or the mortality table and interest rate in effect on the decedent's date of death if the decedent was under a mental incapacity that existed on May 1, 1989, and continued uninterrupted until the decedent's death. For purposes of determining the value of the remainder interest in a testamentary charitable remainder unitrust or annuity trust, a transitional rule in the final regulations provides that the mortality table and 10 percent interest rate in effect before May 1, 1969, or the mortality table and interest rate under section 7520 may be used if the decedent was mentally incompetent on May 1, 1989, and (1) such incompetency continued

uninterrupted until death, or (2) the decedent died within 90 days of first regaining competency after April 30, 1989.

#### Special Analyses

It has been determined that this Treasury decision is not a significant regulatory action as defined in EO 12866. Therefore, a regulatory assessment is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, a Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, the notice of proposed rulemaking preceding these regulations was submitted to the Small Business Administration for comment on its impact on small business.

#### Drafting Information

The principal author of these regulations is William L. Blodgett, Office of Chief Counsel (Passthroughs and Special Industries), IRS. However,

other personnel from the IRS and Treasury Department participated in their development.

#### List of Subjects

##### 26 CFR Part 1

Income taxes, Reporting and recordkeeping requirements.

##### 26 CFR Part 20

Estate taxes, Reporting and recordkeeping requirements.

##### 26 CFR Part 25

Gift taxes, Reporting and recordkeeping requirements.

##### 26 CFR Part 602

Reporting and recordkeeping requirements.

#### Adoption of Amendments to the Regulations

Accordingly, 26 CFR parts 1, 20, 25, and 602 are amended as follows:

**Paragraph 1.** In the list below, for each section indicated in the left column, remove the language in the middle column and add the language in the right column:

**PART 1—INCOME TAXES**

**Par. 2.** The authority citation for part 1 is amended by adding an entry in numerical order to read as follows:

Authority: 26 U.S.C. 7805 \* \* \*

Section 1.170A-12 also issued under 26 U.S.C. 170(f)(4). \* \* \*

Section 1.642(c)-6 also issued under 26 U.S.C. 642(c)(5).

Section 1.642(c)-6A also issued under 26 U.S.C. 642(c)(5).

Section 1.664-1 also issued under 26 U.S.C. 664(a).

Section 1.664-2 also issued under 26 U.S.C. 664(a).

Section 1.664-3 also issued under 26 U.S.C. 664(a).

Section 1.664-4 also issued under 26 U.S.C. 664(a).

Section 1.664-4A also issued under 26 U.S.C. 664(a). \* \* \*

Section 1.7520-1 also issued under 26 U.S.C. 7520(c)(2).

Section 1.7520-2 also issued under 26 U.S.C. 7520(c)(2).

Section 1.7520-3 also issued under 26 U.S.C. 7520(c)(2).

Section 1.7520-4 also issued under 26 U.S.C. 7520(c)(2).

**Par. 3.** Section 1.101-2 is amended as follows:

1. Paragraphs (e)(1)(iii)(b)(1) and (2) are revised.

2. Paragraph (e)(1)(iii)(b)(3) is removed.

3. The revised provisions read as follows:

§ 1.101-2 Employees' death benefits.

(e) \* \* \*

(1) \* \* \*

(iii) \* \* \*

(b) \* \* \*

(1) In the case of an annuity paid by an insurance company or by an organization (other than an insurance company) regularly engaged in issuing annuity contracts with an insurance company as the coinsurer or reinsurer of the obligations under the contract, by use of the discount interest rates and mortality tables used by the insurance company involved to determine the installment benefits; and

(2) In the case of an annuity issued after November 23, 1984, to which paragraph (e)(1)(iii)(b)(1) of this section is not applicable, by use of the

appropriate tables in § 20.2031-7 of this chapter (Estate Tax Regulations).

**Par. 4. Section 1.170A-12 is amended as follows:**

1. In paragraph (a)(3), a sentence is added between the fourth and fifth sentences.

2. Paragraphs (b), and (e) (1) and (2) are revised.

3. Paragraph (f) is removed.

4. The authority citation at the end of the section is removed.

5. The added and revised provisions read as follows:

**§ 1.170A-12 Valuation of a remainder interest in real property for contributions made after July 31, 1969.**

(a) \* \* \*

(3) \* \* \* Except as provided in § 1.7520-3(b) of this chapter, for transfers of remainder interests after April 30, 1989, the present value of the remainder interest is determined under § 25.2512-5 of this chapter by use of the interest rate component on the date the interest is transferred unless an election is made under section 7520 and § 1.7520-2 of this chapter to compute the present value of the interest transferred by use of the interest rate component for either of the 2 months

preceding the month in which the interest is transferred. \* \* \*

(b) *Valuation of a remainder interest following only one life—(1) General rule.* The value of a remainder interest in real property following only one life is determined under the rules provided in § 20.2031-7 (or for certain prior periods, § 20.2031-7A) of this chapter (Estate Tax Regulations), using the interest rate and life contingencies prescribed for the date of the gift. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). However, if any part of the real property is subject to exhaustion, wear and tear, or obsolescence, the special factor determined under paragraph (b)(2) of this section shall be used in valuing the remainder interest in that part. Further, if any part of the property is subject to depletion of its natural resources, such depletion is taken into account in determining the value of the remainder interest.

(2) *Computation of depreciation factor.* If the valuation of the remainder interest in depreciable property is dependent upon the continuation of one life, a special factor must be used. The factor determined under this paragraph (b)(2) is carried to the fifth decimal

place. The special factor is to be computed on the basis of the interest rate and life contingencies prescribed in § 20.2031-7 (or for certain prior periods, § 20.2031-7A) of this chapter (Estate Tax Regulations) and on the assumption that the property depreciates on a straight-line basis over its estimated useful life. For transfers for which the valuation date is after April 30, 1989, special factors for determining the present value of a remainder interest following one life and an example describing the computation are contained in Internal Revenue Service Publication 1459, "Actuarial Values, Gamma Volume," (8-89). This publication is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:R (IRS Publication 1459), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). Otherwise, in the case of the valuation of a remainder interest following one life, the special factor may be obtained through use of the following formula:

$$\left(1 + \frac{i}{2}\right) \sum_{j=0}^{n-1} v^{(i+1)} \left[ \left(1 - \frac{l_{x+j+1}}{l_x}\right) - \left(1 - \frac{l_{x+j}}{l_x}\right) \right] \left(1 - \frac{1}{2n} - \frac{j}{n}\right)$$

Where:

n=the estimated number of years of useful life,

i=the applicable interest rate under section 7520 of the Internal Revenue Code,

v=1 divided by the sum of 1 plus the applicable interest rate under section 7520 of the Internal Revenue Code,

x=the age of the life tenant, and  
lx=number of persons living at age x as set forth in Table 80CNSMT of § 20.2031-7 (or, for prior periods, in § 20.2031-7A) of this chapter.

(3) The following example illustrates the provisions of this paragraph (b):

**Example.** In June 1992, A, who is 62, donates to Y University a remainder interest in a personal residence, consisting of a house and land, subject to a reserved life estate in A. At the time of the gift, the land has a value of \$30,000 and the house has a value of \$100,000 with an estimated useful life of 45 years, at the end of which the value of the house is expected to be \$20,000. The portion

of the property considered to be depreciable is \$80,000 (the value of the house (\$100,000) less its expected value at the end of 45 years (\$20,000)). The portion of the property considered to be nondepreciable is \$50,000 (the value of the land at the time of the gift (\$20,000) plus the expected value of the house at the end of 45 years (\$20,000)). The interest rate prescribed under section 7520 for June 1992 is 8.4 percent. Based on an interest rate of 8.4 percent, the remainder factor for \$1.00 prescribed in § 20.2031-7 of this chapter for a person age 62 is 0.29567. The value of the nondepreciable remainder interest is \$14,783.50 (0.29567 times \$50,000). The value of the depreciable remainder interest is \$17,387.20 (0.21734, computed under the formula described in paragraph (b)(2) of this section, times \$80,000). Therefore, the value of the remainder interest is \$32,170.70.

\* \* \* \* \*

(e) \* \* \*

(1)(i) If the valuation of the remainder interest in the real property is dependent upon the continuation or the termination of more than one life or upon a term certain concurrent with one

or more lives, a special factor must be used.

(ii) The special factor is to be computed on the basis of—

(A) Interest at the rate prescribed under § 25.2512-5 (or, for certain prior periods, § 25.2512-5A) of this chapter, compounded annually;

(B) Life contingencies determined from the values that are set forth in the mortality table in § 20.2031-7 (or, for certain prior periods, § 20.2031-7A) of this chapter; and

(C) If depreciation is involved, the assumption that the property depreciates on a straight-line basis over its estimated useful life.

(iii) If any part of the property is subject to depletion of its natural resources, such depletion must be taken into account in determining the value of the remainder interest.

(2) In the case of the valuation of a remainder interest following two lives, the special factor may be obtained through use of the following formula:

$$\left(1 + \frac{i}{2}\right) \sum_{t=0}^{n-1} V^{(t+1)} \left[ \left(1 - \frac{1_{x+t+1}}{l_x}\right) \left(1 - \frac{1_{y+t+1}}{l_y}\right) - \left(1 - \frac{1_{x+1}}{l_x}\right) \left(1 - \frac{1_{y+1}}{l_y}\right) \right] \left(1 - \frac{1}{2n} - \frac{t}{n}\right)$$

Where:

n=the estimated number of years of useful life,  
i=the applicable interest rate under section 7520 of the Internal Revenue Code,  
v=1 divided by the sum of 1 plus the applicable interest rate under section 7520 of the Internal Revenue Code,  
x and y=the ages of the life tenants, and  
lx and ly=the number of persons living at ages x and y as set forth in Table 80CNSMT in § 20.2031-7 (or, for prior periods, in § 20.2031-7A) of this chapter.

#### § 1.170A-13 [Amended]

Par. 5. Section 1.170A-13 is amended by removing the authority citation immediately following paragraph (d)(3).

Par. 6. Section 1.170A-14 is amended by:

1. Revising the third and fourth sentences of paragraph (h)(4), *Example 2*, as set forth below.
2. Removing the fifth sentence of paragraph (h)(4), *Example 2*.

#### § 1.170A-14 Qualified conservation contributions.

(b) \* \* \*

(4) \* \* \*

*Example 2.* \* \* \* Under § 1.170A-12(b), the value of a remainder interest in real property following one life is determined under § 25.2512-5 of this chapter (Gift Tax Regulations). (See § 25.2512-5A of this chapter with respect to the valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred before December 1, 1983.)

\* \* \* \* \* Par. 7. Immediately following § 1.643(d)-2, an undesignated center heading and § 1.642(c)-6A are added to read as follows:

#### Pooled Income Fund Actuarial Tables Applicable Before May 1, 1989

#### § 1.642(c)-6A Valuation of charitable remainder interests for which the valuation date is before May 1, 1989.

(a) *Valuation of charitable remainder interests for which the valuation date is before January 1, 1952.* There was no provision for the qualification of pooled income funds under section 642 until 1969. See § 20.2031-7A(a) of this chapter (Estate Tax Regulations) for the determination of the present value of a charitable remainder interest created before January 1, 1952.

(b) *Valuation of charitable remainder interests for which the valuation date is after December 31, 1951, and before January 1, 1971.* No charitable deduction is allowable for a transfer to a pooled income fund for which the valuation date is after the effective dates of the Tax Reform Act of 1969 unless the pooled income fund meets the requirements of section 642(c)(5). See § 20.2031-7A(b) of this chapter (Estate Tax Regulations) for the determination of the present value of a charitable remainder interest for which the valuation date is after December 31, 1951, and before January 1, 1971.

(c) *Present value of remainder interest in the case of transfers to pooled income funds for which the valuation date is after December 31, 1970, and before December 1, 1983.* For the determination of the present value of a remainder interest in property transferred to a pooled income fund for which the valuation date is after December 31, 1970, and before December 1, 1983, see § 20.2031-7A(c) of this chapter (Estate Tax Regulations) and former § 1.642(c)-6(e) (as contained in the 26 CFR part 1 edition revised as of April 1, 1994).

(d) *Present value of remainder interest dependent on the termination of one life in the case of transfers to pooled income funds made after November 30, 1983, for which the valuation date is before May 1, 1989—(1) In general.* For transfers to pooled income funds made after November 30, 1983, for which the valuation date is before May 1, 1989, the present value of the remainder interest at the time of the transfer of property to the fund is determined by computing the present value (at the time of the transfer) of the life income interest in the transferred property (as determined under paragraph (d)(2) of this section) and subtracting that value from the fair market value of the transferred property on the valuation date. The present value of a remainder interest that is dependent on the termination of the life of one individual is computed by use of Table G in paragraph (d)(4) of this section. For purposes of the computation under this section, the age of an individual is to be taken as the age of the individual at the individual's nearest birthday.

(2) *Present value of life income interest.* The present value of the life income interest in property transferred to a pooled income fund shall be computed on the basis of:

(i) Life contingencies determined from the values of  $l_x$  that are set forth in Table LN of § 20.2031-7A(d)(6) of this chapter (Estate Tax Regulations); and

(ii) Discount at a rate of interest, compounded annually, equal to the highest yearly rate of return of the pooled income fund for the 3 taxable years immediately preceding its taxable year in which the transfer of property to the fund is made. For purposes of this paragraph (d)(2), the yearly rate of return of a pooled income fund is determined as provided in § 1.642(c)-6(c) unless the highest yearly rate of return is deemed to be 9 percent. For purposes of this paragraph (d)(2), the first taxable year of a pooled income fund is considered a taxable year even though the taxable year consists of less than 12 months. However, appropriate adjustments must be made to annualize the rate of return earned by the fund for that period. Where it appears from the facts and circumstances that the highest yearly rate of return for the 3 taxable years immediately preceding the taxable year in which the transfer of property is made has been purposely manipulated to be substantially less than the rate of return that would otherwise be reasonably anticipated with the purpose of obtaining an excessive charitable deduction, that rate of return may not be used. In that case, the highest yearly rate of return of the fund is determined by treating the fund as a pooled income fund that has been in existence for less than 3 preceding taxable years. If a pooled income fund has been in existence less than 3 taxable years immediately preceding the taxable year in which the transfer of property to the fund is made, the highest yearly rate of return is deemed to be 9 percent.

Par. 8. Section 1.642(c)-6 is amended as follows:

1. The section heading is revised.
2. Paragraphs (a) and (b) are revised.
3. Paragraph (c)(1) is revised.
4. Paragraphs (d)(2) and (d)(3) are redesignated as § 1.642(c)-6A, paragraphs (d)(3) and (d)(4), respectively.

5. Paragraph (d)(1) is redesignated as paragraph (d) and revised.

6. Paragraph (e) is revised.

7. The authority citation at the end of the section is removed.

8. Paragraph (f) is added.

9. The added and revised provisions read as follows:

**§ 1.642(c)-4 Valuation of a remainder interest in property transferred to a pooled income fund after April 30, 1989.**

(a) *In general.* (1) For purposes of sections 170, 2055, 2106, and 2522, the fair market value of a remainder interest in property transferred to a pooled income fund is its present value determined under paragraph (d) of this section.

(2) The present value of a remainder interest at the time of the transfer of property to the pooled income fund is determined by computing the present value (at the time of the transfer) of the life income interest and subtracting that value from the fair market value of the transferred property on the valuation date. The fact that the income beneficiary may not receive the last income payment, as provided in paragraph (b)(7) of § 1.642(c)-5, is not taken into account for purposes of determining the value of the life income interest. For purposes of this section, the valuation date is the date on which property is transferred to the fund by the donor except that, for purposes of section 2055 or 2106, it is the alternate valuation date, if elected, under the provisions and limitations set forth in section 2032 and the regulations thereunder.

(3) Any claim for a deduction on any return for the value of the remainder interest in property transferred to a pooled income fund must be supported by a statement attached to the return showing the computation of the present value of the interest.

