**NUMBER OF EMPLOYEES** — Employees on the payroll at the end of FY 2010 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2010. If the number of employees at the end of FY 2010 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2010. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.

**EMPLOYEE COMPENSATION** — Expenditures made by an employer in connection with the employment of workers, including cash payments, payments in-kind, and employer expenditures for employee benefit plans including those required by statute. Report compensation which relates to activities that occurred during the reporting period regardless of whether the activities were charged as an expense on the income statement, charged to inventories, or capitalized. DO NOT include data related to activities of a prior period, such as those capitalized or charged to inventories in prior periods. DO NOT include compensation of contract workers not carried on the payroll of this affiliate.

**c. Losses incurred** — Report losses incurred for the insurance products covered by b above. Exclude loss adjustment expenses and losses that relate to annuities. Also exclude losses related to universal and adjustable life, variable and interest-sensitive life, and variable-universal life policies.  
 For property and casualty insurance, calculate as net losses paid during the reporting year, minus net unpaid losses at the beginning of the year, plus net unpaid losses at the end of the year. In the calculation of net losses, include losses on reinsurance assumed from other companies and exclude losses on reinsurance ceded to other companies. Unpaid losses include both case reserves and losses incurred but not reported.

For life insurance, losses reflect policy claims on reinsurance assumed or on primary insurance sold, minus losses recovered from reinsurance ceded, adjusted for changes in claims due, unpaid, and in the course of settlement. → 2115

**Section E — Distribution of Sales or Gross Operating Revenues — See *Additional Instructions* for Part IV, Section E, on page 12 at the back of this form.**

Distribute sales or gross operating revenues among three categories – sales of goods, sales of services, and investment income. For the purpose of this distribution, "goods" are normally economic outputs that are tangible and "services" are normally economic outputs that are intangible. When a sale consists of both goods and services and cannot be unbundled (i.e., the goods and services are not separately billed), classify the sales as goods or services based on whichever accounts for a majority of the value. Give best estimates if actual figures are not available. *Insurance companies also see **Special Instructions, B.3.d. and e., page 13.***

**Part V — U.S. Exports to and U.S. Imports From Majority-Owned Foreign Affiliate**

**Goods only valued f.a.s. at port of exportation; do not include services** — See *Instruction Booklet, Part V.*

**IMPORTANT NOTES**

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2010. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should exclude services.

**Capital goods** — Include capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

**Consigned goods** — Include consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

**In-transit goods** — Exclude from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

**Packaged general use computer software** — Include exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. Do not include exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also do not include negotiated leasing fees for software that is to be used on networks.

**Natural gas, electricity, and water** — Report **ONLY** the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. **DO NOT** report the service value (transmission and distribution).

**89 On what basis were the trade data in the section prepared? — Mark (X) one.**

- 4172  1  "Shipped" basis
- 2  "Charged" basis without adjustments, because there is no material difference between the "charged" and "shipped" bases.
- 3  "Charged" basis with adjustments to correct for material differences between the "charged" and "shipped" bases.

**2010 ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD**  
**FORM BE-11B**  
**ADDITIONAL INSTRUCTIONS BY ITEM**

**Part I — Identification of Foreign Affiliate**

- 3. Country of location** — If the affiliate is engaged in petroleum shipping, other water transportation, or oil and gas drilling, and has operations spanning more than one country, use country of incorporation for country of location. For example, classify in country of incorporation an oil drilling rig that moves from country to country during the year.
- 6. Ownership by U.S. Reporter named in item 1.**  
**Equity interest** is the U.S. Reporter's direct ownership in the total equity (voting and nonvoting) of the affiliate. Examples of nonvoting equity include nonvoting stock and a limited partner's interest in a partnership.  
**Voting interest** is the U.S. Reporter's direct ownership in just the voting equity of the affiliate. Examples of voting equity include voting stock and a general partner's interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting interest in an affiliate but own less than 100 percent of the affiliate's total equity.
- 20.—28.**

**Sales or gross operating revenues of foreign affiliate, by industry of sales or gross operating revenues.** See *Additional Instructions* for Part IV, Section A, item 43 below.

**Holding companies** (ISI code 5512) must show total income as reported in item 48. To be considered a holding company, income from equity investments (items 44 and 45) must be more than 50 percent of total income (item 48). In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512, (holding company), is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.

