-	More than 10 years

Center TRT Survey of Obesity Prevention Programs Deloitte. 2 II. Information About Your State Health Department Please indicate the extent to which you agree or disagree with each of the following statements about your State Health Department. When we use the word "adopt" or "adoption," we refer to the decision to select an intervention or policy as the best course of action. Neither Strongly Agree Strongly Disagree Agree nor Disagree Agree Disagree 0 Preventing obesity is a high priority for my health department. My organization highly values the use of evidence-based \bigcirc \bigcirc \bigcirc 0 \circ practice in decision making. Evidence-based practice is consistently used in program planning decision making. I play an influential role in the decisions my state health department makes on obesity strategies and policies. \bigcirc \bigcirc \bigcirc \bigcirc \bigcirc

Please indicate the importance of each of the following factors when deciding to develop or adopt specific interventions or policies to prevent obesity in your state. When we use the word "implement" or "implementation," we refer to the actions involved in carrying out or putting into practice an intervention or policy.

	Very Important	Important	Neither Important Nor Unimportant	Unimportant	Very Unimportant
Recommended by funding agency	0	0	0	0	0
Recommended by elected officials	0	0	0	\circ	0
How well the intervention or policy fits with my available resources (e.g. budget, personnel, timelines,etc.)	0	0	0	0	0
How well the intervention or policy fits with an established coalition (e.g. established obesity prevention coalitions, partnerships)	0	0	0	0	0
How well the intervention or policy fits with current obesity trends in my state	0	0	0	0	0
How easy the intervention or policy is to implement	0	0	0	0	0
Strength of the evidence in support of the effectiveness of the intervention	0	0	0	0	0
Whether the intervention or policy has been implemented and evaluated with a population similar to the population served by my health department	0	0	0	0	0
Whether other colleagues in a position similar to my own are using the intervention	0	0	0	0	0