(b) *Actuarial computations by the Internal Revenue Service.* The regulations in this and in related sections provide tables of actuarial factors and examples that illustrate the use of the tables in determining the value of remainder interests in property. Section 1.7520-1(c)(2) refers to government publications that provide additional tables of factors and examples of computations for more complex situations. If the computation requires the use of a factor that is not provided in this section, the Commissioner may supply the factor upon a request for a ruling. A request for a ruling must be accompanied by a recitation of the facts including the pooled income fund's highest yearly rate of return for the 3 taxable years immediately preceding the date of transfer, the date of birth of each measuring life, and copies of the relevant documents. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and

include payment of the required user fee. If the Commissioner furnishes the factor, a copy of the letter supplying the factor should be attached to the tax return in which the deduction is claimed. If the Commissioner does not furnish the factor, the taxpayer must furnish a factor computed in accordance with the principles set forth in this section.

(c) *Computation of pooled income fund's yearly rate of return.* (1) For purposes of determining the present value of the life income interest, the yearly rate of return earned by a pooled income fund for a taxable year is the percentage obtained by dividing the amount of income earned by the pooled income fund for the taxable year by an amount equal to—

(i) The average fair market value of the property in such fund for that taxable year; less

(ii) The corrective term adjustment.

(d) *Valuation.* The present value of the remainder interest in property transferred to a pooled income fund after April 30, 1989, is determined under paragraph (e) of this section. The present value of the remainder interest in property transferred to a pooled income fund for which the valuation date is before May 1, 1989, is determined under the following sections:

Valuation dates		Applicable regulations
After	Before	
12-31-51 .....	01-01-52	1.642(c)-6A(a)
12-31-70 .....	01-01-71	1.642(c)-6A(b)
11-30-83 .....	12-01-83	1.642(c)-6A(c)
	05-01-89	1.642(c)-6A(d)

(e) *Present value of the remainder interest in the case of transfers to pooled income funds for which the valuation date is after April 30, 1989.* (1) *In general.* In the case of transfers to pooled income funds for which the valuation date is after April 30, 1989, the present value of a remainder interest is determined under this section. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). The present value of a remainder interest that is dependent on the termination of the life of one individual is computed by the use of Table 5 in paragraph (e)(5) of this section. For purposes of the computations under this section, the age of an individual is the age at the individual's nearest birthday. If the valuation date of a transfer to a pooled income fund is after April 30, 1989, and before June 10, 1994, a transferor can

rely on Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700, in valuing the transferred interest. (See § 601.601(d)(2)(ii)(b) of this chapter.)

(2) *Present value of a remainder interest.* The present value of a remainder interest in property transferred to a pooled income fund is computed on the basis of—

(i) Life contingencies determined from the values of  $l_x$  that are set forth in Table 80CNSMT in § 20.2031-7(d)(6) of this chapter (Estate Tax Regulations); and

(ii) Discount at a rate of interest, compounded annually, equal to the highest yearly rate of return of pooled income fund for the 3 taxable years immediately preceding its taxable year in which the transfer of property to the fund is made. For purposes of this paragraph (e), the yearly rate of return of a pooled income fund is determined as provided in § 1.642(c)-6(c) unless the highest rate of return is deemed to be the rate described in paragraph (e)(3) of this section for funds in existence less than 3 taxable years. For purposes of this paragraph (e)(2)(ii), the first taxable year of a pooled income fund is considered a taxable year even though the taxable year consists of less than 12 months. However, appropriate adjustments must be made to annualize the rate of return earned by the fund for that period. Where it appears from the facts and circumstances that the highest yearly rate of return of the fund for the 3 taxable years immediately preceding the taxable year in which the transfer of property is made has been purposely manipulated to be substantially less than the rate of return that would otherwise be reasonably anticipated with the purpose of obtaining an excessive charitable deduction, that rate of return may not be used. In that case, the highest yearly rate of return of the fund is determined by treating the fund as a pooled income fund that has been in existence for less than 3 preceding taxable years.

(3) *Pooled income funds in existence less than 3 taxable years.* If a pooled income fund has been in existence less than 3 taxable years immediately preceding the taxable year in which the transfer is made to the fund and the transfer to the fund is made after April 30, 1989, the highest rate of return is deemed to be the interest rate (rounded to the nearest two-tenths of one percent) that is 1 percent less than the highest annual average of the monthly section 7520 rates for the 3 calendar years immediately preceding the calendar year in which the transfer to the pooled income fund is made. The deemed rate of return for transfers to new pooled

income funds is recomputed each calendar year using the monthly section 7520 rates for the 3-year period immediately preceding the calendar year in which each transfer to the fund is made until the fund has been in existence for 3 taxable years and can compute its highest rate of return for the 3 taxable years immediately preceding the taxable year in which the transfer of property to the fund is made in accordance with the rules set forth in the first sentence of paragraph (e)(2)(ii) of this section.

(4) *Computation of value of remainder interest.* The factor that is used in determining the present value of a remainder interest that is dependent on the termination of the life of one individual is the factor from Table S in paragraph (e)(5) of this section under the appropriate yearly rate of return opposite the number that corresponds to the age of the individual upon whose life the value of the remainder interest is based. The tables in paragraph (e)(5) of this section include factors for yearly rates of return from 4.2 to 14 percent. Many actuarial factors not contained in the tables in paragraph (e)(5) of this

section are contained in Table S in Internal Revenue Service Publication 1457, "Actuarial Values, Alpha Volume," (8-89). A copy of this publication may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402. For other situations, see § 1.642(c)-6(b).

If the yearly rate of return is a percentage that is between the yearly rates of return for which factors are provided, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the fair market value of the property on the valuation date by the appropriate remainder factor. This paragraph may be illustrated by the following example:

*Example.* A, who will be 55 years old on May 8, 1990, transfers \$100,000 to a pooled income fund on January 1, 1990, and retains a life income interest in the property. The highest yearly rate of return earned by the fund for its 3 preceding taxable years is 9.47 percent. In Table S, the remainder factor opposite 55 years under 9.4 percent is .18785 and under 9.6 percent is .18322. The present value of the remainder interest is \$18,623.00, computed as follows:

Factor at 9.4 percent for age 55 .....	.18785
Factor at 9.6 percent for age 55 .....	.18322
Difference .....	.00463

#### Interpolation adjustment:

$$\frac{9.47\% - 9.4\%}{0.2\%} = \frac{x}{.00463}$$

$$x = .00162$$

Factor at 9.4 percent for age 55 .....	.18785
Less: Interpolation adjustment .....	.00162
Interpolated factor .....	.18623
Present value of remainder interest: {\$100,000 × .18623} .....	\$18,623.00

(5) *Actuarial tables.* In the case of transfers for which the valuation date is after April 30, 1989, the present value of a remainder interest dependent on the termination of one life in the case of a transfer to a pooled income fund is determined by use of the following tables:

TABLE S.—BASED ON LIFE TABLE 80CNSMT SINGLE LIFE REMAINDER FACTORS

[Applicable after April 30, 1989]

Age	Interest rate									
	4.2%	4.4%	4.6%	4.8%	5.0%	5.2%	5.4%	5.6%	5.8%	6.0%
0 .....	.07389	.06749	.06188	.05695	.05261	.04879	.04541	.04243	.03978	.03744

(f) Effective date. This section is effective as of May 1, 1989.

Par. 9. Section 1.642(c)-6A is further amended by revising the heading for Table G in newly designated paragraph (d)(4) to read as follows:

**§ 1.642(c)-6A Valuation of charitable remainder interests for which the valuation date is before May 1, 1989.**

(d) Present value of remainder interest dependent on the termination of one life in the case of transfers to pooled income funds made after November 30, 1983, for which the valuation date is before May 1, 1989.

(4) \*

#### Table G

Table G—Single Life, Unisex—Table Showing the Present Worth of the Remainder Interest in Property Transferred to a Pooled Income Fund Having the Yearly Rate of Return Shown—Applicable for Transfers After November 30, 1983, and Before May 1, 1989

Par. 10. Section 1.664-1 is amended as follows:

1. Paragraph (a)(5)(ii)(b) is revised.
2. Paragraphs (a)(5)(iv) (a) through (c) are revised and paragraph (a)(5)(iv)(d) is added.
3. Paragraph (a)(6), the introductory text, is revised.
4. The authority citation at the end of the section is removed.
5. The added and revised provisions read as follows:

**§ 1.664-1 Charitable remainder trusts.**

(a) \* \* \*

(5) \* \* \*

(ii) \* \* \*

(b) (1) In the case of transfers made after November 30, 1983, for which the valuation date is before May 1, 1989, a factor equal to 1.000000 less the factor under the appropriate adjusted payout rate in column 2 of Table D in § 1.664-4A(d)(6) opposite the number of years in column 1 between the date of death of the decedent and the date of the earlier of the death of the last recipient or the last day of such taxable year.

(2) In the case of transfers for which the valuation date is after April 30, 1989, a factor equal to 1.000000 less the factor under the appropriate adjusted payout rate in Table D in § 1.664-4(e)(6) opposite the number of years in column 1 between the date of death of the decedent and the date of the earlier of the death of the last recipient or the last day of such taxable year. The appropriate adjusted payout rate is

determined by using the appropriate Table F contained in § 1.664-4(e)(6) for the section 7520 rate for the month of the valuation date.

(3) If the number of years between the date of death and the date of the earlier of the death of the last recipient or the last day of such taxable year is between periods for which factors are provided, a linear interpolation must be made.

(iv) \* \* \*

(a) The section 7520 rate for the month in which the valuation date with respect to the transfer is (or one of the prior two months if elected under § 1.7520-2(b)) after April 30, 1989;

(b) 10 percent for instruments executed or amended (other than in the case of a reformation under section 2055(e)(3)) on or after August 9, 1984, and before May 1, 1989, and not subsequently amended;

(c) 6 percent or 10 percent for instruments executed or amended (other than in the case of a reformation under section 2055(e)(3)) after October 24, 1983, and before August 9, 1984; and

(d) 6 percent for instruments executed before October 25, 1983, and not subsequently amended (other than in the case of a reformation under section 2055(e)(3)).

(6) Examples. The application of the rules in paragraphs (a)(4) and (a)(5) of this section require the use of actuarial factors contained in § 1.664-4(e), § 1.664-4A(d), and former § 1.664-4(d) (as contained in the 26 CFR Part 1 edition revised as of April 1, 1994) and may be illustrated by use of the following examples:

Par. 11. Section 1.664-2 is amended as follows:

1. Paragraph (c) is revised as set forth below.
2. The authority citation at the end of the section is removed.

**§ 1.664-2 Charitable remainder annuity trust.**

(c) Calculation of the fair market value of the remainder interest of a charitable remainder annuity trust. For purposes of sections 170, 2055, 2106, and 2522, the fair market value of the remainder interest of a charitable remainder annuity trust (as described in this section) is the net fair market value (as of the appropriate valuation date) of the property placed in trust less the present value of the annuity. For purposes of this section, valuation date means, in general, the date on which the property is transferred to the trust by the donor regardless of when the trust is created. In the case of transfers to a

charitable remainder annuity trust for which the valuation date is after April 30, 1989, if an election is made under section 7520 and § 1.7520-2(b) to compute the present value of the charitable interest by use of the interest rate component for either of the 2 months preceding the month in which the transfer is made, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. For purposes of section 2055 or 2106, the valuation date is the date of death unless the alternate valuation date is elected in accordance with section 2032, in which event, and within the limitations set forth in section 2032 and the regulations thereunder, the valuation date is the alternate valuation date. If the decedent's estate elects the alternate valuation date under section 2032 and also elects, under section 7520 and § 1.7520-2(b), to use the interest rate component for one of the 2 months preceding the alternate valuation date, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. The present value of an annuity is computed under § 20.2031-7(d) of this chapter (Estate Tax Regulations) for transfers for which the valuation date is after April 30, 1989, or under § 20.2031-7A(a) through (d) of this chapter, whichever is applicable, for transfers for which the valuation date is before May 1, 1989. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). If the valuation date of a transfer to a charitable remainder annuity trust is after April 30, 1989, and before June 10, 1994, a transferor can rely on Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700 (See § 601.601(d)(2)(ii)(b) of this chapter), in valuing the transferred interest.

Par. 12. Immediately following § 1.664-4 an undesigned center heading and § 1.664-4A are added to read as follows:

**Unitrust Actuarial Tables Applicable Before May 1, 1989**

**§ 1.664-4A Valuation of charitable remainder interests for which the valuation date is before May 1, 1989.**

(a) Valuation of charitable remainder interests for which the valuation date is before January 1, 1952. There was no provision for the qualification of a charitable remainder unitrust under section 664 until 1969. See § 20.2031-7A(a) of this chapter (Estate Tax Regulations) for the determination of the present value of a charitable interest for

which the valuation date is before January 1, 1952.

(b) *Valuation of charitable remainder interests for which the valuation date is after December 31, 1951, and before January 1, 1971.* No charitable deduction is allowable for a transfer to a unitrust for which the valuation date is after the effective dates of the Tax Reform Act of 1969 unless the unitrust meets the requirements of section 664. See § 20.2031-7A(b) of this chapter (Estate Tax Regulations) for the determination of the present value of a charitable remainder interest for which the valuation date is after December 31, 1951, and before January 1, 1971.

(c) *Valuation of charitable remainder unitrusts having certain payout sequences for transfers for which the valuation date is after December 31, 1970, and before December 1, 1983.* For the determination of the present value of a charitable remainder unitrust for which the valuation date is after December 31, 1970, and before December 1, 1983, see § 20.2031-7A(c) of this chapter (Estate Tax Regulations) and former § 1.664-4(d) (as contained in the 26 CFR part 1 edition revised as of April 1, 1994).

(d) *Valuation of charitable remainder unitrusts having certain payout sequences for transfers for which the valuation date is after November 30, 1983, and before May 1, 1989—(1) In general.* Except as otherwise provided in paragraph (d)(2) of this section, in the case of transfers made after November 30, 1983, for which the valuation date is before May 1, 1989, the present value of a remainder interest that is dependent on a term of years or the termination of the life of one individual is determined under paragraphs (d)(3) through (d)(6) of this section, provided that the amount of the payout as of any payout date during any taxable year of the trust is not larger than the amount that the trust could distribute on such date under § 1.664-3(a)(1)(v) if the taxable year of the trust were to end on such date. The present value of the remainder interest in the trust is determined by computing the adjusted payout rate (as defined in paragraph (d)(3) of this section) and following the procedure outlined in paragraph (d)(4) or (d)(5) of this section, whichever is applicable. The present value of a remainder interest that is dependent on a term of years is computed under paragraph (d)(4) of this section. The present value of a remainder interest that is dependent on the termination of the life of one individual is computed under paragraph (d)(5) of this section. See paragraph (d)(2) of this section for testamentary transfers for which the valuation date is

after November 30, 1983, and before August 9, 1984.

(2) *Rules for determining the present value for testamentary transfers where the decedent dies after November 30, 1983, and before August 9, 1984.* For purposes of section 2055 or 2106, if—

- (i) The decedent dies after November 30, 1983, and before August 9, 1984; or
- (ii) On December 1, 1983, the decedent was mentally incompetent so that the disposition of the property could not be changed, and the decedent died after November 30, 1983, without regaining competency to dispose of the decedent's property, or died within 90 days of the date on which the decedent first regained competency, the present value determined under this section of a remainder interest is determined in accordance with paragraph (d)(1) and paragraphs (d)(3) through (d)(6) of this section, or § 1.664-4A(c), at the option of the taxpayer.

