PRESUP This month we would also like to ask a few questions about your thoughts and experiences concerning tobacco use. I need to ask each individual, age 18 years old and older, these questions. ENTER (1) TO PROCEED

ENTER (I) FOR IMPORTANCE OF RESPONDING

H_SUPP_I If Respondent says "I answered these last year — why are you asking again?" FR REPLY:

We want to be able to see if anything has changed. Also, the new set of questions is much shorter.

If Respondent asks more generally why we are asking about tobacco, or who will use the data, or how the data will be used, FR REPLY with the more general statement:

Your answers to the tobacco questions are very important. The National Institutes of Health, CDC, and other researchers will use this information to measure changes in tobacco use and to help with services and policymaking.
