The annual costs to respondents are \$72,335. This was derived by taking the number of respondents, 1800 and multiplying this figure by one half hour completion time at \$6.50 per hour, the average hourly rate of a high school candidate, and fifteen minutes completion time by a high school official, at an average hourly rate of \$21.00

#### 13. Cost of Respondent Burden

There are no capital or start-up costs associated with this information collected.