Par. 13. Section 1.664-4 is amended as follows:

1. Paragraph (a) is revised.
2. Paragraphs (b)(2) through (b)(5) are redesignated as paragraphs (d)(3) through (d)(6) of § 1.664-4A, respectively.
3. Paragraph (b)(1) is redesignated as paragraph (b) and revised.
4. Paragraphs (c) and (d) are revised.
5. The authority citation at the end of the section is removed.
6. Paragraphs (e) and (f) are added.
7. The revisions and additions read as follows:

#### **§ 1.664-4 Calculation of the fair market value of the remainder interest in a charitable remainder unitrust**

(a) *Rules for determining present value.* For purposes of sections 170, 2055, 2106, and 2522, the fair market value of a remainder interest in a charitable remainder unitrust (as described in § 1.664-3) is its present value determined under paragraph (d) of this section. The present value determined under this section shall be computed on the basis of—

(1) Life contingencies determined as to each life involved, from the values of  $\frac{1}{x}$  set forth in Table 80CNSMT contained in § 20.2031-7(d)(6) of this chapter (Estate Tax Regulations) in the case of transfers for which the valuation date is after April 30, 1989, or column 2 of Table LN, of § 20.2031-7A(d)(6) of this chapter in the case of transfers made after November 30, 1983, for which the valuation date is before May 1, 1989. See § 20.2031-7A (a) through (c) of this chapter, whichever is applicable, for transfers for which the valuation date is before December 1, 1983;

(2) Interest at the section 7520 rate in the case of transfers for which the valuation date is after April 30, 1989, or 10 percent in the case of transfers to charitable remainder unitrusts made after November 30, 1983, for which the valuation date is before May 1, 1989. See § 20.2031-7A (a) through (c) of this chapter, whichever is applicable, for transfers for which the valuation date is before December 1, 1983; and

(3) The assumption that the amount described in § 1.664-3(a)(1)(i)(a) is distributed in accordance with the payout sequence described in the governing instrument. If the governing instrument does not prescribe when the distribution is made during the period for which the payment is made, for purposes of this section, the distribution is considered payable on the first day of the period for which the payment is made.

(b) *Actuarial Computations by the Internal Revenue Service.* The regulations in this and in related sections provide tables of actuarial factors and examples that illustrate the use of the tables in determining the value of remainder interests in property. Section 1.7520-1(c)(2) refers to government publications that provide additional tables of factors and examples of computations for more complex situations. If the computation requires the use of a factor that is not provided in this section, the Commissioner may supply the factor upon a request for a ruling. A request for a ruling must be accompanied by a recitation of the facts including the date of birth of each measuring life, and copies of the relevant documents. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (See § 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee. If the Commissioner furnishes the factor, a copy of the letter supplying the factor should be attached to the tax return in which the deduction is claimed. If the Commissioner does not furnish the factor, the taxpayer must furnish a factor computed in accordance with the principles set forth in this section.

(c) *Statement supporting deduction required.* Any claim for a deduction on any return for the value of a remainder interest in a charitable remainder unitrust must be supported by a full statement attached to the return showing the computation of the present value of such interest.

(d) *Valuation.* The fair market value of a remainder interest in a charitable remainder unitrust (as described in

§ 1.664-3) for transfers for which the valuation date is after April 30, 1989, is its present value determined under paragraph (e) of this section. The fair market value of a remainder interest in a charitable remainder unitrust (as described in § 1.664-3) for transfers for which the valuation date is before May 1, 1989, is its present value determined under the following sections:

Valuation dates		Applicable regulations
After	Before	
12-31-51 .....	01-01-52	1.664-4A(a)
12-31-70 .....	01-01-71	1.664-4A(b)
11-30-83 .....	12-01-83	1.664-4A(c)
	05-01-89	1.664-4A(d)

(e) *Valuation of charitable remainder unitrusts having certain payout sequences for transfers for which the valuation date is after April 30, 1989—(1) In general.* Except as otherwise provided in paragraph (e)(2) of this section, in the case of transfers for which the valuation date is after April 30, 1989, the present value of a remainder interest is determined under paragraphs (e)(3) through (e)(6) of this section, provided that the amount of the payout as of any payout date during any taxable year of the trust is not larger than the amount that the trust could distribute on such date under § 1.664-3(a)(1)(v) if the taxable year of the trust were to end on such date. See, however, § 1.7520-3(b) (relating to exceptions to the use of the prescribed tables under certain circumstances).

(2) *Transitional rules for valuation of charitable remainder unitrusts.* (i) If the valuation date of a transfer to a charitable remainder unitrust is after April 30, 1989, and before June 10, 1994, a transferor can rely upon Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700, in valuing the transferred interest. (See § 601.601(d)(2)(ii)(b) of this chapter.)

(ii) For purposes of sections 2055, 2106, or 2624, if on May 1, 1989, the decedent was mentally incompetent so that the disposition of the property could not be changed, and the decedent died after April 30, 1989, without having regained competency to dispose of the decedent's property, or the decedent died within 90 days of the date that the decedent first regained competency after April 30, 1989, the present value of a remainder interest determined under this section is determined as if the valuation date with respect to the decedent's gross estate is either before May 1, 1989, or after April 30, 1989, at the option of the decedent's executor.

(3) *Adjusted payout rate.* For transfers for which the valuation date is after April 30, 1989, the adjusted payout rate is determined by using the appropriate Table F, contained in paragraph (e)(6) of this section, for the section 7520 interest rate applicable to the transfer. If the interest rate is between 4.2 and 14 percent, see paragraph (e)(6) of this section. If the interest rate is below 4.2 percent or greater than 14 percent, see § 1.664-4(b). The adjusted payout rate is determined by multiplying the fixed percentage described in § 1.664-3(a)(1)(i)(a) by the factor describing the payout sequence of the trust and the number of months by which the valuation date for the first full taxable year of the trust precedes the first payout date for such taxable year. If the governing instrument does not prescribe when the distribution or distributions shall be made during the taxable year of the trust, see § 1.664-4(a). In the case of a trust having a payout sequence for which no figures have been provided by the appropriate table, and in the case of a trust that determines the fair market value of the trust assets by taking the average of valuations on more than one date during the taxable year, see § 1.664-4(b).

(4) *Period is a term of years.* If the period described in § 1.664-3(a)(5) is a term of years, the factor that is used in determining the present value of the remainder interest for transfers for which the valuation date is after April 30, 1989, is the factor under the appropriate adjusted payout rate in Table D in paragraph (e)(6) of this section corresponding to the number of years in the years. If the adjusted payout rate is an amount that is between adjusted payout rates for which factors are provided in Table D, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the net fair market value (as of the appropriate valuation date) of the property placed in trust by the factor determined under this paragraph. For purposes of this section, the valuation date is, in the case of an inter vivos transfer, the date on which the property is transferred to the trust by the donor. However, if an election is made under section 7520 and § 1.7520-2(b) to compute the present value of the charitable interest by use of the interest rate component for either of the 2 months preceding the month in which the date of transfer falls, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. In the case of a testamentary transfer under section 2055, 2106, or 2624, the valuation date

is the date of death, unless the alternate valuation date is elected under section 2032, in which event, and within the limitations set forth in section 2032 and the regulations thereunder, the valuation date is the alternate valuation date. If the decedent's estate elects the alternate valuation date under section 2032 and also elects, under section 7520 and § 1.7520-2(b), to use the interest rate component for one of the 2 months preceding the alternate valuation date, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. If the adjusted payout rate is between 4.2 and 14 percent, see paragraph (e)(6) of this section. If the adjusted payout rate is less than 4.2 percent or greater than 14 percent, see § 1.664-4(b). The application of this paragraph may be illustrated by the following example:

Example. D transfers \$100,000 to a charitable remainder unitrust on January 1, 1990. The trust instrument requires that the trust pay 8 percent of the fair market value of the trust assets as of January 1st for a term of 12 years to D in quarterly payments (March 31, June 30, September 30, and December 31). The section 7520 rate of January 1990 is 9.6 percent. Under Table F(9.6), the appropriate adjustment factor is .944628 for quarterly payments payable at the end of each quarter. The adjusted payout rate is 7.557 (8% × .944628). Based on the remainder factors in Table D, the present value of the remainder interest is \$38,950.30, computed as follows:

Factor at 7.4 percent for 12 years .....	.397495
Factor at 7.6 percent for 12 years .....	.387314
Difference .....	.010181

#### Interpolation adjustment:

$$\frac{7.557\% - 7.4\%}{0.2\%} = \frac{x}{.010181}$$

$$x = .007992$$

Factor at 7.4 percent for 12 years .....	.397495
Less: Interpolation adjustment .....	.007992

Interpolated factor .....	.389503
Present value of remainder interest: (\$100,000 × .389503) .....	\$38,950.30

(5) *Period is the life of one individual.* If the period described in § 1.664-3(a)(5) is the life of one individual, the factor that is used in determining the present value of the remainder interest for transfers for which the valuation date is after April 30, 1989, is the factor in Table U(1) in paragraph (e)(6) of this section under the appropriate adjusted payout. For purposes of the computations described in this paragraph, the age of an individual is

the age of that individual at the individual's nearest birthday. If the adjusted payout rate is an amount that is between adjusted payout rates for which factors are provided in the appropriate table, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the net fair market value (as of the valuation date as determined in paragraph (e)(4) of this section) of the property placed in trust by the factor determined under this paragraph (e)(5). If the adjusted payout rate is between 4.2 and 4.4 percent, see paragraph (e)(6) of this section. If the adjusted payout rate is below 4.2 percent or greater than 4.4 percent, see § 1.664-4(b). The application of this paragraph may be illustrated by the following example:

*Example.* A, who will be 45 years old on February 19, 1990, transfers \$100,000 to a charitable remainder unitrust on January 1, 1990. The trust instrument requires that the trust pay to A semiannually (on June 30 and December 31) 9 percent of the fair market

value of the trust assets as of January 1st during A's life. The section 7520 rate for January 1990 is 9.6 percent. Under Table F(9.6), the appropriate adjustment factor is .933805 for semiannual payments payable at the end of the semiannual period. The adjusted payout rate is 8.404 (9.6% × .933805). Based on the remainder factors in Table U(1), the present value of the remainder interest is \$11,098.00, computed as follows:

Factor at 8.4 percent at age 45 .....	.11106
Factor at 8.6 percent at age 45 .....	.10683
Difference .....	.00423

Interpolation adjustment:

$$\frac{8.404\% - 8.4\%}{0.2\%} = \frac{x}{.00423}$$

$$x = .00008$$

Factor at 8.4 percent at age 45 .....	.11106
Less: Interpolation adjustment .....	.00008
Interpolated Factor .....	.11098
Present value of remainder interest: (\$100,000 × .11098) .....	\$11,098.00

(6) *Actuarial tables for transfers for which the valuation date is after April 30, 1989.* For transfers for which the valuation date is after April 30, 1989, the present value of a charitable remainder unitrust interest that is dependent on a term of years or the termination of a life interest is determined by using the section 7520 rate and the tables set forth below. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances).

Many actuarial factors not contained in the following tables are contained in Internal Revenue Service Publication 1458, "Actuarial Values, Beta Volume," (8-89). A copy of this publication may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402.

(f) Effective date. This section is effective as of May 1, 1989.

Par. 14. Section 1.664-4A is further amended as follows:

1. The fifth sentence of newly designated paragraph (d)(4) is revised.
2. Newly designated paragraph (d)(5) is amended by:
  - a. Revising the first and fifth sentences;
  - b. Removing the reference "(b)(4)" in both places it appears and adding "(b)(5)" in each place;
  - c. The heading for newly designated paragraph (d)(6) is revised;
  - d. The headings for Table D, Table E, and Table F(1) in newly designated paragraph (d)(6) are revised;
  - e. The revisions read as follows:

**§ 1.664-4A Valuation of charitable remainder interests for which the valuation date is before May 1, 1989.**

(d) \* \* \*  
 (4) Period is a term of years. \* \* \* If the adjusted payout rate is greater than 14 percent, see § 1.664-4(b).

(5) Period is the life of one individual. If the period described in paragraph (a)(5) of § 1.664-3 is the life of one individual, the factor that is used in determining the present value of the remainder interest is the factor under the appropriate adjusted payout rate in column (2) of Table E in paragraph (d)(6) of this section opposite the number in column (1) that corresponds to the age of the individual whose life measures the period. \* \* \* If the adjusted payout rate is greater than 14 percent, see § 1.664-4(b). \* \* \*

(6) Actuarial tables for transfers for which the valuation date is after November 30, 1983, and before May 1, 1989.

\* \* \* \* \*  
**Table D**

Table D—Term Certain—Table Showing the Present Worth of a Remainder Interest Postponed for a Term of Years in a Charitable Remainder Unitrust Having the Adjusted Payout Rate Shown—Applicable for Transfers After November 30, 1983, and Before May 1, 1989

\* \* \* \* \*  
**Table E**

Table E—Single Life, Unisex—Table Showing the Present Worth of the Remainder Interest in Property Transferred to a Unitrust Having the Adjusted Payout Rate Shown—Applicable for Transfers After November 30, 1983, and Before May 1, 1989

\* \* \* \* \*  
**Table F(1)**

Table F(1)—10 Percent—Table Showing Factors for Computations of the Adjusted Payout Rate for Certain Valuations and Payout Sequences—Applicable for Transfers After November 30, 1983, and Before May 1, 1989

\* \* \* \* \*  
 Par. 14a. An undesigned center heading is added immediately before § 1.665(a)-OA to read as follows:

**Treatment of Excess Distributions of Trusts Applicable to Taxable Years Beginning on or After January 1, 1969**

Par. 14b. The undesigned center heading immediately preceding § 1.665(a)-O is revised to read as follows:

**Treatment of Excess Distributions of Trusts Applicable to Taxable Years Beginning Before January 1, 1969**

Par. 15. Section 1.1011-2, paragraph (c), Example (8)(b) is amended by adding the following three sentences at the end of the paragraph.

**§ 1.1011-2 Bargain sale to charitable organization.**

(c) \* \* \*  
*Example (8).*

(b) \* \* \* See Rev. Rul. 84-162, 1984-2 C.B. 200, for transfers for which the valuation date falls after November 23, 1984. (See § 601.601(d)(2)(ii)(b) of this chapter). For the applicable valuation tables in connection therewith, see § 20.2031-7(d)(6) of this chapter. See, however, § 1.7520-3(b) (relating to exceptions to the use of standard actuarial factors in certain circumstances).

Par. 16. Immediately following § 1.7519-3T, an undesigned center heading and §§ 1.7520-1 through 1.7520-4 are added to read as follows:

**General Actuarial Valuations****§ 1.7520-1 Valuation of annuities, unitrust interests, interests for life or terms of years, and remainder or reversionary interests.**

(a) *General actuarial valuations.* (1) Except as otherwise provided in this section and in § 1.7520-3 (relating to exceptions to the use of prescribed tables under certain circumstances), in the case of certain transactions after April 30, 1989, subject to income tax, the fair market value of annuities, interests for life or for a term of years (including unitrust interests), remainders, and reversions is their present value determined under this section. See § 20.2031-7(d) (and, for certain prior periods, § 20.2031-7A) of this chapter, Estate Tax Regulations, for the computation of the value of annuities, unitrust interests, life estates, terms for years, remainders, and reversions, other than interests described in paragraphs (a)(2) and (a)(3) of this section.

(2) For a transfer to a pooled income fund after April 30, 1989, see § 1.642(c)-6(e) (or, for certain prior periods, § 1.642(c)-6A) with respect to the valuation of the remainder interest.

(3) For a transfer to a charitable remainder annuity trust after April 30, 1989, see § 1.664-2 with respect to the valuation of the remainder interest. See § 1.664-4 (or, for certain prior periods, § 1.664-4A) with respect to the valuation of the remainder interest in property transferred to a charitable remainder unitrust.

(b) *Components of valuation—(1) Interest rate component—(i) Section 7520 Interest rate.* The section 7520 interest rate is the rate of return, rounded to the nearest two-tenths of one percent, that is equal to 120 percent of the applicable Federal mid-term rate, compounded annually, for purposes of section 1274(d)(1), for the month in which the valuation date falls. In rounding the rate to the nearest two-tenths of a percent, any rate that is midway between one two-tenths of a percent and another is rounded up to the higher of those two rates. For example, if 120 percent of the applicable Federal mid-term rate is 10.30, the section 7520 interest rate component is 10.4. The section 7520 interest rate is published monthly by the Internal Revenue Service in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter).

(ii) *Valuation date.* Except as provided in § 1.7520-2, the valuation date is the date on which the transaction takes place.

