

Appendix K: Oil Spill Work History Form

Oil Spill Work History Form Instructions

During the telephone interview, we will ask you about your experience in the oil spill clean-up effort. To prepare for the interview, you may find it helpful to complete the attached Oil Spill Work History form. Please keep the form where it can be easily found when we call you.

Record all of the clean-up jobs that you held, including jobs that did not involve contact with oil or dispersants.

Start with your first clean-up job after April 20, 2010 and continue up to your most recent job. Complete as many rows as necessary. There are spaces to record jobs on both sides of the form. Record additional jobs on a blank piece of paper, if necessary.

We will not ask you to return the form. You may discard the form after you complete all of your study activities.

Oil Spill Work History

Job Title	Location of Work	Work Start Date	Work End Date	Tasks Performed	Type of Protective Equipment Used
