RE: Speed Warning System Study

Dear Dr. De Leonardis:

The Motor Vehicle Administration (MVA) has reviewed your research proposal and is pleased to collaborate with Westat on the speed warning device feasibility study. We recognize that speeding is a significant issue and are happy to support this study by sending a recruitment letter to potential volunteers living in Montgomery County, Maryland.

Prior to the MVA mailing the recruitment letters, Westat will need to sign the MVA Privacy Policy Protection Policy and provide a fully executed IRB approved protocol governing the study execution. Once these items are received, the MVA will request the necessary data records and begin mailing the recruitment letters. The MVA will then invoice Westat for the postage of the letters at a rate of \$0.34 per piece.

Thank you for your interest in driver safety and helping to reduce crashes, injuries and fatalities on Maryland roads. We are looking forward to working with you and learning the results of your research study,

Sincerely,

A handwritten signature in blue ink that reads 'Christine E. Nizer'.
