

**SEBTC Evaluation  
July 2011 Site Visits  
School Food Authority Interview**

**INTRODUCTION**

My name is [X], from [Abt Associates/Mathematica Policy Research].

As you may know, Abt and Mathematica are working together to evaluate the Summer EBT for Children demonstrations for the Food and Nutrition Service of USDA. My colleagues and I are visiting each of the five sites and collecting information from a wide range of stakeholders involved in the demonstration in order to learn about the process of implementation, the challenges you encountered, and lessons learned. I want to start by thanking you for taking time to speak with us today. Your perspective and insights on these issues are very helpful.

*For stakeholders not receiving grant funds: Your participation is voluntary, and your responses will be kept confidential to the extent provided by law. You may refuse to answer any question and may stop the interview at any time.*

Our reports to FNS will describe the range of responses expressed by staff, and may list the names of agencies and partners who contributed information, but we will not quote you or anyone by name or title. However, because of the relatively small number of organizations participating in the study, there is a possibility that a response could be correctly attributed to you.

I expect our conversation will take approximately 90 minutes.

[OPTIONAL IF INTERVIEWER CHOOSES TO RECORD:] I want to be sure I am keeping track of everything you are saying. May I record our discussion so that I can listen to it later when I write up my notes? No one outside of our research team will have access to the recording. [IF YES:] Thank you. It will be helpful if you speak up, speak clearly, and speak one at a time. [IF NO:] That's no problem. I'll take notes as you talk, but I may sometimes need to ask you to slow down or repeat so that I can get all the information.

First, do you have any questions for me about the project in general or what we will be discussing today?