(2) *Mortality component.* The mortality component reflects the

mortality data most recently available from the United States census. As new mortality data becomes available after each decennial census, the mortality component described in this section will be revised periodically and the revised mortality component tables will be published in the regulations at that time. For transactions with valuation dates after April 30, 1989, the mortality component table (Table 80CNSMT) is contained in § 20.2031-7(d) of this chapter (Estate Tax Regulations). See § 20.2031-7A for mortality component tables applicable to transactions for which the valuation date falls before May 1, 1989.

(c) *Tables.* The present value on the valuation date of an annuity, life estate, term of years, remainder, or reversion is computed by using the section 7520 interest rate component that is described in paragraph (b)(1) of this section and the mortality component that is described in paragraph (b)(2) of this section. Actuarial factors for determining these present values are included in tables in these regulations and in publications by the Internal Revenue Service. If a special factor is required in order to value an interest, the Internal Revenue Service will furnish the factor upon a request for a ruling. The request for a ruling must be accompanied by a recitation of the facts, including the date of birth for each measuring life and copies of relevant instruments. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see Rev. Proc. 94-1, 1994-1 I.R.B. 10, and subsequent updates, and §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee.

(1) *Regulation sections containing tables with interest rates between 4.2 and 14 percent.* Section 1.642(c)-6(e)(4) contains Table S used for determining the present value of a single life remainder interest in a pooled income fund as defined in § 1.642(c)-5. Section 1.664-4(e)(6) contains Table D (actuarial factors used in determining the present value of a remainder interest postponed for a term of years), Table U(1) (actuarial factors for one life), and Table F (payout factors) used in determining the present value of a remainder interest in a charitable remainder unitrust as defined in § 1.664-3. Section 20.2031-7(d)(6) of this chapter (Estate Tax Regulations) contains Table S (actuarial factors for one life), Table B (actuarial factors used in determining the present value of an interest for a term of years), Table K (annuity end-of-interval adjustment factors), Table J (term certain annuity

beginning-of-interval adjustment factors), and Table 80CNSMT (mortality components) used in determining the present value of annuities, life estates, remainders, and reversions. The regulations will be revised periodically to include new mortality component tables and new tables of factors.

(2) *Internal Revenue Service publications containing tables with interest rates between 2.2 and 26 percent.* The following documents (with the exception of Publication 1459) have been published for sale by the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402:

(i) Internal Revenue Service Publication 1457, "Actuarial Values, Alpha Volume," (8/89). This publication includes tables of valuation factors, as well as examples that show how to compute other valuation factors, for determining the present value of annuities, life estates, terms of years, remainders, and reversions, measured by one or two lives. These factors may also be used in the valuation of interests in a charitable remainder annuity trust, as defined in § 1.664-2 of this chapter and a pooled income fund as defined in § 1.642(c)-5 of this chapter.

(ii) Internal Revenue Service Publication 1458, "Actuarial Values, Beta Volume," (8/89). This publication includes term certain tables and tables of one and two life valuation factors for determining the present value of remainder interests in a charitable remainder unitrust as defined in § 1.664-3 of this chapter.

(iii) Internal Revenue Service Publication 1459, "Actuarial Values, Gamma Volume," (8-89) is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:R (IRS Publication 1459), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. This publication includes tables for computing depreciation adjustment factors. See § 1.170A-12 of this chapter.

(d) *Effective date.* This section is effective as of May 1, 1989.

**§ 1.7520-2 Valuation of charitable interests.**

(a) *In general—(1) Valuation.* Except as otherwise provided in this section and in § 1.7520-3 (relating to exceptions to the use of prescribed tables under certain circumstances), the fair market value of annuities, interests for life or for a term of years, remainders, and reversions for which an income tax charitable deduction is allowable is the

present value of such interests determined under § 1.7520-1.

(2) *Prior-month election rule.* If any part of the property interest transferred qualifies for an income tax charitable deduction under section 170(c), the taxpayer may elect (under paragraph (b) of this section) to compute the present value of the interest transferred by use of the section 7520 interest rate for the month during which the interest is transferred or the section 7520 interest rate component for either of the 2 months preceding the month during which the interest is transferred. Paragraph (b) of this section explains how a prior-month election is made. The interest rate for the month so elected is the applicable section 7520 interest rate, if the actuarial factor for either or both of the 2 months preceding the month during which the interest is transferred is based on a mortality experience that is different from the mortality experience at the date of the transfer and if the taxpayer elects to use the section 7520 rate for a prior month with the different mortality experience, the taxpayer must use the actuarial factor derived from the mortality experience in effect during the month of the section 7520 rate elected. All actuarial computations relating to the transfer must be made by applying the interest rate component and the mortality component of the month elected by the taxpayer.

(3) *Transfers of more than one interest in the same property.* If a taxpayer transfers more than one interest in the same property at the same time, for purposes of valuing the transferred interests, the taxpayer must use the same interest rate and mortality component for each interest in the property transferred. If more than one interest in the same property is transferred in two or more separate transfers at different times, the value of each interest is determined by the use of the interest rate component and mortality component in effect during the month of the transfer of that interest or, if applicable under paragraph (a)(2) of this section, either of the two months preceding the month of the transfer.

(4) *Information required with tax return.* The following information must be attached to the income tax return (or to the amended return) if the taxpayer claims a charitable deduction for the present value of a temporary or remainder interest in property—

- (i) A complete description of the interest that is transferred, including a copy of the instrument of transfer;
- (ii) The valuation date of the transfer;

(iii) The names and identification numbers of the beneficiaries of the transferred interest;

(iv) The names and birthdates of any measuring lives, a description of any relevant terminal illness condition of any measuring life, and (if applicable) an explanation of how any terminal illness condition was taken into account in valuing the interest; and

(v) A computation of the deduction showing the applicable section 7520 interest rate that is used to value the transferred interest.

(5) *Place for filing returns.* See section 6091 of the Internal Revenue Code and the regulations thereunder for the place for filing the return or other document required by this section.

(b) *Election of interest rate component—(1) Time for making election.* A taxpayer makes a prior-month election under paragraph (a)(2) of this section by attaching the information described in paragraph (b)(2) of this section to the taxpayer's income tax return or to an amended return for that year that is filed within 24 months after the later of the date the original return for the year was filed or the due date for filing the return.

(2) *Manner of making election.* A statement that the prior-month election under section 7520(a) of the Internal Revenue Code is being made and that identifies the elected month must be attached to the income tax return (or to the amended return).

(3) *Revocability.* The prior-month election may be revoked by filing an amended return within 24 months after the later of the date the original return of tax for the year was filed or the due date for filing the return. The revocation must be filed in the place referred to in paragraph (a)(5) of this section.

(c) *Effective dates.* Paragraph (a) of this section is effective as of May 1, 1989. Paragraph (b) of this section is effective for elections made after June 10, 1994.

#### § 1.7520-3 Limitation on the application of section 7520.

(a) *Internal Revenue Code sections to which section 7520 does not apply.* Section 7520 of the Internal Revenue Code does not apply for purposes of—

(1) Part I, subchapter D of subtitle A (section 401 et seq.), relating to the income tax treatment of certain qualified plans. (However, section 7520 does apply to the estate and gift tax treatment of certain qualified plans and for purposes of determining excess accumulations under section 4980A);

(2) Sections 72 and 101(b), relating to the income taxation of life insurance, endowment, and annuity contracts,

unless otherwise provided for in the regulations under sections 72, 101, and 1011 (see, particularly, §§ 1.101-2(e)(1)(iii)(b)(2), and 1.1011-2(c), Example 8);

(3) Sections 83 and 451, unless otherwise provided for in the regulations under those sections;

(4) Section 457, relating to the valuation of deferred compensation, unless otherwise provided for in the regulations under section 457;

(5) Sections 3121(v) and 3306(r), relating to the valuation of deferred amounts, unless otherwise provided for in the regulations under those sections;

(6) Section 6058, relating to valuation statements evidencing compliance with qualified plan requirements, unless otherwise provided for in the regulations under section 6058;

(7) Section 7872, relating to income and gift taxation of interest-free loans and loans with below-market interest rates, unless otherwise provided for in the regulations under section 7872; or

(8) Section 2702(a)(2)(A), relating to the value of a nonqualified retained interest upon a transfer of an interest in trust to or for the benefit of a member of the transferor's family; and

(9) Any other sections of the Internal Revenue Code to the extent provided by the Internal Revenue Service in revenue rulings or revenue procedures. (See §§ 601.201 and 601.661 of this chapter).

(b) *Other limitations on the application of section 7520.* [Reserved]

(c) *Effective date.* Section 1.7520-3(a) is effective as of May 1, 1989.

#### § 1.7520-4 Transitional rules.

(a) *Reliance.* If the valuation date is after April 30, 1989, and before June 10, 1994, a taxpayer can rely on Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700 [See

§ 601.601(d)(2)(ii)(b) of this chapter], in valuing the transferred interest.

(b) *Effective date.* This section is effective as of May 1, 1989.

#### PART 20—ESTATE TAX; ESTATES OF DECEASED DYING AFTER AUGUST 16, 1954

Par. 17. The authority citation for part 20 is revised to read as follows:

Authority: 26 U.S.C. 7805.

Section 20.2031-7 also issued under 26 U.S.C. 7520(c)(2).

Section 20.2031-7A also issued under 26 U.S.C. 7520(c)(2).

Section 20.7520-4 also issued under 26 U.S.C. 7520(c)(2).

Section 20.7520-2 also issued under 26 U.S.C. 7520(c)(2).

Section 20.7520-3 also issued under 26 U.S.C. 7520(c)(2).

Section 20.7520-4 also issued under 26 U.S.C. 7520(c)(2).

**Par. 18.** Section § 20.2013-4 is amended by:

1. Revising the second sentence of the introductory text of paragraph (a).
2. Revising the fourth sentence in Example (2) of paragraph (a).
3. The revisions read as follows:

**§ 20.2013-4 Valuation of property transferred.**

(a) \* \* \* If the decedent received a life estate or a remainder or other limited interest in property that was included in a transferor decedent's gross estate, the value of the interest is determined as of the date of the transferor's death on the basis of recognized valuation principles (see §§ 20.2031-7 (or, for certain prior periods, § 20.2031-7A) and 20.7520-1 through 20.7520-4). \* \* \*

\* \* \* \* \* Example (2). \* \* \* The part of that value attributable to the life estate is \$44,688 and the part of that value attributable to the remainder is \$55,312 (see § 20.2031-7A(b)). \* \* \* \* \*

**Par. 19.** Section 20.2031-0 is added to read as follows:

**§ 20.2031-0 Table of contents.**

This section lists the section headings and undesignated center headings that appear in the regulations under section 2031.

**§ 2031-1 Definition of gross estate; valuation of property.**

**§ 20.2031-2 Valuation of stocks and bonds.**

**§ 20.2031-3 Valuation of interests in businesses.**

**§ 20.2031-4 Valuation of notes.**

**§ 20.2031-5 Valuation of cash on hand or on deposit.**

**§ 20.2031-6 Valuation of household and personal effects.**

**§ 20.2031-7 Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is after April 30, 1989.**

**§ 20.2031-8 Valuation of certain life insurance and annuity contracts; valuation of shares in an open-end investment company.**

**§ 20.2031-9 Valuation of other property.**

**Actuarial Tables Applicable Before May 1, 1989**

**§ 20.2031-7A Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is before May 1, 1989.**

**Par. 20.** Immediately following § 20.2046-1 an undesignated center heading and § 20.2031-7A are added to read as follows:

**Actuarial Tables Applicable Before May 1, 1989**

**§ 20.2031-7A Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is before May 1, 1989.**

(a) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is before January 1, 1952.* Except as otherwise provided in § 20.2031-7(b), if the valuation date of the decedent's gross estate is before January 1, 1952, the present value of annuities, life estates, terms for years, remainders, and reversions is their present value determined under this section. If the valuation of the interest involved is dependent upon the continuation or termination of one or more lives or upon a term certain concurrent with one or more lives, the factor for the present value is computed on the basis of interest at the rate of 4 percent a year, compounded annually, and life contingencies as to each life involved from values that are based on the Actuaries' or Combined Experience Table of Mortality, as extended. This table and related factors are described in former § 81.10 (as contained in the 26 CFR Part 81 edition revised as of April 1, 1958). The present value of an interest measured by a term of years is computed on the basis of interest at the rate of 4 percent a year.

(b) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is after December 31, 1951, and before January 1, 1971.* Except as otherwise provided in § 20.2031-7(b), if the valuation date for the decedent's gross estate is after December 31, 1951, and before January 1, 1971, the present value of annuities, life estates, terms of years, remainders, and reversions is their present value determined under this section. If the valuation of the interest involved is dependent upon the continuation or termination of one or more lives, or upon a term certain concurrent with one or more lives, the factor for the present value is computed on the basis of interest at the rate of 3½ percent a year, compounded annually, and life contingencies as to each life involved are taken from U.S. Life Table 38. This table and related factors are set forth in former § 20.2031-7 (as contained in the 26 CFR Part 20 edition revised as of April 1, 1984). Special factors involving one and two lives may be found in or

computed with the use of tables contained in the publication entitled "Actuarial Values for Estate and Gift Tax," Internal Revenue Service Publication Number 11 (Rev. 5-59). This publication is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:R (IRS Publication 11), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. The present value of an interest measured by a term of years is computed on the basis of interest at the rate of 3½ percent a year.

(c) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is after December 31, 1970, and before December 1, 1983.*

Except as otherwise provided in § 20.2031-7(b), if the valuation date of the decedent's gross estate is after December 31, 1970, and before December 1, 1983, the present value of annuities, life estates, terms of years, remainders, and reversions is their present value determined under this section. If the valuation of the interest involved is dependent upon the continuation or termination of one or more lives or upon a term certain concurrent with one or more lives, the factor for the present value is computed on the basis of interest at the rate of 4 percent a year, compounded annually, and life contingencies as to each life involved from values that are set forth in Table LN. Table LN contains values that are taken from the life table for total males and the life table for total females appearing as Tables 2 and 3,

respectively, in United States Life Tables: 1959-1960, published by the Department of Health and Human Services, Public Health Service. Table LN and related factors are set forth in former § 20.2031-10 (as contained in the 26 CFR part 20 edition revised as of April 1, 1994). Special factors involving one and two lives may be found in or computed with the use of tables contained in Internal Revenue Service Publication 723, "Actuarial Values I: Valuation of Last Survivor Charitable Remainders," (12-70), and Internal Revenue Service Publication 723A, "Actuarial Values II: Factors at 6 Percent Involving One and Two Lives," (12-70). These publications are no longer available for purchase from the Superintendent of Documents. However, a copy of each may be obtained from: CC:DOM:CORP:T:R (IRS

Publication 729/723A), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044.

Par. 21. Section 20.2031-7 is redesignated as § 20.2031-7A, paragraph (d) and amended as follows:

1. The following redesignation table indicates the old CFR unit numbers for § 20.2031-7 and the corresponding new CFR unit numbers for § 20.2031-7A(d):

Old CFR unit No. in § 20.2031-7	Corresponding new No. in § 20.2031-7A
§ 20.2031-7 heading	Paragraph (d) heading.
(a) .....	(d)(1).
(a)(1) .....	(d)(1)(i).
(a)(2) .....	(d)(1)(ii).
(a)(3) .....	(d)(1)(iii).
(b) .....	(d)(2).
(b)(1) .....	(d)(2)(i).
(b)(2) .....	(d)(2)(ii).
(b)(3) .....	(d)(2)(iii).
(b)(3)(i) .....	(d)(2)(iii)(A).
(b)(3)(ii) .....	(d)(2)(iii)(B).
(c) through (d)	(d)(3) through (d)(6).

