

from the original estimates made in November 2004. In addition, 1,500 more flight training providers have participated in this program.

TSA estimates that it will take the 26,500 candidates 45 minutes per application (twice per year) to provide TSA with all of the information required, for a total approximate application burden of 39,750 hours per year. Flight training providers must keep records for five years from the time they are created, and it is estimated each of the 4,500 flight training providers will carry an annual record keeping burden of 104 hours, for a total of 468,000 hours. Thus, TSA estimates the combined hour burden associated with this collection to be 507,750 hours annually.
