Privacy Act Notification & Burden Statements

Privacy Act Notification

Collection of this information is authorized under 42 U.S.C. 241, 284(b)(1)(C), 286b-3, and 287c-1. The primary use of this information is to identify students for admission consideration in the National Institutes of Health Graduate Partnerships Program. It may be used to determine an individual's eligibility and evaluate their qualifications for an IRTA Fellowship, document the basis for management actions relating to fellowships that are awarded and to provide data for program evaluation. The information will be used to identify candidates for clinical and research fellow, clinical elective, and other training positions at the NIH and to maintain a permanent record of those individuals who have received clinical research training at the NIH for historical and reference uses. This information will be disclosed to investigators, members of advisory committees, GPP staff and contractors working on our behalf. Submission of this information is voluntary, however, in order for us to review your application for consideration, you should complete all fields.

Burden Disclosure Statement for Applicants

Public reporting burden for this collection of information is estimated to average 45-minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0299). Do not return the completed form to this address.

Burden Disclosure Statement for References

Public reporting burden for this collection of information is estimated to average 15-minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