2. The paragraph heading for paragraph (d) is revised.

3. Paragraphs (d)(1)(i) and (iii) are revised.

4. Paragraph (d)(5), third and fourth sentences are revised and a new sentence is added after the fourth sentence.

5. Paragraph (d)(6), the headings for Tables A, B, and LN are revised.

6. The added and revised provisions read as follows:

**§ 20.2031-7A Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is before May 1, 1989.**

(d) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is after November 30, 1983, and before May 1, 1989*—(1) *In general.* (i) Except as otherwise provided in § 20.2031-7(b), if the decedent died after November 30, 1983, and the valuation date for the gross estate is before May 1, 1989, the fair market value of annuities, life estates, terms of years, remainders, and reversions is their present value determined under this section. If the decedent died after November 30, 1983, and before August 9, 1984, or, in cases where the valuation date of the decedent's gross estate is before May 1, 1989, if, on December 1, 1983, the decedent was mentally incompetent so that the disposition of the decedent's

property could not be changed, and the decedent died on or after December 1, 1983, without having regained competency to dispose of the decedent's property, or if the decedent died within 90 days of the date on which the decedent first regained competency, the fair market value of annuities, life estates, terms for years, remainders, and reversions included in the gross estate of such decedent is their present value determined under either this section or § 20.2031-7A(c), at the option of the taxpayer. The value of annuities issued by companies regularly engaged in their sale, and of insurance policies on the lives of persons other than the decedent, is determined under § 20.2031-8. The fair market value of a remainder interest in a charitable remainder unitrust, as defined in § 1.664-3 of this chapter, is its present value determined under § 1.664-4 of this chapter. The fair market value of a life interest or term for years in a charitable remainder unitrust is the fair market value of the property as of the date of valuation less the fair market value of the remainder interest on such date determined under § 1.664-4 of this chapter. The fair market value of the interests in a pooled income fund, as defined in § 1.642(c)-5 of this chapter, is their value determined under § 1.642(c)-6 of this chapter.

(ii) In all examples set forth in this section, the decedent is assumed to have died on or after August 9, 1984, with the valuation date of the decedent's gross estate before May 1, 1989, and to have been competent to change the disposition of the property on December 1, 1983.

(5) *Actuarial computations by the Internal Revenue Service.* \* \* \* Table LN contains values of  $\frac{1}{x}$  taken from the life table for the total population appearing as Table 1 of United States Life Tables: 1969-71, published by the Department of Health and Human Services, Public Health Service. Many special factors involving one and two lives may be found in or computed with the use of the tables contained in Internal Revenue Service Publication 723E, "Actuarial Values II: Factors at 10 Percent Involving One and Two Lives," (12-83). This publication is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:R (IRS Publication 723E), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044.

(6) \* \* \*

#### Table A

Table A—Single Life, Unisex, 10 Percent—Table Showing the Present Worth of An Annuity, of a Life Estate, and a Remainder Interest—Applicable for Transfers After November 30, 1983, and Before May 1, 1989

#### Table B

Table B—Term Certain, Unisex, 10 Percent—Table Showing the Present Worth of an Annuity for a Term Certain, of an Income Interest for a Term Certain, and of a Remainder Interest Postponed for a Term Certain—Applicable for Transfers After November 30, 1983, and before May 1, 1989

#### Table LN

Table LN—Applicable for Transfers After November 30, 1983, and Before May 1, 1989

Par. 22. New § 20.2031-7 is added to read as follows:

**§ 20.2031-7 Valuation of annuities, interests for life or term of years, and remainder or reversionary interests for estates of decedents for which the valuation date of the gross estate is after April 30, 1989.**

(a) *In general.* Except as otherwise provided in paragraph (b) of this section and § 20.7520-3(b) (pertaining to certain limitations on the use of prescribed tables), the fair market value of annuities, life estates, terms of years, remainders, and reversionary interests for estates of decedents is the present value of such interests, determined under paragraph (d) of this section. The regulations in this and in related sections provide tables with standard actuarial factors and examples that illustrate how to use the tables to compute the present value of ordinary annuity, life, and remainder interests in property. These sections also refer to standard and special actuarial factors that may be necessary to compute the present value of similar interests in more unusual fact situations.

(b) *Commercial annuities and insurance contracts.* The value of annuities issued by companies regularly engaged in their sale, and of insurance policies on the lives of persons other than the decedent, is determined under § 20.2031-8. See § 20.2042-1 with respect to insurance policies on the decedent's life.

(c) *Actuarial valuations before May 1, 1989.* The present value of annuities, life estates, terms of years, remainders, and reversions for estates of decedents

for which the valuation date of the gross estate is before May 1, 1989, is determined under the following sections:

Valuation date		Applicable section
After	Before	
12-31-51	01-01-52	20.2031-7A(a)
12-31-70	01-01-71	20.2031-7A(b)
11-30-83	12-01-83	20.2031-7A(c)
	05-01-89	20.2031-7A(d)

(d) *Actuarial valuations after April 30, 1989*—(1) In general. Except as otherwise provided in paragraph (b) of this section and § 20.7520-3(b) (pertaining to certain limitations on the use of prescribed tables), if the valuation date for the gross estate of the decedent is after April 30, 1989, the fair market value of annuities, life estates, terms of years, remainders, and reversionary interests is their present value determined by use of standard or special section 7520 actuarial factors. These factors are derived by using the appropriate section 7520 interest rate and, if applicable, the mortality component for the valuation date of the interest that is being valued. See §§ 20.7520-1 through 20.7520-4.

(2) *Specific Interests*—(i) *Charitable Remainder Trusts*. The fair market value of a remainder interest in a pooled income fund, as defined in § 1.642(c)-5 of this chapter, is its value determined under § 1.642(c)-6(e) of this chapter. The fair market value of a remainder interest in a charitable remainder annuity trust, as defined in § 1.664-2(a) of this chapter, is its present value determined under § 1.664-2(c) of this chapter. The fair market value of a remainder interest in a charitable remainder unitrust, as defined in § 1.664-3 of this chapter, is its present value determined under § 1.664-4(e) of this chapter. The fair market value of a life interest or term of years in a charitable remainder unitrust is the fair market value of the property as of the date of valuation less the fair market value of the remainder interest on that date determined under § 1.664-4(e) of this chapter.

(ii) *Ordinary remainder and reversionary interests*. If the interest to be valued is to take effect after a definite number of years or after the death of one individual, the present value of the interest is computed by multiplying the value of the property by the appropriate remainder interest actuarial factor (that corresponds to the applicable section 7520 interest rate and remainder interest period) in Table B (for a term certain) or

Table S (for one measuring life), as the case may be. Tables B and S are included in paragraph (d)(6) of this section and in Internal Revenue Service Publication 1457. For information about obtaining actuarial factors for other types of remainder interests, see paragraph (d)(4) of this section.

(iii) *Ordinary term-of-years and life interests*. If the interest to be valued is the right of a person to receive the income of certain property, or to use certain nonincome-producing property, for a term of years or for the life of one individual, the present value of the interest is computed by multiplying the value of the property by the appropriate term-of-years or life interest actuarial factor (that corresponds to the applicable section 7520 interest rate and term-of-years or life interest period). Internal Revenue Service Publication 1457 includes actuarial factors for an interest for a term of years in Table B and for the life of one individual in Table S. However, term-of-years and life interest actuarial factors are not included in Table B or Table S in § 20.2031-7(d)(6) of this chapter. If Internal Revenue Service Publication 1457 (or any other reliable source of term-of-years and life interest actuarial factors) is not conveniently available, an actuarial factor for the interest may be derived mathematically. This actuarial factor may be derived by subtracting the correlative remainder factor (that corresponds to the applicable section 7520 interest rate and the term of years or the life) in Table B (for a term of years) or in Table S (for the life of one individual) in § 20.2031-7(d)(6), as the case may be, from 1.000000. For information about obtaining actuarial factors for other types of term-of-years and life interests, see paragraph (d)(4) of this section.

(iv) *Annuities*. (A) If the interest to be valued is the right of a person to receive an annuity that is payable at the end of each year for a term of years or for the life of one individual, the present value of the interest is computed by multiplying the aggregate amount

payable annually by the appropriate annuity actuarial factor (that corresponds to the applicable section 7520 interest rate and annuity period). Internal Revenue Publication 1457 includes actuarial factors in Table B (for an annuity payable for a term of years) and in Table S (for an annuity payable for the life of one individual). However, annuity actuarial factors are not included in Table B or Table S in paragraph (d)(6) of this section. If Internal Revenue Service Publication 1457 (or any other reliable source of annuity actuarial factors) is not conveniently available, a required annuity factor for a term of years or for one life may be mathematically derived. This annuity factor may be derived by subtracting the applicable remainder factor (that corresponds to the applicable section 7520 interest rate and annuity period) in Table B (in the case of a term-of-years annuity) or in Table S (in the case of a one-life annuity) in paragraph (d)(6) of this section, as the case may be, from 1.000000 and then dividing the result by the applicable section 7520 interest rate expressed as a decimal number.

(B) If the annuity is payable at the end of semiannual, quarterly, monthly, or weekly periods, the product obtained by multiplying the annuity factor by the aggregate amount payable annually is then multiplied by the applicable adjustment factor set forth in Table K for payments made at the end of the specified periods. The provisions of this paragraph (d)(2)(iv)(B) are illustrated by the following example:

*Example*. At the time of the decedent's death in January 1990, the annuitant, age 72, is entitled to receive an annuity of \$15,000 a year for life payable in equal monthly installments at the end of each period. The section 7520 rate for January 1990 is 9.6 percent. Under Table S, the remainder factor at 9.6 percent for an individual aged 72 is .40138. By converting the remainder factor to an annuity factor, as described above, the annuity factor at 9.6 percent for an individual aged 72 is 6.2356 (1.00000 minus .40138, divided by .096). Under Table K, the adjustment factor under the column for payments made at the end of each monthly

period at the rate of 9.6 percent is 1.0433. The aggregate annual amount, \$15,000, is multiplied by the factor 6.2356 and the product multiplied by 1.0433. The present value of the annuity at the date of the decedent's death is, therefore, \$97,584.02 (\$15,000x6.2356x1.0433).

(C) If an annuity is payable at the beginning of annual, semiannual, quarterly, monthly, or weekly periods for a term of years, the value of the annuity is computed by multiplying the aggregate amount payable annually by the annuity factor described in paragraph (d)(2)(iv)(A) of this section; and the product so obtained is then multiplied by the adjustment factor in Table J at the appropriate interest rate component for payments made at the beginning of specified periods. If an annuity is payable at the beginning of annual, semiannual, quarterly, monthly, or weekly periods for one or more lives, the value of the annuity is the sum of the first payment plus the present value of a similar annuity, the first payment of which is not to be made until the end of the payment period, determined as provided in this paragraph (d)(2)(iv).

(v) *Annuity and unitrust interests for a term of years or until the prior death of an individual.* See § 25.2512-5(d)(2)(v) of this chapter for examples explaining how to compute the present value of an annuity or unitrust interest that is payable until the earlier of the lapse of a specific number of years or the death of an individual.

(3) *Transitional rule.* (i) If the valuation date is after April 30, 1989, and before June 10, 1994, a taxpayer can rely on Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700 (See S 601.601(d)(2)(ii)(b) of this chapter).

(ii) If a decedent dies after April 30, 1989, and if on May 1, 1989, the decedent was mentally incompetent so that the disposition of the decedent's property could not be changed, and the decedent dies without having regained competency to dispose of the decedent's property or dies within 90 days of the date on which the decedent first regains competency, the fair market value of annuities, life estates, terms for years, remainders, and reversions included in the gross estate of the decedent is their present value determined either under this section or under the corresponding section applicable at the time the decedent became mentally incompetent, at the option of the decedent's executor. For example, see § 20.2031-7A(d).

(4) *Publications and actuarial computations by the Internal Revenue*

*Service.* Many standard actuarial factors not included in paragraph (d)(6) of this section are included in Internal Revenue Service Publication 1457, "Actuarial Values, Alpha Volume," (8-89). Publication 1457 also includes

examples that illustrate how to compute many special factors for more unusual situations. A copy of this publication may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402. If a special factor is required in the case of an actual decedent, the Service may furnish the factor to the executor upon a request for a ruling. The request for a ruling must be accompanied by a recitation of the facts including a statement of the date of birth for each measuring life, the date of the decedent's death, any other applicable dates, and a copy of the will, trust, or other relevant documents. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee.

(5) *Examples.* The provisions of this section are illustrated by the following examples:

*Example 1. Remainder payable at an individual's death.* The decedent, or the decedent's estate, was entitled to receive certain property worth \$50,000 upon the death of the decedent's elder sister, to whom the income was bequeathed for life. The decedent died in February 1990. At the time of the decedent's death, the elder sister was 47 years 5 months old. In February 1990, the section 7520 rate was 9.8 percent. Under Table S in paragraph (d)(6) of this section, the remainder factor at 9.8 percent for determining the present value of the remainder interest due at the death of a person aged 47, the number of years nearest the elder sister's actual age at the decedent's death, is .11352. The present value of the remainder interest at the date of the decedent's death is, therefore, \$5,676.00 (\$50,000x.11352).

*Example 2. Income payable for an individual's life.* A's parent bequeathed an income interest in property to A for life, with the remainder interest passing to B at A's death. At the time of the parent's death in October 1989, the value of the property was \$50,000 and A was 30 years 10 months old. The section 7520 rate in October 1989 was 10.2 percent. Under Table S in paragraph (d)(6) of this section, the remainder factor at 10.2 percent for determining the present value of the remainder interest due at the death of a person aged 31, the number of years closest to A's age at the decedent's

death, is .03753. Converting this remainder factor to an income factor, as described in paragraph (d)(2)(iii) of this section, the factor for determining the present value of an income interest for the life of a person aged 31 is .96247. The present value of A's interest at the time of the parent's death is, therefore, \$48,123.50 (\$50,000x.96247).

*Example 3. Annuity payable for an individual's life.* A purchased an annuity for the benefit of both A and B. Under the terms of the annuity contract, at A's death, a survivor annuity of \$10,000 a year payable in equal semiannual installments made at the end of each interval is payable to B for life. A died in September 1989. For September 1989, the section 7520 rate was 9.6 percent. At A's death, B was 45 years 7 months old. Under Table S in paragraph (d)(6) of this section, the factor at 9.6 percent for determining the present value of the remainder interest at the death of a person age 46 (the number of years nearest B's actual age) is .11013. By converting the factor to an annuity factor, as described in paragraph (d)(2)(iv) of this section, the factor for the present value of an annuity payable until the death of a person age 46 is 9.2695 (1.00000 minus .11013, divided by .096). The adjustment factor from Table K in paragraph (d)(6) of this section at an interest rate of 9.6 percent for semiannual annuity payments made at the end of the period is 1.0235. The present value of the annuity at the date of A's death is, therefore, \$94,873.33 (\$10,000x9.2695x1.0235).

*Example 4. Annuity payable for a term of years.* The decedent, or the decedent's estate, was entitled to receive an annuity of \$10,000 a year payable in equal quarterly installments at the end of each quarter throughout a term certain. The decedent died in February 1990. For February 1990, the section 7520 rate was 9.8 percent. A quarterly payment had just been made prior to the decedent's death and payments were to continue for 5 more years. Under Table B in paragraph (d)(6) of this section for the interest rate of 9.8 percent, the factor for the present value of a remainder interest due after a term of 5 years is .626597. Converting the factor to an annuity factor, as described in paragraph (d)(2)(iv) of this section, the factor for the present value of an annuity for a term of 5 years is 3.8102. The adjustment factor from Table K in paragraph (d)(6) of this section at an interest rate of 9.8 percent for quarterly annuity payments made at the end of the period is 1.0360. The present value of the annuity is, therefore, \$39,473.67 (\$10,000x3.8102x1.0360).

(6) *Actuarial Tables.* Except as provided in § 20.7520-3(b) (pertaining to certain limitations on the use of prescribed tables), the following tables must be used in the application of the provisions of this section when the section 7520 interest rate component is between 4.2 and 14 percent.

TABLE B.—TERM CERTAIN REMAINDER FACTORS APPLICABLE AFTER APRIL 30, 1989

Years	Interest rate									
	4.2%	4.4%	4.6%	4.8%	5.0%	5.2%	5.4%	5.6%	5.8%	6.0%
1	.959693	.957854	.956023	.954198	.952381	.950570	.948767	.946970	.945180	.943396

(e) **Effective date.** This section is effective as of May 1, 1989.

