

**Attachment 9.**  
**Health Quality Promotion**

Public reporting burden of this collection of information is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, GA 30333; ATTN: PRA (0920-0636).

### **Health Quality Promotion**

- 1) What specific policies does your state or jurisdiction have in place to promote detection and / or prevention of healthcare-associated infections in a variety of settings (e.g., acute care, long-term care, and dialysis facilities and ambulatory care centers)?
- 2) Did your state or jurisdiction conduct any validation of National Healthcare Safety Network (NHSN) data submitted during the previous calendar year by healthcare facilities in your jurisdiction? Please describe, addressing the following areas:
  - a. Data-cleaning
  - b. Detection of significant changes in data reported (rates, infections, denominators)
  - c. Outlier detection
  - d. Audit of medical records
  - e. Other. Please specify \_\_\_\_\_
- 3) What challenges or barriers have you encountered in supporting implementation of recommendations to prevent healthcare-associated infections? (Please list and describe in order of importance.)
- 4) What challenges or barriers have you encountered with respect to performing National Healthcare Safety Network (NHSN) data validation? (Please list and describe in order of importance.)
- 5) What challenges or barriers have you encountered in providing laboratory support for detection, investigation, and / or prevention of healthcare-associated infections?
- 6) List specific resources and strategies currently being used by your health department to facilitate prevention of healthcare-associated infections. Please list and describe in order of importance, noting specific tools or materials needed to further facilitate prevention efforts.
