In this booklet you will find questions about:

- You
- Your family and your home
- Your reading activities
- Learning time
- Classroom and school climate
- Your English classes
- Libraries
- Your strategies in reading and understanding texts

In some of the questions you will be asked about *reading*. We specifically mean by reading the skill to understand, use and think about *written* texts. This skill is needed to reach one's goals, to develop one's knowledge and potential, and to take part in society.

Please read each question carefully and answer as accurately as you can. In the test you usually circled your answers. For this questionnaire, you will normally answer by checking a box. For a few questions you will need to write a short answer.

If you make a mistake when checking a box, cross out or erase your mistake and mark the correct box. If you make an error when writing an answer, simply cross it out and write the correct answer next to it.

In this questionnaire, there are no right or wrong answers. Your answers should be the ones that are right for you.

You may ask for help if you do not understand something or are not sure how to answer a question.

Your answers will be combined with others to make totals and averages in which no individual can be identified. All your answers will be kept confidential.

YOUR STRATEGIES IN READING AND UNDERSTANDING TEXTS

There are several approaches to studying and understanding texts. Some of them are more useful than others, depending on the kind of reading task. The next six questions present a number of reading tasks, followed by a list of these approaches or “strategies”. We want to know your opinion about the usefulness of these strategies for the different reading tasks.

Each of the six questions starts with a short description of a particular reading task. Then several possible reading strategies are listed. Think about the usefulness of each of the strategies in relation to the given reading task only. Some strategies may be useful for one reading task but not for another.

Give a score between 1 and 6 to every strategy. A score of 1 means you think it is not a useful strategy at all for this reading task. A score of 6 means you think it is a very useful strategy for this reading task.

You can use the same score more than once if you think two or more strategies are similarly useful, but please check only one box in each row.

Here is an example question that a student has completed. (This example is about playing table tennis, not reading.)

Example Question

d) I watch expert players and try to figure out their techniques.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Q35 Reading task: You have to answer several multiple-choice questions related to a particular text. Four alternatives are given for each question. You have unlimited time and you may refer to the text while you are answering the questions.

How do you rate the usefulness of the following strategies for answering the multiple-choice questions?
