

**Petroleum and Natural Gas Systems (Subpart W) of the Greenhouse Gas Reporting Rule
Optional Facility Form for Requesting Use of or Extension of Best Available Monitoring
Methods for All Other Sources (Not included in Forms A, B or C)**

**Form D Part I – Request for BAMM Extension thru December 31, 2011
For all Other Sources (See 98.234(f)(5)(iv))**

OMB Control No. XXXX-XXXX
Approval expires XX/XX/XXXX

The public reporting and recordkeeping burden for this collection of information is estimated to average XX minutes per response (the burden was already included in ICR XXXXXX-XXXX-XXX). This is an optional application form. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave. NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do NOT send the completed form to this address.

**Petroleum and Natural Gas Systems (Subpart W) of the Greenhouse Gas Reporting Rule
Optional Facility Form for Requesting Use of or Extension of Best Available Monitoring
Methods for All Other Sources (Not included in Forms A, B or C)**

**Form D Part I – Request for BAMB Extension thru December 31, 2011
For all Other Sources (See 98.234(f)(5)(iv))**

General Information: *If you are an owner or operator subject to Subpart W of 40 CFR Part 98 and have sources that are not eligible for BAMB under 98.234(f)(2),(3) or (4), you may still request to use Best Available Monitoring Methods through December 31, 2011 for all other sources not included in BAMB forms A, B and C, subject to requirements identified in 98.234(f)(5)(iv). You must submit your request by April 30, 2011. Please see §98.234(f) regarding the use of Best Available Monitoring Methods in 2011.*

You may use optional BAMB Form D to request use of BAMB for all other sources. The basis for requesting the use of Best Available Monitoring Methods may include, but are not limited to, inability to secure relevant equipment vendors or service providers, and accessibility or safety concerns related to installing necessary equipment or gathering necessary data. To obtain approval, the request must demonstrate to the EPA Administrator's satisfaction that site-specific circumstances do not enable you to reasonably acquire, install and operate the necessary equipment.

If you are interested in submitting a request for an extension of the use of Best Available Monitoring Methods past December 31, 2011 for all other sources not included in BAMB forms A, B and C, subject to requirements identified in 98.234(f)(5)(iv), under Subpart W of 40 CFR Part 98 (40 CFR 98.234(f)) to the EPA Administrator, please see Part II of this form. The EPA will consider requests for BAMB extension beyond 2012 under extreme and unique circumstances for granting a further extension beyond 2012.

This form can be printed and submitted by mail or submitted electronically. While you may choose either method to submit your request to EPA, in order to expedite review of your BAMB request, please submit your application electronically to the following email address: MRRpetition@epa.gov with the email header "Subpart W BAMB Request".

For US mail use the following postal address:

Carole Cook
Climate Change Division
Office of Atmospheric Programs (MC- 6207J)
Environmental Protection Agency
1200 Pennsylvania Ave. NW.,
Washington, DC 20460
USA

For submissions using a private mail carrier (e.g., DHL, FEDEX) use the following address:

**Petroleum and Natural Gas Systems (Subpart W) of the Greenhouse Gas Reporting Rule
Optional Facility Form for Requesting Use of or Extension of Best Available Monitoring
Methods for All Other Sources (Not included in Forms A, B or C)**

**Form D Part I – Request for BMM Extension thru December 31, 2011
For all Other Sources (See 98.234(f)(5)(iv))**

Carole Cook
1310 L Street NW (802E)
Washington, DC 20005-4113
USA

Upon receipt, the request will be recorded in the EPA tracking system, and the requester will be notified that EPA is evaluating the request. EPA will evaluate your request to confirm that it is consistent with §98.234(f). The agency will then notify you to confirm approval or denial of the application. As a general matter, EPA will base its decision on the information provided in the extension request and does not intend to negotiate on specific issues. As time allows, EPA may follow up on extension requests with additional questions.

**Petroleum and Natural Gas Systems (Subpart W) of the Greenhouse Gas Reporting Rule
Optional Facility Form for Requesting Use of or Extension of Best Available Monitoring
Methods for All Other Sources (Not included in Forms A, B or C)**

**Form D Part I – Request for Bamm Extension thru December 31, 2011
For all Other Sources (See 98.234(f)(5)(iv))**

General Information	
1. Name of person to contact about the request	
2. Contact person address (include street address, city, state and zip code)	
3. Contact person phone number (include area code)	
4. Contact person e-mail address	
5. Contact person date signed	
6. Contact person date submitted	
7. Indicate if this is an initial Bamm request or an extension	Initial Bamm request: <input type="checkbox"/> Extension Bamm request: <input type="checkbox"/>
Facility and Segment Information	
8. Facility name	
9. Facility segment Please enter appropriate rule segment, for example, Processing would be 98.232 (a) (3).	
10. Facility physical address (include street address, city, state and zip code) for where each emissions source is located. For onshore production, please report the AAPG basin name and the EIA field name.	
Source Category, Applicability and Monitoring Equipment	
11. Indicate type of emissions Source category or parameters for which the owner/operator is requesting the use of Bamm. Please cite the specific emissions source by name and rule citation. (Example) 1. 98.232 (d) (4): Blowdown Vent Stacks 2. 98.232 (d) (5): Dehydrator Vent

Stacks	
<p>12. Total number of sources at the facility included in this application</p>	<p>Report number of sources requesting BMM for each emissions source above</p>
<p>13. For each emissions source category identified, describe the reason why BMM is being requested (safety regulations, technical infeasibility, shutdown required, etc. If more space is required, please include supporting documentation separately. Indicate here that you are providing additional documentation and note the document number for identification.</p>	
<p>14. Please indicate if documentation (e.g., fuel flow diagram) for the emissions sources being requested.</p> <p><i>[Indicate whether you are including attachments and include a list of files attached]</i></p> <p>This information is required for monitoring or measurement equipment which would be installed. For other equipment the reporter may include a facility flow diagram and indication of source locations if this information would provide additional support for the BMM request.</p>	
<p>15. Type of eligible BMM chosen by the owner/operator (e.g., other monitoring methods, supplier data, engineering calculations, emissions factors, other owner or operator records).</p> <p>For each requested emissions source category, please indicate the eligible BMM chosen. If the BMM chosen is different for different emissions sources,</p>	<p>.</p>

Optional Facility Form For Requesting Use of or Extension of Best Available Monitoring
Methods for All Other Sources (Not included in Forms A, B or C)**

**Form D Part II – Request for BAMM Extension beyond December 31, 2011
For all Other Sources (See 98.234(f)(5)(iv))**

Requests for Extension of BAMM beyond 2011	
<p>1. Please list the specific emissions source categories and parameters for which BAMM is requested. (The extension request beyond 2011 must be completed for each specific source category for which an extension is desired.)</p>	
<p>2. For each emissions source category requesting use of BAMM, please describe the reason for the BAMM request. This could be a description of the data collection methodologies that do not meet safety regulations, technical infeasibility, or specific laws or regulations that conflict with each specific source for which an owner or operator is requesting use of Best Available Monitoring Methodologies.</p>	
<p>3. For each emissions source category requesting use of BAMM, please provide a detailed explanation and supporting documents of how and when the emissions source category will comply with Subpart W reporting requirements.</p>
