

Early Head Start Follow-up Study
Third party contact script

Hello, this is _____ calling from RAND. I am trying to reach PARENT NAME about a research study he/she participated in. When we last spoke with PARENT NAME, he/she gave us your name and number and said that if we couldn't reach him/her, we could call you, and you would know how to reach him/her.

We would like to speak with PARENT NAME for a very brief phone interview, and we will pay him/her for his/her time. This is a voluntary research study. He/she can choose not to participate.

Do you have a phone number for PARENT NAME?

Would you be willing to give him/her a message with our phone number?

This is the Early Head Start Study, and our project toll-free number is 1 (800) ###-####.

Thank you.
