FORM C

U.S. participation in this study is sponsored by the National Center for Education Statistics (NCES), U.S. Department of Education.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is xxxx-xxxx. The time required to complete this information collection is estimated to average 30 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving the form, please write to: U.S. Department of Education, Washington, D.C. 20202-4651. If you have comments or concerns regarding the status of your individual submission of this form, write directly to: National Center for Education Statistics, U.S. Department of Education, 1990 K Street, N.W., Washington, D.C. 20006-5650.

[^0]In this booklet you will find questions about:

- You
- Your family and your home
- Your reading activities
- Learning time
- Classroom and school climate
- Your English classes
- Libraries
- Your strategies in reading and understanding texts

In some of the questions you will be asked about reading. We specifically mean by reading the skill to understand, use and think about written texts. This skill is needed to reach one's goals , to develop one's knowledge and potential, and to take part in society.

Please read each question carefully and answer as accurately as you can. In the test you usually circled your answers. For this questionnaire, you will normally answer by checking a box. For a few questions you will need to write a short answer.

If you make a mistake when checking a box, cross out or erase your mistake and mark the correct box. If you make an error when writing an answer, simply cross it out and write the correct answer next to it.

## In this questionnaire, there are no right or wrong answers. Your answers should be the ones that are right for you.

You may ask for help if you do not understand something or are not sure how to answer a question.

Your answers will be combined with others to make totals and averages in which no individual can be identified. All your answers will be kept confidential.

## YOUR STRATEGIES IN READING AND UNDERSTANDING TEXTS

There are several approaches to studying and understanding texts. Some of them are more useful than others, depending on the kind of reading task. The next six questions present a number of reading tasks, followed by a list of these approaches or "strategies". We want to know your opinion about the usefulness of these strategies for the different reading tasks.

Each of the six questions starts with a short description of a particular reading task. Then several possible reading strategies are listed. Think about the usefulness of each of the strategies in relation to the given reading task only. Some strategies may be useful for one reading task but not for another.

Give a score between 1 and 6 to every strategy. A score of 1 means you think it is not a useful strategy at all for this reading task. A score of 6 means you think it is a very useful strategy for this reading task.

You can use the same score more than once if you think two or more strategies are similarly useful, but please check only one box in each row.

Here is an example question that a student has completed. (This example is about playing table tennis, not reading.)

## Example Question

Task: You want to improve at playing table tennis so you can win a local competition.
How do you rate the usefulness of the following strategies for improving at playing table tennis?

## Q28 Reading task: Your class has to learn about the origin of rain from a particular text. Different strategies can be used to help the class to learn from this text.

How do you rate the usefulness of the following strategies to help the class learn from the text about the origin of rain?

## Possible strategy

a) The class watches a short film that illustrates the content of the text with specific examples.
b) The class reads the text silently while the teacher reads it aloud.
c) Students first read the text independently, and then look at an illustration that explains the origin of rain.
d) The teacher reads the text to the students, and at the same time shows some photos illustrating the content of the text.
e) A student reads the text aloud, while the other students listen.