**§ 20.2031–10 [Removed].**

Par. 23. Section 20.2031–10 is removed.

Par. 24. Section 20.2055–2 is amended by revising paragraph (f)(4) to read as follows:

20.2055–2 Transfers not exclusively for charitable purposes.

\* \* \*

(4) **Other decedents.** The present value of an interest not described in paragraph (f)(2) of this section is to be

determined under § 20.2031–7(d) in the case of decedents where the valuation date of the gross estate is after April 30, 1989, or under § 20.2031–7A in the case of decedents where the valuation date of the gross estate is before May 1, 1989.

\* \* \*

Par. 25. Immediately following § 20.7101–1, an undesignated center heading and §§ 20.7520–1 through 20.7520–4, are added to read as follows:

**General Actuarial Valuations**

**§ 20.7520–1 Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests.**

(a) **General actuarial valuations.** (1) Except as otherwise provided in this section and in § 20.7520–3 (relating to exceptions to the use of prescribed tables under certain circumstances), in the case of estates of decedents with valuation dates after April 30, 1989, the fair market value of annuities, interests for life or for a term of years (including unitrust interests), remainders, and reversions is their present value.

determined under this section. See § 20.2031-7(d) (and, for certain prior periods, § 20.2031-7A) of this chapter for the computation of the value of annuities, unitrust interests, life estates, terms of years, remainders, and reversions, other than interests described in paragraphs (a)(2) and (a)(3) of this section.

(2) In the case of a transfer to a pooled income fund with a valuation date after April 30, 1989, see § 1.642(c)-5(e) (or, for certain prior periods, § 1.642(c)-6A) of this chapter (Income Tax Regulations) with respect to the valuation of the remainder interest.

(3) In the case of a transfer to a charitable remainder annuity trust with a valuation date after April 30, 1989; see § 1.664-2 of this chapter with respect to the valuation of the remainder interest. See § 1.664-4 (or, for certain prior periods, § 1.664-4A) of this chapter with respect to the valuation of the remainder interest in property transferred to a charitable remainder unitrust.

(b) Components of valuation—(1) Interest rate component—(i) Section 7520 Interest rate. The section 7520 interest rate is the rate of return, rounded to the nearest two-tenths of one percent, that is equal to 120 percent of the applicable Federal mid-term rate, compounded annually, for purposes of section 1274(d)(1), for the month in which the valuation date falls. In rounding the rate to the nearest two-tenths of a percent, any rate that is midway between one two-tenths of a percent and another is rounded up to the higher of those two rates. For example, if 120 percent of the applicable Federal mid-term rate is 10.30, the section 7520 interest rate component is 10.4. The section 7520 interest rate is published monthly by the Internal Revenue Service in the Internal Revenue Bulletin (See, § 601.601(d)(2)(ii)(b) of this chapter).

(ii) Valuation date. Generally, the valuation date is the date on which the transfer takes place. For estate tax purposes, the valuation date is the date of the decedent's death, unless the executor elects the alternate valuation date in accordance with section 2032, in which event, and under the limitations prescribed in section 2032 and the regulations thereunder, the valuation date is the alternate valuation date. For special rules in the case of charitable transfers, see § 20.7520-2.

(2) Mortality component. The mortality component reflects the mortality data most recently available from the United States census. As new mortality data becomes available after each decennial census, the mortality

component described in this section will be revised periodically and the revised mortality component tables will be published in the regulations at that time. For decedents' estates with valuation dates after April 30, 1989, the mortality component table (Table 80CNSMT) is included in § 20.2031-7(d)(6). See § 20.2031-7A for mortality component tables applicable to decedent's estates with valuation dates before May 1, 1989.

(c) Tables. The present value on the valuation date of an annuity, life estate, term of years, remainder, or reversion is computed by using the section 7520 interest rate component that is described in paragraph (b)(1) of this section and the mortality component that is described in paragraph (b)(2) of this section. Actuarial factors for determining these present values are included in tables in these regulations and in publications by the Internal Revenue Service. If a special factor is required in order to value an interest, the Internal Revenue Service will furnish the factor upon a request for a ruling. The request for a ruling must be accompanied by a recitation of the facts, including the date of birth for each measuring life and copies of relevant instruments. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see Rev. Proc. 94-1, 1994-1 I.R.B. 10, and the first Rev. Proc. published each year, and §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee.

(1) Regulation sections containing tables with interest rates between 4.2 and 14 percent. Section 1.642(c)-6(e)(4) of this chapter contains Table S used for determining the present value of a single life remainder interest in a pooled income fund as defined in § 1.642(c)-5 of this chapter (Income Tax Regulations). Section 1.664-4(e)(6) of this chapter contains Table D (actuarial factors used in determining the present value of a remainder interest postponed for a term of years), Table U(1) (actuarial factors for one life), and Table F (payout factors) used in determining the present value of a remainder interest in a charitable remainder unitrust as defined in § 1.664-3 of this chapter. Section 20.2031-7(d)(6) contains Table S (actuarial factors for one life), Table E (actuarial factors used in determining the present value of an interest for a term of years), Table K (annuity end-of-interval adjustment factors), Table J (term certain annuity beginning-of-interval adjustment factors); and Table 80CNSMT (mortality components) used

in determining the present value of annuities, life estates, remainders, and reversions. The regulations will be revised periodically to include new mortality component tables and new tables of factors.

(2) Internal Revenue Service publications containing tables with interest rates between 2.2 and 26 percent. The following documents (except for Publication 1459) have been published for sale by the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402:

(i) Internal Revenue Service Publication 1457, "Actuarial Values, Alpha Volume," (8/89). This publication includes tables of valuation factors, as well as examples that show how to compute other valuation factors, for determining the present value of annuities, life estates, terms of years, remainders, and reversions, measured by one or two lives. These factors may also be used in the valuation of interests in a charitable remainder annuity trust as defined in § 1.664-2 of this chapter (Income Tax Regulations) and a pooled income fund as defined in § 1.642(c)-5 of this chapter.

(ii) Internal Revenue Service Publication 1458, "Actuarial Values, Beta Volume," (8/89). This publication includes term certain tables and tables of one and two life valuation factors for determining the present value of remainder interests in a charitable remainder unitrust as defined in § 1.664-3 of this chapter.

(iii) Internal Revenue Service Publication 1459, "Actuarial Values, Gamma Volume," (8-89), is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:B (IRS Publication 1459), room 5228, Internal Revenue Service, POB 7604, Bea Franklin Station, Washington, DC 20044. This publication includes tables for computing depreciation adjustment factors. See § 1.170A-12 of this chapter (Income Tax Regulations).

(d) Effective date. This section is effective as of May 1, 1989.

#### § 20.7520-2 Valuation of charitable interests.

(a) In general—(1) Valuation. Except as otherwise provided in this section and in § 20.7520-3 relating to exceptions to the use of prescribed tables under certain circumstances, the fair market value of annuities, interests for life or for a term of years, remainders, and reversions for which an estate tax charitable deduction is

allowable is the present value of such interests determined under § 20.7520-1.

(2) *Prior-month election rule.* If any part of the property interest transferred qualifies for an estate tax charitable deduction under section 2055 or 2106, the executor may compute the present value of the transferred interest by use of the section 7520 interest rate for the month during which the interest is transferred or the section 7520 interest rate for either of the 2 months preceding the month during which the interest is transferred. Paragraph (b) of this section explains how a prior-month election is made. The interest rate for the month so elected is the applicable section 7520 interest rate. If the executor elects the alternate valuation date under section 2032 and also elects to use the section 7520 interest rate for either of the 2 months preceding the month in which the interest is transferred, the month so elected (either of the 2 months preceding the month in which the alternate valuation date falls) is the valuation date. If the actuarial factor for either or both of the 2 months preceding the month during which the interest is transferred is based on a mortality experience that is different from the mortality experience at the date of the transfer and if the executor elects to use the section 7520 rate for a prior month with the different mortality experience, the executor must use the actuarial factor derived from the mortality experience in effect during the month of the section 7520 rate elected. All actuarial computations relating to the transfer must be made by applying the interest rate component and the mortality component of the month elected by the executor.

(3) *Transfers of more than one interest in the same property.* If a decedent's estate includes the transfer of more than one interest in the same property, the executor must, for purposes of valuing the transferred interests, use the same interest rate and mortality components for each interest in the property transferred.

(4) *Information required with tax return.* The following information must be attached to the estate tax return (or be filed subsequently as supplemental information to the return) if the estate claims a charitable deduction for the present value of a temporary or remainder interest in property—

- (i) A complete description of the interest that is transferred, including a copy of the instrument of transfer;
- (ii) The valuation date of the transfer;
- (iii) The names and identification numbers of the beneficiaries of the transferred interest;

(iv) The names and birthdates of any measuring lives, a description of any relevant terminal illness condition of any measuring life, and (if applicable) an explanation of how any terminal illness condition was taken into account in valuing the interest; and

(v) A computation of the deduction showing the applicable section 7520 interest rate that is used to value the transferred interest.

(5) *Place for filing returns.* See section 6091 of the Internal Revenue Code and the regulations thereunder for the place for filing the return or other document required by this section.

(b) *Election of interest rate component—(1) Time for making election.* An executor makes a prior-month election under paragraph (a)(2) of this section by attaching the information described in paragraph (b)(2) of this section to the decedent's estate tax return or by filing a supplemental statement of the election information within 24 months after the later of the date the original estate tax return was filed or the due date for filing the return.

(2) *Manner of making election.* A statement that the prior-month election under section 7520(a) of the Internal Revenue Code is being made and that identifies the elected month must be attached to the estate tax return (or by subsequently filing the statement as supplemental information to the return).

(3) *Revocability.* The prior-month election may be revoked by filing a statement of supplemental information within 24 months after the later of the date the original return of tax for the decedent's estate was filed or the due date for filing the return. The revocation must be filed in the place referred to in paragraph (a)(5) of this section.

(c) *Effective dates.* Paragraph (a) of this section is effective as of May 1, 1989. Paragraph (b) of this section is effective for elections made after June 10, 1994.

#### § 20.7520-3 Limitation on the application of section 7520.

(a) *Internal Revenue Code sections to which section 7520 does not apply.* Section 7520 of the Internal Revenue Code does not apply for purposes of:

(1) Part I, subchapter D of subtitle A (section 401 et seq.), relating to the income tax treatment of certain qualified plans. (However, section 7520 does apply to the estate and gift tax treatment of certain qualified plans and for purposes of determining excess accumulations under section 4980A);

(2) Sections 72 and 101(b), relating to the income taxation of life insurance, endowment, and annuity contracts, unless otherwise provided for in the

regulations under sections 72, 101, and 1011 (see, particularly, §§ 1.101-2(c)(1)(iii)(b)(2), and 1.1011-2(c), Example 8);

(3) Sections 83 and 451, unless otherwise provided for in the regulations under those sections;

(4) Section 457, relating to the valuation of deferred compensation, unless otherwise provided for in the regulations under section 457;

(5) Sections 3121(v) and 3306(r), relating to the valuation of deferred amounts, unless otherwise provided for in the regulations under those sections;

(6) Section 6058, relating to valuation statements evidencing compliance with qualified plan requirements, unless otherwise provided for in the regulations under section 6058;

(7) Section 7872, relating to income and gift taxation of interest-free loans and loans with below-market interest rates, unless otherwise provided for in the regulations under section 7872; or

(8) Section 2702(a)(2)(A), relating to the value of a nonqualified retained interest upon a transfer of an interest in trust to or for the benefit of a member of the transferor's family; and

(9) Any other sections of the Internal Revenue Code to the extent provided by the Internal Revenue Service in revenue rulings or revenue procedures. (See §§ 601.201 and 601.601 of this chapter).

(b) *Other limitations on the application of section 7520.* [Reserved]

(c) *Effective date.* Section § 20.7520-3(a) is effective as of May 1, 1989.

#### § 20.7520-4 Transitional rules.

(a) *Reliance.* If the valuation date is after April 30, 1989, and before June 10, 1994, an executor can rely on Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700 (See § 601.601(d)(2)(ii)(b) of this chapter), in valuing the transferred interest.

(b) *Effective date.* This section is effective as of May 1, 1989.

#### PART 25—GIFT TAX; GIFTS MADE AFTER DECEMBER 31, 1954

**Par. 26.** The authority citation for part 25 is revised to read as follows:

Authority: 26 U.S.C. 7805.

Section 25.2512-5 also issued under 26 U.S.C. 7520(c)(2).

Section 25.2512-5A also issued under 26 U.S.C. 7520(c)(2).

Section 25.7520-1 also issued under 26 U.S.C. 7520(c)(2).

Section 25.7520-2 also issued under 26 U.S.C. 7520(c)(2).

Section 25.7520-3 also issued under 26 U.S.C. 7520(c)(2).

Section 25.7520-4 also issued under 26 U.S.C. 7520(c)(2).

**Par. 27.** Section 25.2512-0 is added to read as follows:

**§ 25.2512-0 Table of contents.**

This section lists the section headings that appear in the regulations under section 2512.

**§ 25.2512-1 Valuation of property; in general.****§ 25.2512-2 Stocks and bonds.****§ 25.2512-3 Valuation of interests in businesses.****§ 25.2512-4 Valuation of notes.****§ 25.2512-5 Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests transferred after April 30, 1989.****§ 25.2512-6 Valuation of certain life insurance and annuity contracts; valuation of shares in an open-end investment company.****§ 25.2512-7 Effect of excise tax.****§ 25.2512-8 Transfers for insufficient consideration.****Actuarial Tables Applicable Before May 1, 1989****§ 25.2512-5A Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests transferred before May 1, 1989.**

**Par. 28.** Immediately following § 25.2512-3 an undesignated center heading and § 25.2512-5A are added to read as follows:

**Actuarial Tables Applicable Before May 1, 1989****§ 25.2512-5A Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests transferred before May 1, 1989.**

(a) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred before January 1, 1952.* Except as otherwise provided in § 25.2512-5(b), if the transfer was made before January 1, 1952, the present value of annuities, life estates, terms of years, remainders, and reversions is their present value determined under this section. If the valuation of the interest involved is dependent upon the continuation or termination of one or more lives or upon a term certain concurrent with one or more lives, the factor for the present value is computed on the basis of interest at the rate of 4 percent a year, compounded annually, and life contingencies for each life involved from values that are based upon the Actuaries' or Combined Experience Table of Mortality, as extended. This table and many additional factors are described in former § 86.19 (as contained in the 26 CFR Part 81 edition revised as of April 1, 1958). The present value of an interest measured by a term of years is computed on the basis of interest at the rate of 4 percent a year.

(b) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred after January 1, 1952, and before December 1, 1983.* Except as otherwise provided in § 25.2512-5(b), the present value of annuities, life estates, terms of years, remainders, and reversions transferred after December 31, 1970, and before December 1, 1983, is the present value of such interests determined under this section. If the interest to be valued is dependent upon the continuation or termination of one or more lives or upon a term certain concurrent with one or more lives, the factor for the present value is computed on the basis of interest at the rate of 6 percent a year, compounded annually, and life contingencies determined for each male and female life involved, from the values that are set forth in Table LN. Table LN contains values that are taken from the life table for total males and the life table for total females appearing as Tables 2 and 3,

respectively, in United States Life Tables 1959-61, published by the or reversionary interests transferred after December 31, 1951, and before January 1, 1971. Except as otherwise provided in § 25.2512-5(b), the present value of annuities, life estates, terms of years, remainders, and reversions transferred after December 31, 1951, and before January 1, 1971, is the present value of such interests determined under this section. If the value of the interest involved is dependent upon the continuation or termination of one or more lives, the factor for the present value is computed on the basis of interest at the rate of 3½ percent a year, compounded annually, and life contingencies for each life involved from U.S. Life Table 38. This table and many accompanying factors are set forth in former § 25.2512-5 (as contained in the 26 CFR Part 25 edition revised as of April 1, 1984). Special factors involving one and two lives may be found in or computed with the use of tables contained in Internal Revenue Service Publication Number 11, "Actuarial Values for Estate and Gift Tax," (Rev. 5-59). This publication is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from:

CC:DOM:CORP:T:R (IRS Publication 11), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. The present value of an interest measured by a term of years is computed on the basis of interest at the rate of 6 percent a year.

