

2127-0667 - FOCUS GROUPS FOR TRAFFIC AND MOTOR VEHICLE SAFETY
PROGRAMS AND ACTIVITIES

IC 2127-0667 was submitted as Generic Information collection that would have several focus group surveys to fall under its approval. The purpose of the non-substantive change is to delete the form that was originally sent with this submission. The form submitted was for illustration purposes only, but was inadvertently submitted as an active collection that assumed all the burden hours.

The information below is for the 2 new forms that are being submitted as active collections under the Generic Information Collection 2127-0667. These forms will consume 112 hours of the 2882 approved hours under 2127-0667.
