

Data Elements for Client-level Data Export

(Effective for the 2010 Annual RSR)

A client report must be submitted by **ALL** agencies that provide services directly to clients. This document outlines the data fields that will be submitted in the XML file. The client report will contain one record for each client who received a Ryan White HIV/AIDS Program-funded core medical service or support service during the reporting period. For detailed information about these data elements and reporting client-level data, refer to “The Client Report” section in the RSR Instruction Manual.

Note: For the first two RSR reporting periods (January–June 2009 and January–December 2009), only service providers receiving RWHAP funds to provide outpatient/ambulatory medical care, medical case management, or non-medical case management services were required to submit a client-level data file. However, for the 2010 reporting period, **ALL PROVIDERS MUST UPLOAD CLIENT-LEVEL DATA** (if applicable).