(c) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred after December 31, 1970, and before December 1, 1983.* Except as otherwise provided in § 25.2512-5(b), the present value of annuities, life estates, terms of years, remainders, and reversions transferred after December 31, 1970, and before December 1, 1983, is the present value of such interests determined under this section. If the interest to be valued is dependent upon the continuation or termination of one or more lives or upon a term certain concurrent with one or more lives, the factor for the present value is computed on the basis of interest at the rate of 6 percent a year, compounded annually, and life contingencies determined for each male and female life involved, from the values that are set forth in Table LN. Table LN contains values that are taken from the life table for total males and the life table for total females appearing as Tables 2 and 3,

respectively, in United States Life Tables 1959-61, published by the

Department of Health and Human Services, Public Health Service. Table LN and accompanying factors are set forth in former § 25.2512-9 (as contained in the 26 CFR Part 25 edition revised as of April 1, 1994). Special factors involving one and two lives may be found in or computed with the use of tables contained in Internal Revenue Service Publication 723, entitled "Actuarial Values I: Valuation of Last Survivor Charitable Remainders" (12-70), and Internal Revenue Service Publication 723A, entitled "Actuarial Values II: Factors at 6 Percent Involving One and Two Lives" (12-70). These publications are no longer available for purchase from the Superintendent of Documents. However, a copy of each may be obtained from:

CC:DOM:CORP:T:R (IRS Publication 723/723A), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. The present value of an interest measured by a term of years is computed on the basis of interest at the rate of 6 percent a year.

**Par. 29.** Section 25.2512-5 is redesignated as paragraph (d) of § 25.2512-5A and amended as follows:

1. The following redesignation table indicates the old CFR unit numbers for § 25.2512-5 and the corresponding new CFR unit numbers for § 25.2512-5A(d):

Old CFR unit No. in § 25.2512-5	Corresponding new No. in § 25.2512-5A(d)

amended by revising the first full sentence.

5. In newly designated paragraph (d)(1)(i)(C), the concluding text is amended by revising the first and second full sentences.

6. Newly designated paragraph (d)(1)(iii) is revised.

7. Newly designated paragraph (d)(5) is amended by revising the second and third sentences.

8. Newly designated paragraph (d)(6) is revised.

9. The revisions read as follows:

**§ 25.2512-5A Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests transferred before May 1, 1989.**

(d) *Valuation of annuities, interests for life or term of years, and remainder or reversionary interests transferred after November 30, 1983, and before May 1, 1989*—(1) *In general.* (i)(A) Except as otherwise provided in § 25.2512-5(b) and in this paragraph (d)(1)(i)(A), the fair market value of annuities, life estates, terms of years, remainders, and reversions transferred after November 30, 1983, and before May 1, 1989, is the present value of such interests determined under this section.

(B) \* \* \*

\* \* \* The donor may elect to value both interests transferred in 1983 under § 25.2512-5A(c) as if such section applied to all transfers made before January 1, 1984, or the donor may elect to have both interests transferred valued under this section. \* \* \*

(C) \* \* \*

\* \* \* The donor may elect to value the interest transferred in 1984 under § 25.2512-5A(c) as if such section

applied to all transfers made before January 1, 1985, or the donor may elect to have the transfer valued under this section. If the donor elects to value the interest transferred in 1984 under § 25.2512-5A(c), the donor shall indicate that the election is being made by attaching a statement to the donor's gift tax return for 1984. \* \* \*

(iii) In all examples set forth in this section, the interest is assumed to have been transferred after November 30, 1983, and before May 1, 1989. \* \* \*

(5) \* \* \* The factor is to be computed on the basis of interest at the rate of 10 percent a year, compounded annually, and life contingencies are determined for each person involved from the values of  $lx$  that are set forth in column 2 of Table LN in § 20.2031-7A(d)(6) of this chapter. Table LN contains values of  $lx$  taken from the life table for the total population appearing as Table 1 in United States Life Tables: 1969-71, published by the Department of Health and Human Services, Public Health Service.

(6) *Tables.* (i) For actuarial factors showing the present worth at 10 percent of a single life annuity, a life interest, and a remainder interest postponed for a single life, see § 20.2031-7A(d)(6) of this chapter, Table A, of the Estate Tax Regulations.

(ii) For actuarial factors showing the present worth at 10 percent of an annuity for a term certain, an income interest for a term certain, and a remainder interest postponed for a term certain, see § 20.2031-7A(d)(6) of this

chapter, Table B, of the Estate Tax Regulations.

Par. 30. New § 25.2512-5 is added to read as follows:

**§ 25.2512-5 Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests transferred after April 30, 1989.**

(a) *In general.* Except as otherwise provided in paragraph (b) of this section and § 25.7520-3(b), the fair market value of annuities, unitrust interests, life estates, terms of years, remainders, and reversions transferred by gift is the present value of the interests determined under paragraph (d) of this section. Section 20.2031-7 of this chapter (Estate Tax Regulations) and related sections provide tables with standard actuarial factors and examples that illustrate how to use the tables to compute the present value of ordinary annuity, life, and remainder interests in property. These sections also refer to standard and special actuarial factors that may be necessary to compute the present value of similar interests in more unusual fact situations. These factors and examples are also generally applicable for gift tax purposes in computing the values of taxable gifts.

(b) *Commercial annuities and insurance contracts.* The value of life insurance contracts and contracts for the payment of annuities issued by companies regularly engaged in their sale is determined under § 25.2512-6.

(c) *Actuarial valuations before May 1, 1989.* The present value of annuities, unitrust interests, life estates, terms of years, remainders, and reversions transferred by gift before May 1, 1989, is determined under the following sections:

After	Transfers		Applicable
	Before	Regulations	
Dec. 31, 1951 .....	Jan. 1, 1952 .....	25.2512-5A(a) .....	.....
Dec. 31, 1970 .....	Jan. 1, 1971 .....	25.2512-5A(b) .....	.....
Dec. 30, 1983 .....	Dec. 1, 1983 .....	25.2512-5A(c) .....	.....
	May 1, 1929 .....	25.2512-5A(d) .....	.....

(d) *Actuarial valuations after April 30, 1989*—(1) *In general.* Except as otherwise provided in paragraph (b) of this section and § 25.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances), if the valuation date for the gift is after April 30, 1989, the fair market value of annuities, life estates, terms of years, remainders, and reversions transferred after April 30, 1989, is the present value of such interests determined by use of standard or special section 7520

actuarial factors. These factors are derived by using the appropriate section 7520 interest rate and, if applicable, the mortality component for the valuation date of the interest that is being valued. See §§ 25.7520-1 through 25.7520-4. The fair market value of a qualified annuity interest described in section 2702(b)(1) and a qualified unitrust interest described in section 2702(b)(2) is the present value of such interests determined under § 25.7520-1(c).

(2) *Specific interests.* When the donor transfers property in trust or otherwise and retains an interest therein, generally, the value of the gift is the value of the property transferred less the value of the donor's retained interest. However, if the donor transfers property after October 3, 1989, to or for the benefit of a member of the donor's family, the value of the gift is the value of the property transferred less the value of the donor's retained interest as determined under section 2702. If the

donor assigns or relinquishes an annuity, life estate, remainder, or reversion that the donor holds by virtue of a transfer previously made by the donor or another, the value of the gift is the value of the interest transferred. However, see section 2519 for a special rule in the case of the assignment of an income interest by a person who received the interest from a spouse.

(i) *Charitable remainder trusts.* The fair market value of a remainder interest in a pooled income fund, as defined in § 1.642(c)-5 of this chapter (Income Tax Regulations), is its value determined under § 1.642(c)-6(e) of this chapter. The fair market value of a remainder interest in a charitable remainder annuity trust, as described in § 1.664-2(a) of this chapter, is its present value determined under § 1.664-2(c) of this chapter. The fair market value of a remainder interest in a charitable remainder unitrust, as defined in § 1.664-3 of this chapter, is its present value determined under § 1.664-4(e) of this chapter. The fair market value of a life interest or term for years in a charitable remainder unitrust is the fair market value of the property as of the date of transfer less the fair market value of the remainder interest, determined under § 1.664-4(e) of this chapter.

(ii) *Ordinary remainder and reversionary interests.* If the interest to be valued is to take effect after a definite number of years or after the death of one individual, the present value of the interest is computed by multiplying the value of the property by the appropriate remainder interest actuarial factor (that corresponds to the applicable section 7520 interest rate and remainder interest period) in Table B (for a term certain) or Table S (for one measuring life), as the case may be. Tables B and S are included in § 20.2031-7(d)(6) of this chapter (Estate Tax Regulations) and in Internal Revenue Service Publication 1457. For information about obtaining actuarial factors for other types of remainder interests, see paragraph (d)(4) of this section.

(iii) *Ordinary term-of-years and life interests.* If the interest to be valued is the right of a person to receive the income of certain property, or to use certain nonincome-producing property, for a term of years or for the life of one individual, the present value of the interest is computed by multiplying the value of the property by the appropriate term-of-years or life interest actuarial factor (that corresponds to the applicable section 7520 interest rate and term-of-years or life interest period). Internal Revenue Service Publication 1457 includes actuarial factors for an interest for a term of years in Table B

and for the life of one individual in Table S. However, term-of-years and life interest actuarial factors are not included in Table B or Table S in § 20.2031-7(d)(6) of this chapter. If Internal Revenue Service Publication 1457 (or any other reliable source of term-of-years and life interest actuarial factors) is not conveniently available, an actuarial factor for the interest may be derived mathematically. This actuarial factor may be derived by subtracting the correlative remainder factor (that corresponds to the applicable section 7520 interest rate and the term of years or the life) in Table B (for a term of years) or in Table S (for the life of one individual) in § 20.2031-7(d)(6), as the case may be, from 1.000000. For information about obtaining actuarial factors for other types of term-of-years and life interests, see paragraph (d)(4) of this section.

(iv) *Annuities.* (A) If the interest to be valued is the right of a person to receive an annuity that is payable at the end of each year for a term of years or for the life of one individual, the present value of the interest is computed by multiplying the aggregate amount payable annually by the appropriate annuity actuarial factor (that corresponds to the applicable section 7520 interest rate and annuity period). Internal Revenue Service Publication 1457 includes actuarial factors in Table B (for an annuity payable for a term of years) and in Table S (for an annuity payable for the life of one individual). However, annuity actuarial factors are not included in Table B or Table S in § 20.2031-7(d)(6) of this chapter. If Internal Revenue Service Publication 1457 (or any other reliable source of annuity actuarial factors) is not conveniently available, an annuity factor for a term of years or for one life may be derived mathematically. This annuity factor may be derived by subtracting the applicable remainder factor (that corresponds to the applicable section 7520 interest rate and annuity period) in Table B (in the case of a term-of-years annuity) or in Table S (in the case of a one-life annuity) in § 20.2031-7(d)(6), as the case may be, from 1.000000 and then dividing the result by the applicable section 7520 interest rate expressed as a decimal number. See § 20.2031-7(d)(2)(iv) of this chapter for an example that illustrates the computation of the present value of an annuity.

(B) If the annuity is payable at the end of semiannual, quarterly, monthly, or weekly periods, the product obtained by multiplying the annuity factor by the aggregate amount payable annually is then multiplied by the applicable

adjustment factor set forth in Table K in § 20.2031-7(d)(6) of this chapter at the appropriate interest rate component for payments made at the end of the specified periods. The provisions of this paragraph (d)(2)(iv)(B) are illustrated by the following example:

*Example.* On July 1, 1989, the donor agrees to pay the annuitant the sum of \$10,000 per year, payable in equal semiannual installments at the end of each period. The semiannual installments are to be made on each December 31st and June 30th. The annuity is payable until the annuitant's death. On July 1, 1989, the annuitant is 68 years and 5 months old. The donee annuitant's age is taken as 68 for purposes of computing the present value of the retained annuity. The section 7520 rate for July 1989 is 10.6 percent. Under Table S, the factor at 10.6 percent for determining the present value of a remainder interest payable at the death of an individual aged 68 is .31371. Converting the remainder factor to an annuity factor, as described above, the annuity factor for determining the present value of an annuity transferred to an individual age 68 is 6.4744 (1.000000 minus .31371 divided by 10.6). The adjustment factor from Table K in the column for payments made at the end of each semiannual period at the rate of 10.6 percent is 1.0258. The aggregate annual amount of the annuity, \$10,000, is multiplied by the factor 6.4744 and the product multiplied by 1.0258. The present value of the annuity beneficiary's interest is, therefore, \$66,414 (\$10,000×6.4744×1.0258).

(C) If an annuity is payable at the beginning of annual, semiannual, quarterly, monthly, or weekly periods for a term of years, the value of the annuity is computed by multiplying the aggregate amount payable annually by the annuity factor described in paragraph (d)(2)(iv)(A) of this section; and the product so obtained is then multiplied by the adjustment factor in Table J in § 20.2031-7(d)(6) of this chapter at the appropriate interest rate component for payments made at the beginning of specified periods. If an annuity is payable at the beginning of annual, semiannual, quarterly, monthly, or weekly periods for one or more lives, the value of the annuity is the sum of the first payment plus the present value of a similar annuity, the first payment of which is not to be made until the end of the payment period, determined as provided in paragraph (d)(2)(iv)(B) of this section.

(v) *Annuity and unitrust interests for a term of years or until the prior death of an individual—(A) Annuity interests.* The present value of an annuity interest that is payable until the earlier to occur of the lapse of a specific number of years or the death of an individual may be computed with values from the tables

in 20.2031-7(d)(6) as described in the following example:

*Example.* On January 1, 1991, the donor transfers \$100,000 into a trust and retains the right to receive an annuity from the trust in the amount of \$6,000 per year, payable in equal semiannual installments at the end of each period. The semiannual installments are to be made on each June 30th and December 31st. The annuity is payable for 10 years or

until the donor's prior death. On January 1, 1991, the donor is 59 years and 6 months old. The donor's age is taken as 60 for purposes of computing the present value of the retained annuity. The section 7520 rate for January 1991 is 9.8 percent. The present value of the annuity beneficiary's interest is \$35,424.00, determined as follows:

Table S value at 9.8 percent, age 60 .....	.23158
---	--------

Table S value at 9.8 percent, age 70 .....	.36468
Table 80CNSMT value at age 70 .....	.68248
Table 80CNSMT value at age 60 .....	.83726
Table B value at 9.8 percent, 10 years .....	.392624
Table K value at 9.8 percent, ...	1.0239

Factor for annuity beneficiary's interest at 9.8 percent:

$$(1.00000 - .23158) - (.392624 \times (68248 / 83726) \times (1.00000 - .36468)) = 5.7662$$

.098

Present value of annuity beneficiary's interest: (\$6,000 \times 5.7662 \times 1.0239) .....	\$35,424.07
--	-------------

(B) *Unitrust interests.* The present value of a unitrust interest that is payable until the earlier to occur of the lapse of a specific number of years or the death of an individual may be computed with values from the tables in § 1.664-4(e)(6) as described in the following example:

*Example.* The donor who, as of the nearest birthday, is 60 years old transfers \$100,000 to a unitrust on January 1, 1991. The trust instrument requires that each year the trust pay to the donor, in equal semiannual installments on June 30th and December 31st, 6 percent of the fair market value of the trust assets, valued as of January 1st each

year, for 10 years or until the prior death of the donor. The section 7520 rate for January 1991 is 9.8 percent. Under Table F(9.8), the appropriate adjustment factor is .932539 for semiannual payments payable at the end of the semiannual period. The adjusted payout rate is 5.595 percent ( $6\% \times .932539$ ). The present value of the unitrust beneficiary's interest is \$40,495.00 determined as follows:

Table U(1) value at 5.6 percent, age 60 .....	.37017
Table U(1) value at 5.6 percent, age 70 .....	.50971
Table 80CNSMT value at age 70 .....	.68248
Table 80CNSMT value at age 60 .....	.83726
Table D value at 5.6 percent, 10 years .....	.561979

Factor for the unitrust beneficiary's interest at 5.6 percent:

$$(1.00000 - .37017) - (.561979 \times (68248 / 83726) \times (1.00000 - .50971)) = .40523$$

Table U(1) value at 5.4 percent, age 60 .....	.38183
Table U(1) value at 5.4 percent, age 70 .....	.52086
Table 80CNSMT value at age 70 .....	.68248
Table 80CNSMT value at age 60 .....	.83726
Table D value at 5.4 percent, 10 years .....	.573999

Factor for the unitrust beneficiary's interest at 5.4 percent:

$$(1.00000 - .38183) - (.573999 \times (68248 / 83726) \times (1.00000 - .52086)) = .39399$$

Difference ... .01124

#### Interpolation adjustment:

$$\frac{5.595\% - 5.4\%}{0.2\%} = \frac{x}{.01124}$$

$x = .01096$

Factor at 5.4 percent, age 60 .....	.39399
Plus: Interpolation adjustment .....	.01096
Interpolated Factor .....	.40495
Present value of unitrust beneficiary's interest: (\$100,000 \times .40495) .....	\$40,495.00

(3) *Transitional rule.* (i) If the valuation date of a transfer of an interest in property by gift is after April 30, 1989, and before June 10, 1994, a donor can rely on Notice 89-24, 1989-1 C.B. 680, or Notice 89-60, 1989-1 C.B. 700, in valuing the transferred interest. (See § 601.601(d)(2)(ii)(b) of this chapter.)

