## Participation Status

$\square$
English 313
U.S. participation in this study is sponsored by the National Center for Education Statistics (NCES), U.S. Department of Education. Your responses are protected by federal statute (20 U.S.C., § 9573). Your answers may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law. By law, everyone working on this NCES survey is subject to a jail term of up to 5 years, a fine of up to $\$ 250,000$, or both if he or she willfully discloses ANY identifiable information about you.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collectio displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0755. The time required to complete this information collection is estimated to average 30 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving the form, please write to: U.S. Department of Education, Washington, D.C. 20202-4537. If you have comments or concerns regarding the status of your individual submission of this form, write directly to: Program for International Student Assessment (PISA), National Center for Education Statistics, U.S. Department of Education, 1990 K Street, N.W., Washington, D.C. 20006-5650.
O.M.B. No. 1850-0755, Approval Expires xx/xx/xxxx

In this booklet you will find questions about:

- You (Section A)
- Your Family and Home (Section B)
- Learning Mathematics (Section C)
- Your Mathematics Experiences (Section D)
- Your School (Section E)
- Your Problem Solving Experiences (Section F)

Please read each question carefully and answer as accurately as you can. In the test, you usually circled your answers. For this questionnaire, you will normally answer by checking a box. For a few questions, you will need to write a short answer.

If you make a mistake when checking a box, cross out your error and check the correct box. If you make an error when writing an answer, simply cross it out and write the correct answer next to it.

In this questionnaire, there are no right or wrong answers. Your answers should be the ones that are right for you.

You may ask for help if you do not understand something or are not sure how to answer a question.

Your answers will be combined with others to make totals and averages in which no individual can be identified. All information (or responses) you provide may only be used for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law [Education Sciences Reform Act of 2002 (ESRA 2002), 20 U.S. Code, Section 9573]

## SECTION C: ABOUT LEARNING MATHEMATICS

Q30 Thinking about your views on mathematics: To what extent do you agree with the following statements?
(Please check only one box in each row.)
a)

I enjoy reading about mathematics.

Strongly
agree

 Agree Disagree

Strongly disagree
b) Making an effort in mathematics is worth it because it will help me in the work that I want to do later on.

c) I look forward to my mathematics lessons.

d) I do mathematics because I enjoy it.

e) Learning mathematics is worthwhile for me because it will improve my career prospects.

f) I am interested in the things I
learn in mathematics.

g) Mathematics is an important subject for me because I need it for what I want to study later on.

h) I will learn many things in
mathematics that will help me get a job.

$\square$

Q31 Please read the paragraph below. Then, indicate for each of the explanations that follow how likely it is to apply to you, given the situation.

You have been studying for a mathematics quiz and you are getting tired. Your friends want you to stop studying and go to a movie with them. Although you think it would be fun, you decide to continue studying for the quiz instead of going with them.

## How likely are the following reasons for YOU doing this in the situation?

(Please check only one box in each row.)

| Very |  |  |
| :---: | :---: | :---: |
| likely | Likely | UnlikelyVery <br> unlikely |

a) I think that studying hard for my mathematics quiz is worth it because it will help me in my future career.
b) I just think that studying mathematics is fun.
c) I will not go out because my parents expect me to do well on my mathematics

 quiz.
d) I think that it is more important for me to get better grades in mathematics than to
go out with my friends.

## Q32 Please read the paragraph below. Then, indicate for each of the explanations that follow how likely it is to apply to you, given the situation.

You have decided to read a book about the history of mathematics in your free time that was not assigned in school.

How likely are the following reasons for YOU doing this in the situation?
(Please check only one box in each row.)
Very

a) Reading about the history of mathematics in my free time will help me get better grades than the other students in my class.
b) Reading about the history of mathematics in my free time will help me obtain the job I want.

c) Reading about the history of mathematics in my free time is enjoyable.
d) My parents want me to read about the history of mathematics as much
as I can.

Q33 Please read the paragraph below. Then, indicate for each of the explanations that follow how likely it is to apply to you, given the situation.

Your school has a mathematics club. In this club, students compete to solve mathematics problems against other schools. You have decided to join the club.

## How likely are the following reasons that you have done this?

(Please check only one box in each row.)

Q74 In the box is a series of problems. Each requires you to understand a problem written in text and perform the appropriate calculations. Usually the problem talks about practical situations, but the numbers and people and places mentioned are made up. All the information you need is given. Here are two examples:

1) Ann is two years older than Betty, and Betty is four times as old as Sam. When Betty is 30 , how old is Sam?
2) Mr. Smith bought a television and a bed. The television cost $\$ 625$, but he got a $10 \%$ discount. The bed cost $\$ 200$. He paid $\$ 20$ for delivery. How much money did Mr. Smith spend?
