

Estimate of the Information Collection Burden for the  
Child and Adult Care Food Program (OMB #0584-0055)

This document explains the calculation of the information collection burden for the Child and Adult Care Food Program, OMB #0584-0055, as submitted for the renewal of the existing regulation. A notice was published in the Federal Register on January 15, 2010, at page 2475. No comments were received in response to the agency's notice.

AFFECTED PUBLIC: STATE AGENCIES (SA)

REPORTING REQUIREMENTS

1. Section 226.3(c) states that each State agency desiring to take part in the Program shall enter into a written agreement with the Department for the administration of the Program in the State.

FNS records 55 State agencies (SAs) that will each file 1 report annually for a total of 55 responses ( $55 \times 1 = 55$ ). The estimated average number of burden hours per response is 0.92 resulting in estimated total burden hours of 50.60 ( $55 \times 0.92 = 50.60$ ).

2. In the previously approved ICR, it was stated that Section 226.4 requires SA to submit a request for letter of credit. Under Section 226.4, Payments to States and use of funds, (a) Availability of funds, for each fiscal year based on funds provided to the Department, FNS must make funds available to each State agency to reimburse institutions for their costs in connection with food service operations, including administrative expenses, under this part. FNS determined the amount of funding based on formulas specified in this section of Program regulations and funds for State agencies in accordance with 7 CFR part 3016.

There is no requirement for SAs to request a letter of credit; thus, there is no burden requirement on the SA. Therefore, the previously recorded burden hours have been eliminated.

3. Section 226.6(b) requires SAs to notify institution of approval or disapproval of application within 30 days of receipt of a complete application.

FNS estimates 55 SAs that will each file 15 reports annually for a total of 825 responses ( $55 \times 15 = 825$ ). The estimated average number of burden hours per response is 8.0 resulting in estimated total burden hours of 6,600 ( $825 \times 8 = 6,600$ ).

4. Section 226.6(c) states that, if the SA determines that a new or renewing institution has committed one or more serious deficiency, the SA must provide the institution and the responsible principals and responsible individuals with notice of the serious deficiency(ies).

FNS estimates 55 SAs that will each file 5 reports annually for a total of 275 responses ( $55 \times 5 = 275$ ). The estimated average number of burden hours per response is 8.0 resulting in estimated total burden hours of 2,200 ( $275 \times 8 = 2,200$ ).

5. Section 226.6(c) also requires that, if the SA determines that a participating institution has committed one or more serious deficiency(ies), the SA must provide the institution and the responsible principals and responsible individuals with notice of the serious deficiency(ies).

FNS estimates 55 SAs that will each file 10 reports annually for a total of 550 responses ( $55 \times 10 = 550$ ). The estimated average number of burden hours per response is 8.0 resulting in estimated total burden hours of 4,400 ( $550 \times 8 = 4,400$ ).

6. Section 226.6(c) requires SAs to submit a copy of each serious deficiency notice to the FNSRO.

FNS estimates 55 SAs that will each file 15 (5 for new or renewing institutions plus 10 for participating institutions) reports annually for a total of 825 responses ( $55 \times 15 = 825$ ). The estimated average number of burden hours per response is 0.5 resulting in estimated total burden hours of 412.50 ( $825 \times 0.5 = 412.50$ ).

7. Section 226.6(c)(8) (C)(ii) states that, within 10 days of receiving a notice of termination and disqualification from a sponsoring organization, the SA must provide the appropriate FNSRO the name, mailing address, and date of birth of each day care home provider whose agreement is terminated for cause.

FNS estimates 55 SAs that will each file 12 reports annually for a total of 660 responses ( $55 \times 12 = 660$ ). The estimated average number of burden hours per response is 0.5 resulting in estimated total burden hours of 330 ( $660 \times 0.5 = 330$ ).

8. Section 226.6(d)(1) & (e) requires SAs to establish licensing/compliance review procedures for child care centers, day care homes, outside-school hours care centers and adult day centers. Since SAs currently administer the Program in accordance with licensing/compliance review procedures, the burden associated with this requirement is now to revise/update the established procedures as necessary.

FNS estimates 20 SAs that will each file 1 report annually for a total of 20 responses ( $20 \times 1 = 20$ ). The estimated average number of burden hours per response is 1.0 resulting in estimated total burden hours of 20 ( $20 \times 1 = 20$ ).

12. Section 226.6(f)(1)(vii) requires SAs to provide day home sponsoring organizations a list of elementary schools in which at least one-half of the children enrolled receive free/reduced price (f/rp) meals.

FNS estimates 55 SAs that will each provide 16 reports annually for a total of 880 responses ( $55 \times 16 = 880$ ). The estimated average number of burden hours per response is 1.0 resulting in estimated total burden hours of 880 ( $880 \times 1 = 880$ ).

16. Section 226.6(f)(2) previously stated that SAs were required to submit management plans. Submission of annual management plans is no longer a regulatory Program requirement. Therefore, the previously recorded burden hours have been eliminated.
17. Section 226.6(f)(3)(iii) requires SAs to provide census data to day care home sponsoring organizations.

## AFFECTED PUBLIC: SPONSORS/INSTITUTIONS

### REPORTING REQUIREMENTS

1. In the previously approved ICR, it was stated that Section 226.6(b) requires institutions submit documentation sufficient to determine that each at-risk afterschool care center meets program eligibility or area eligibility requirements. This is an erroneous statement; Section 226.6(b) details State agency responsibilities for Program applications and agreements. Therefore, burden hours previously reported have been deleted.
2. Sections 226.6 (d)-(e) and 226.6(f)(1)(vi) require that sponsors and institutions submit documentation to demonstrate that child care centers, outside-school-hours care centers, at-risk afterschool care centers, day care homes, and adult day care centers are in compliance with licensing/approval criteria.

FNS estimates 19,582 sponsors/institutions will each provide 1 report annually for a total of 19,582 responses ( $19,582 \times 1 = 19,582$ ). The estimated average number of burden hours per response is 0.5 resulting in estimated total burden hours of 9,791 ( $19,582 \times 0.5 = 9,791$ ).

3. In the previously approved ICR, it was stated that Section 226.6(c)(1)(2) requires Sponsoring organizations to provide a copy of the serious deficiency notice to the SA. Sections 226.6(c) (1) and (2) respectively details SAs agreement responsibilities for (1) Denial of a new institution's application and (2) Denial of a renewing institution's application. Therefore the burden hours reported previously have been deleted.
4. Section 226.6(f)(1)(iii) requires sponsors/institutions to submit current eligibility information on enrolled participants to be used to calculate reimbursement rates. This regulatory was erroneously omitted from the previously approved ICR.

FNS estimates 19,582 sponsors/institutions will each provide 12 reports annually for a total of 234,984 responses ( $19,582 \times 12 = 234,984$ ). The estimated average number of burden hours per response is 0.5 resulting in estimated total burden hours of 117,492 ( $234,984 \times 0.5 = 117,492$ ).

5. In the previously approved ICR, it was stated that 226.6 (f) (10) requires sponsoring organizations to submit tier 1 and 2 enrollment information to SAs. This is not a Program regulatory requirement. Therefore, the burden hours reported previously have been deleted.
6. Section 226.6(f)(1)(vii) requires that sponsor/institutions submit verification that all facilities have adhered to Program training requirements.

FNS estimates 19,582 sponsors/institutions will each provide 1 report annually for a total of 19,582 responses ( $19,582 \times 1 = 19,582$ ). The estimated average number of burden hours per response is 1.0 resulting in estimated total burden hours of 19,582 ( $19,582 \times 1.0 = 19,582$ ).
