1. Who must report?

- All domestic and foreign producing establishments, regardless of whether or not the establishment produced or distributed a pesticide, active ingredient or device must submit a report. (FIFRA §§ 7 and 17)
- Establishments with zero production or distribution in 2010. If your establishment did not produce or distribute products subject to this report in 2010:
 - Complete Items 1-27 and Items 40-43.
 - Check “No” in Item 14.
- Establishments that closed, went out of business or ceased production.
 - Report all production and distribution during 2010.
 - See Number 7 for information on terminating your establishment’s registration.

2. Definitions

- **Producer**—any person, as defined by FIFRA, “who produces any pesticide, active ingredient, or device (including packaging, repackaging, labeling and relabeling).” (40 CFR §167.3)
- **Produce**—“manufacture, prepare, propagate, compound or process any pesticide, including any pesticide product pursuant to FIFRA §5, any active ingredient or device, or

to package, repackage, label, relabel or otherwise change the container of any pesticide or device.” (40 CFR §167.3)

- **Establishment**—Includes:
 - Any site where a pesticidal product, active ingredient or device is produced.
 - Sites that are independently owned or operated regardless of whether such site is domestic and producing a pesticidal product for export only or whether the site is foreign and producing a pesticidal product for import into the United States. (40 CFR §167.3)
 - Sites that produce a pesticidal product for use under an Experimental Use Permit, FIFRA Section 18 Emergency Exemption or Section 24(c) Special Local Needs registration, must report. (40 CFR §167.20)
 - Sites that produce unregistered pesticidal products for export from the US.
- **Custom Blender**—any establishment that provides the service of mixing registered pesticides to a customer’s specifications, specifically:
 - a pesticide-pesticide blend
 - a pesticide-fertilizer blend
 - a pesticide-animal feed mixture

when

- the blend is not held in inventory
- the pesticide used in producing the blend bears labeling that does not prohibit the use of the pesticide in the blend
- the blend is delivered to the end-user with a copy of the labeling of the pesticide used in producing the blend and a statement specifying the composition of the mixture

If these conditions are not met, the establishment does not meet the definition of "custom blender" and must comply with FIFRA Section 7 requirements.

NOTE	A facility where only custom blending activities take place is not considered a pesticide-producing establishment and therefore does not need to be registered. Please see the Pesticide Establishment Registration and Reporting FAQ for more information. http://www.epa.gov/compliance/resources/monitoring/fifra/faqestablishment.html

3. What must be reported?

- Each producer operating an establishment must submit the following information for each pesticide, active ingredient or device produced at your establishment: (Please note that production and distribution of unregistered pesticides must be reported. See 40 CFR § 152.30).
 - Types and amounts produced in 2010.
 - Types and amounts sold or distributed in 2010, regardless of when the product was produced.
 - An estimate of the amount expected to be produced in 2011.

- **DO NOT REPORT:**

- Production, distribution or sale of products NOT produced or repackaged by your establishment (e.g., no changes are made to the product formulation, container or label).
- Products shipped from your supplier directly to your customer.
- Any products for which Items 36, 37 and 38 are zero.
- Pesticides that are **applied** by your staff.
- Returned inventory or carryover product from a previous year.
- Custom-blended products.

4. **When to report:**

- **Annual Reports are due: On or before March 1, 2011, even if there has been no production.**
- **Initial Reports:** FIFRA §7 requires all registered establishments to submit an initial report to the U.S. EPA **30 days** after receipt of notification of establishment registration. Failure to file the initial report is an unlawful act and may result in termination of the establishment's registration or your ability to import into the United States until you have fulfilled your reporting responsibility.

5. **Completing the Report:**

- Enter the company official's or authorized agent's Name and Title (Items 40 & 41).
- An original signature of a company official or authorized agent is required on the report in Item 42.
- Enter the date in Item 43.
- For all pages complete at the bottom: "This is Page ____ of ____."
- Submit completed reports as directed on Page 9. Please make a copy of the report for your records.
- **EPA will not accept any copies (xeroxed, faxed or electronic document formats) of the initial or annual reports (EPA Form 3540-16).**

6. **What if I fail to file this production report?**

Failure to file an initial or annual production report is a violation of FIFRA, and may result in termination of the establishment's registration, civil penalties up to \$7,500 per violation and/or criminal penalties. It may also affect your ability to import until you are in compliance.

7. **How to terminate your establishment's registration:**

- Send a letter on company letterhead with this report stating the establishment is out of business or has ceased production of pesticides, active ingredients or devices requesting that your establishment number be terminated.
- If EPA terminates your domestic establishment registration, it is illegal to sell or distribute any pesticide, active ingredient or device in the United States or to export a product out of the United States. If EPA terminates your foreign establishment registration, it is illegal for you to import any pesticide, active ingredient or device into to the United States.
