## Time to Submit Ingredient Report

The Federal Cigarette Labeling and Advertising Act, 15 U.S.C. § 1335a, and the Comprehensive Smokeless Tobacco Health Education Act, 15 U.S.C. § 4403, require that every manufacturer, packager, and importer of cigarettes and smokeless tobacco products submit a list of ingredients added during the manufacturing process. This Ingredient Report must include the chemical name and chemical abstract service (CAS) registry number for each ingredient listed.

Laboratory analysis in lieu of the Ingredient Report will not be accepted as it does not provide a complete representation of the ingredients added to tobacco. By submitting an Ingredient Report you are certifying that the manufacturer, and not a third party, has provided your company with the correct list of ingredients. Further, if you are manufacturing or importing smokeless tobacco, then the Ingredient Report must also include nicotine quantity for the product.

**Deadline:** The Ingredient Report must be received upon initial importation and annually thereafter on March 31 for the previous year. Additional information is available at CDC/OSH's Web page, <http://www.cdc.gov/tobacco/fclaa>
