HUD Master Models (2007) ICDBG Indian Community Development Block Grant

To develop viable Indian and Alaskan Native communities through the creation of decent housing, suitable living environments, and economic opportunities for low- and moderate income persons as defined in 24 CFR 1003.4.

Need Statement

Indian Tribes and Alaskan natives are in need of suitable living environments with decent housing, particularly for people with low to moderate incomes.

Indian Tribes and Alaskan Natives are in need of community infrastructure and facilities to improve the health, safety, and well-being of residents.

Indian Tribes and Alaskan natives are in need of economic development and job creation activities to foster self-sufficiency.

There are urgent unmet needs that impact upon the health and safety of the Native American and Alaskan Native communities that must be addressed.

<u>Evaluation Process – These are standard requirements that HUD will expect every program manager receiving a grant to do as part of their project management.</u>

- An evaluation process will be part of the on-going management of the program.
- Comparisons will be made between projected and actual numbers for both outputs and outcomes.
- Deviations from projected outputs and outcomes will be documented and explained.
- Analysis of data to determine the relationship of outputs to outcomes; what outputs produce which outcomes.

HUD Will Use The Following Management Questions To Evaluate Your Program

- 1. How many public facilities were constructed, rehabilitated or renovated? Identify the number and total square footage for each type of public facility.
- 2. What was the value of public facilities constructed, rehabilitated or renovated?
- 3. How many residential buildings were constructed, rehabilitated or renovated? Identify the number and total square footage for each type of residential building.
- 4. What was the value of residential buildings constructed, rehabilitated or renovated?
- 5. How many new businesses or micro-enterprises were created?
- 6. What was the value (projected earnings) of new businesses or micro enterprises created?
- 7. How many jobs were created or obtained as a result of economic development activity?
- 8. What was the value of jobs created or obtained based on an annual wage?
- 9. How many persons purchased a home?
- 10. What was the value of homes purchased?
- 11. How many educational or job training opportunities were provided?

Carter-Richmond Methodology

The above Management Questions developed for your program are based on the Carter-Richmond Methodology1. A description of the Carter-Richmond Methodology appears in the General Section of the NOFA.