*Dealers in financial instruments and finance, insurance, and real estate companies see **Special Instructions** on page 13.*

**Part II — Financial and Operating Data of Foreign Affiliate — Continued**

**Section A — Number of Employees and Employee Compensation**

- 30. Employee compensation** — Consists of wages and salaries of employees and employer expenditures for all employee benefit plans.  
**Wages and salaries** — Include gross earnings of all employees before deduction of employees' payroll withholding taxes, social insurance contributions, group insurance premiums, union dues, etc. Include time and piece-rate payments, cost of living adjustments, overtime pay and shift differentials, bonuses, profit sharing amounts, stock based compensation, and commissions. Exclude commissions paid to independent personnel who are not employees.  
 Include direct payments by employers for vacations, sick leave, severance (redundancy) pay, etc. Exclude payments made by, or on behalf of, benefit funds rather than by the employer. (Include employer contributions to benefit funds in "employee benefit plans.")  
 Include in-kind payments, valued at their cost, that are clearly and primarily of benefit to the employees as consumers. Do not include expenditures that benefit employers as well as employees, such as expenditures for plant facilities, employee training programs, and reimbursement of business expenses.  
**Employee benefit plans** — Include employer expenditures for all employee benefit plans including those mandated by government statute, those resulting from collective bargaining contracts and those that are voluntary. Include Social Security and other retirement plans, life and disability insurance, guaranteed sick pay programs, workers' compensation insurance, medical insurance, family allowances, unemployment insurance, severance pay funds, etc. Also, include deferred post-employment and post-retirement expenses per FASB ASC 715. If plans are financed jointly by the employer and the employee, include only the contributions of the employer.

**Section B — Technology**

**33. Research and development expenditures** — R&D includes the following:

1. The planned, systematic pursuit of new knowledge or understanding toward general application (**basic research**);
2. The acquisition of knowledge or understanding to meet a specific, recognized need (**applied research**); and
3. The application of knowledge or understanding toward the production or improvement of a product, service, process, or method (**development**).

**Basic research** is the pursuit of new scientific knowledge or understanding that does not have specific immediate commercial objectives, although it may be in fields of present or potential commercial interest.

**Applied research** applies the findings of basic research or other existing knowledge toward discovering new scientific knowledge that has specific commercial objectives with respect to new products, services, processes, or methods.

**Development** is the systematic use of the knowledge or understanding gained from research or practical experience directed toward the production or significant improvement of useful products, services, processes, or methods, including the design and development of prototypes, materials, devices, and systems.

R&D includes the activities described above, whether assigned to separate organizational units of the company or conducted by company laboratories and technical groups that are not a part of a separate R&D organization.

Exclude expenditures for quality control; routine product testing; market research; sales promotion, sales service, and other nontechnological activities; routine technical services; research in the social sciences or psychology; geological and geophysical exploration activities, and advertising programs to promote or demonstrate new products or processes.

Include all costs incurred to support R&D. Include wages, salaries, and related costs; materials and supplies consumed; R&D depreciation, cost of computer software used in R&D activities; utilities, such as telephone, telex, electricity, water, and gas; travel costs and professional dues; property taxes and other taxes (except income taxes) incurred on account of the R&D organization or the facilities they use; insurance expenses; maintenance and repair, including maintenance of buildings and grounds; company overhead including: personnel, accounting, procurement and inventory, and salaries of research executives not on the payroll of the R&D organization. Exclude capital expenditures, expenditures for tests and evaluations once a prototype becomes a production model, patent expenses, and income taxes and interest.

- 78. Sales of goods** — Goods are normally economic outputs that are tangible. Report as sales of goods:

- Mass produced media, including exposed film, video tapes, DVDs, audio tapes, and CDs.
- Books. NOTE: Book publishers — To the extent feasible, report as sales of services all revenues associated with the design, editing, and marketing activities necessary for producing and distributing books that you both publish and sell. If you cannot unbundle (i.e., separate) these revenues from the value of the books you sell, then report your total sales as sales of goods or services based on the activity that accounts for a majority of the value.

## Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies and Real Estate Companies

### A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.

#### 1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — Include in item 46:

- impairment losses as defined by FAS 115,
- realized gains and losses on trading or dealing,
- unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
- goodwill impairment as defined by FAS 142.

**EXCLUDE** from item 46, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in item 67 (all other components of accumulated other comprehensive income (loss)).

**EXCLUDE** from item 46, income from explicit fees and commissions. Include income from these fees and commissions as operating income in items 28 and 43 and as sales of services in item 79.

#### 2. Real estate companies — Include in item 46:

- impairment losses as defined by FAS 144 and
- goodwill impairment as defined by FAS 142.

**EXCLUDE** the revenues earned and expenses incurred from the sale of real estate you own. Such revenues should be reported as operating income in items 28, 43, and 77 and as sales of goods in item 78. Such expenses, including the net book value of the real estate sold, should be reported as costs of goods sold in item 49. Do not net the expenses against the revenues.

### B. Special Instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders. Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments, e.g., include assets not acceptable for inclusion in the annual statement to an insurance department, such as:
  1. non-trusted or free account assets and
  2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. Include mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet not in the liability section.

2. Do not include assets of the U.S. Reporter held in the country of location of the affiliate that are for the benefit of the U.S. Reporter's policyholders.

### 3. Instructions for reporting specific items

- a. **Sales or gross operating revenues, excluding sales taxes (item 43)** — Include items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. - f. **Current liabilities (items 60)** — Include current items such as loss liabilities, policy claims, commissions due, and other current liabilities arising from the ordinary course of business, and long-term debt.