(ii) If a donor transferred an interest in property by gift after December 31, 1988, and before May 1, 1989, retaining an interest in the same property, and after April 30, 1989, and before January 1, 1990, transferred the retained interest

in property, the donor may, at the option of the donor, value the transfer of the retained interest under this section or under § 25.2512-5A(d).

(4) *Publications and actuarial computations by the Internal Revenue Service.* Many standard actuarial factors not included in 20.2031-7(d)(6) of this chapter are included in Internal Revenue Service Publication 1457, "Actuarial Values, Alpha Volume," (8-89). Internal Revenue Service Publication 1457 also includes examples that illustrate how to compute many special factors for more unusual situations. A copy of this publication may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402. If a special factor is required in the case of a completed gift, the Service may furnish

the factor to the donor upon a request for a ruling. The request for a ruling must be accompanied by a recitation of the facts including a statement of the date of birth for each measuring life, the date of the gift, any other applicable dates, and a copy of the will, trust, or other relevant documents. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee.

(e) *Effective date.* This section is effective as of May 1, 1989.

#### § 25.2512-9 [Removed]

Par. 31. Section 25.2512-9 is removed.

**Par. 32.** Section 25.2515-2, paragraph (c) is amended by revising the first and last sentences to read as follows:

**§ 25.2515-2 Tenancies by the entirety; transfers treated as gifts; manner of election and valuation.**

(c) Factors representing the respective interests of the spouses, under a tenancy by the entirety, at their attained ages at the time of the transaction may be readily computed based on the method described in § 25.2512-5. \* \* \* See § 25.2512-5(d)(4) for the procedure for obtaining special factors from the Internal Revenue Service in appropriate cases.

**Par. 33.** Section 25.2522(a)-2(a) is amended by revising the fifth sentence to read as set forth below, and by removing the fourth sentence.

**§ 25.2522(a)-2 Transfers not exclusively for charitable, etc., purposes in the case of gifts made before August 1, 1969.**

(a) \* \* \* If the interest involved is such that its value is to be determined by a special computation, see § 25.2512-5(d)(4). \* \* \*

**Par. 34.** Section 25.2522(c)-3, paragraph (d)(3) is revised to read as follows:

**§ 25.2522(c)-3 Transfers not exclusively for charitable, etc., purposes in the case of gifts made after July 31, 1969.**

(d) \* \* \*

(3) *Other transfers.* The present value of an interest not described in paragraph (d)(2) of this section is to be determined under § 25.2512-5.

**Par. 35.** Immediately following § 25.7101-1, an undesigned center heading and §§ 25.7520-1 through 25.7520-4 are added to read as follows:

**General Actuarial Valuations**

**§ 25.7520-1 Valuation of annuities, unitrust interests, interests for life or term of years, and remainder or reversionary interests.**

(a) *General actuarial valuations.* (1) Except as otherwise provided in this section and in § 25.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances), in the case of gifts made after April 30, 1989, the fair market value of annuities, interests for life or for a term of years (including unitrust interests), remainders, and reversions is their present value determined under this section. See § 20.2031-7(d) (and, for certain prior periods, § 20.2031-7A) of

this chapter, Estate Tax Regulations, for the computation of the value of annuities, unitrust interests, life estates, terms of years, remainders, and reversions, other than interests described in paragraphs (a)(2) and (a)(3) of this section.

(2) In the case of a gift to a beneficiary of a pooled income fund after April 30, 1989, see § 1.642(c)-6(e) (or, for certain prior periods, § 1.642(c)-6A) of this chapter (Income Tax Regulations) with respect to the valuation of the remainder interest.

(3) In the case of a gift to a beneficiary of a charitable remainder annuity trust after April 30, 1989, see § 1.664-2 of this chapter with respect to the valuation of the remainder interest. See § 1.664-4 (or, for certain prior periods, § 1.664-4A) of this chapter (Income Tax Regulations) with respect to the valuation of the remainder interest in property transferred to a charitable remainder unitrust.

(b) *Components of valuation—(1) Interest rate component—(i) Section 7520 Interest rate.* The section 7520 interest rate is the rate of return, rounded to the nearest two-tenths of one percent, that is equal to 120 percent of the applicable Federal mid-term rate, compounded annually, for purposes of section 1274(d)(1), for the month in which the valuation date falls. In rounding the rate to the nearest two-tenths of a percent, any rate that is midway between one two-tenths of a percent and another is rounded up to the higher of those two rates. For example, if 120 percent of the applicable Federal mid-term rate is 10.30, the section 7520 interest rate component is 10.4. The section 7520 interest rate is published monthly by the Internal Revenue Service in the Internal Revenue Bulletin (See § 601.601(d)(2)(ii)(b) of this chapter).

(ii) *Valuation date.* Generally, the valuation date is the date on which the gift is made. For gift tax purposes, the valuation date is the date on which the gift is complete under § 25.2511-2. For special rules in the case of charitable transfers, see § 25.7520-2.

(2) *Mortality component.* The mortality component reflects the mortality data most recently available from the United States census. As new mortality data becomes available after each decennial census, the mortality component described in this section will be revised periodically and the revised mortality component tables will be published in the regulations at that time. For gifts with valuation dates after April 30, 1989, the mortality component table (Table 80CNSMT) is contained in § 20.2031-7(d) of this chapter (Estate

Tax Regulations). See § 20.2031-7A of this chapter for mortality component tables applicable to gifts before May 1, 1989.

(c) *Tables.* The present value on the valuation date of an annuity, life estate, term of years, remainder, or reversion is computed by using the section 7520 interest rate component that is described in paragraph (b)(1) of this section and the mortality component that is described in paragraph (b)(2) of this section. Actuarial factors for determining these present values are included in tables in these regulations and in publications by the Internal Revenue Service. If a special factor is required in order to value an interest, the Internal Revenue Service will furnish the factor upon a request for a ruling. The request for a ruling must be accompanied by a recitation of the facts, including the date of birth for each measuring life and copies of relevant instruments. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (see Rev. Proc. 94-1, 1994-1 I.R.B. 10, and subsequent updates, and §§ 601.201 and 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required user fee.

(1) *Regulation sections containing tables with interest rates between 4.2 and 14 percent.* Section 1.642(c)-6(e)(4) of this chapter contains Table S used for determining the present value of a single life remainder interest in a pooled income fund as defined in § 1.642(c)-5 of this chapter (Income Tax Regulations). Section 1.664-4(e)(6) of this chapter contains Table D (actuarial factors used in determining the present value of a remainder interest postponed for a term of years), Table U(1) (actuarial factors for one life), and Table F (payout factors) used in determining the present value of a remainder interest in a charitable remainder unitrust as defined in § 1.664-3 of this chapter. Section 20.2031-7(d)(6) of this chapter (Estate Tax Regulations) contains Table S (actuarial factors for one life), Table B (actuarial factors used in determining the present value of an interest for a term of years), Table K (annuity end-of-interval adjustment factors), Table J (term certain annuity beginning-of-interval adjustment factors), and Table 80CNSMT (mortality components) used in determining the present value of annuities, life estates, remainders, and reversions. The regulations will be revised periodically to include new mortality component tables and new tables of factors.

(2) *Internal Revenue Service publications containing tables with*

*interest rates between 2.2 and 26 percent.* The following documents (except for Publication 1459) have been published for sale by the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402:

(i) Internal Revenue Service Publication 1457, "Actuarial Values, Alpha Volume," (8/89). This publication includes tables of valuation factors, as well as examples that show how to compute other valuation factors, for determining the present value of annuities, life estates, terms of years, remainders, and reversions, measured by one or two lives. These factors may also be used in the valuation of interests in a charitable remainder annuity trust as defined in § 1.664-2 of this chapter. (Income Tax Regulations) and a pooled income fund as defined in § 1.642(c)-5.

(ii) Internal Revenue Service Publication 1458, "Actuarial Values, Beta Volume," (8/89). This publication includes term certain tables and tables of one and two life valuation factors for determining the present value of remainder interests in a charitable remainder unitrust as defined in § 1.664-3 of this chapter.

(iii) Internal Revenue Service Publication 1459, "Actuarial Values, Gamma Volume," (8-89) is no longer available for purchase from the Superintendent of Documents. However, it may be obtained by requesting a copy from: CC:DOM:CORP:T:R (IRS Publication 1459), room 5228, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. This publication includes tables for computing depreciation adjustment factors. See § 1.170A-12 of this chapter (Income Tax Regulations).

(d) *Effective date.* This section is effective as of May 1, 1989.

#### § 25.7520-2 Valuation of charitable interests.

(a) *In general—(1) Valuation.* Except as otherwise provided in this section and in § 25.7520-3 (relating to exceptions to the use of prescribed tables under certain circumstances), the fair market value of annuities, interests for life or for a term for years, remainders, and reversions for which a gift tax charitable deduction is allowable is the present value of such interests determined under § 25.7520-1.

(2) *Prior-month election rule.* If any part of the property interest transferred qualifies for a gift tax charitable deduction under section 2522, the donor may elect to compute the present value of the interest transferred by use of the section 7520 interest rate for the

month during which the gift is made or the section 7520 interest rate for either of the 2 months preceding the month during which the gift is made.

Paragraph (b) of this section explains how a prior-month election is made. The interest rate for the month so elected is the applicable section 7520 interest rate. If the actuarial factor for either or both of the 2 months preceding the month during which the gift is made is based on a mortality experience that is different from the mortality experience at the date of the gift and if the donor elects to use the section 7520 rate for a prior month with the different mortality experience, the donor must use the actuarial factor derived from the mortality experience in effect during the month of the section 7520 rate elected. All actuarial computations relating to the gift must be made by applying the interest rate component and the mortality component of the month elected by the donor.

(3) *Gifts of more than one interest in the same property.* If a donor makes a gift of more than one interest in the same property at the same time, the donor must, for purposes of valuing the gifts, use the same interest rate and mortality components for the gift of each interest in the property. If the donor has made gifts of more than one interest in the same property at different times, the donor must determine the value of the gift by the use of the interest rate component and mortality component in effect during the month of that gift or, if applicable under paragraph (a)(2) of this section, either of the two months preceding the month of the gift.

(4) *Information required with tax return.* The following information must be attached to the gift tax return (or to the amended return) if the donor claims a charitable deduction for the present value of a temporary or remainder interest in property—

(i) A complete description of the interest that is transferred, including a copy of the instrument of transfer;

(ii) The valuation date of the transfer;

(iii) The names and identification numbers of the beneficiaries of the transferred interest;

(iv) The names and birthdates of any measuring lives, a description of any relevant terminal illness condition of any measuring life, and (if applicable) an explanation of how any terminal illness condition was taken into account in valuing the interest; and

(v) A computation of the deduction showing the applicable section 7520 interest rate that is used to value the transferred interest.

(5) *Place for filing returns.* See section 6091 of the Internal Revenue Code and the regulations thereunder for the place for filing the return or other document required by this section.

(b) *Election of interest rate component—(1) Time for making election.* A taxpayer makes a prior-month election under paragraph (a)(2) of this section by attaching the information described in paragraph (b)(2) of this section to the donor's gift tax return or to an amended return for that year that is filed within 24 months after the later of the date the original return for the year was filed or the due date for filing the return.

(2) *Manner of making election.* A statement that the prior-month election under section 7520(a) of the Internal Revenue Code is being made and that identifies the elected month must be attached to the gift tax return (or to the amended return).

(3) *Revocability.* The prior-month election may be revoked by filing an amended return within 24 months after the later of the date the original return of tax for that year was filed or the due date for filing the return. The revocation must be filed in the place referred to in paragraph (a)(5) of this section.

(c) *Effective dates.* Paragraph (a) of this section is effective as of May 1, 1989. Paragraph (b) of this section is effective for elections made after June 10, 1994.

#### § 25.7520-3 Limitation on the application of section 7520.

(a) *Internal Revenue Code sections to which section 7520 does not apply.* Section 7520 of the Internal Revenue Code does not apply for purposes of—

(1) Part I, subchapter D of subtitle A (section 401 et. seq.), relating to the income tax treatment of certain qualified plans. (However, section 7520 does apply to the estate and gift tax treatment of certain qualified plans and for purposes of determining excess accumulations under section 4980A);

(2) Sections 72 and 101(b), relating to the income taxation of life insurance, endowment, and annuity contracts, unless otherwise provided for in the regulations under sections 72, 101, and 1011 (see, particularly, §§ 1.101-2(e)(1)(iii)(b)(2), and 1.1011-2(c), Example 8);

(3) Sections 83 and 451, unless otherwise provided for in the regulations under those sections;

(4) Section 457, relating to the valuation of deferred compensation, unless otherwise provided for in the regulations under section 457;

(5) Sections 3121(v) and 3306(r), relating to the valuation of deferred

amounts, unless otherwise provided for in the regulations under those sections;

(6) Section 6058, relating to valuation statements evidencing compliance with qualified plan requirements, unless otherwise provided for in the regulations under section 6058;

(7) Section 7872, relating to income and gift taxation of interest-free loans and loans with below-market interest rates, unless otherwise provided for in the regulations under section 7872; or

(8) Section 2702(a)(2)(A), relating to the value of a nonqualified retained interest upon a transfer of an interest in trust to or for the benefit of a member of the transferor's family; and

(9) Any other section of the Internal Revenue Code to the extent provided by the Internal Revenue Service in revenue rulings or revenue procedures. [See §§ 601.291 and 601.601 of this chapter].

*(b) Other limitations on the application of section 7520.* [reserved]

*(c) Effective date.* Section 25.7520-3(a) is effective as of May 1, 1989.

#### § 25.7520-4 Transitional rules.

(a) *Reliance.* If the valuation date is after April 30, 1989, and before June 10, 1994, a donor can rely on Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700 [See § 601.601(d)(2)(ii)(b) of

this chapter], in valuing the transferred interest.

(b) *Transfers in 1989.* If a donor transferred an interest in property by gift after December 31, 1988, and before May 1, 1989, retaining an interest in the same property and, after April 30, 1989, and before January 1, 1990, transferred the retained interest in the property, the donor may, at the donor's option, value the transfer of the retained interest under either § 25.2512-5(d) or § 25.2512-5A(d).

(c) *Effective date.* This section is effective as of May 1, 1989.

#### PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 36. The authority citation for part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 37. Section 602.101(c) is amended by adding entries in numerical order to the table to read as follows:

#### § 602.101 OMB Control numbers.

\* \* \*

(c) \* \* \*

CFR part or section where identified and described	Current OMB Control No.
