**Paperwork Reduction Act Burden Statement**

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2127-XXXX. Public reporting for this collection of information is estimated to be approximately 30 minutes per response, including the time for reviewing instructions, completing and reviewing the collection of information. All responses to this collection of information are voluntary. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, National Highway Traffic Safety Administration, 1200 New Jersey Ave, S.E., Washington, DC, 20590

Thank you for calling about our study. Let me explain to you what the study will be about. Then if you are interested, I will need to get some background information from you. We will not be scheduling you for participation in the study today. If you are eligible, we will add your name to the list of potential participants. We need to identify a group of available people before we try to schedule anyone.

The study participants are drivers who have received multiple speeding violations over the past few years and are the principal drivers of a vehicle. A GPS-enabled device will be affixed inside the windshield of the vehicle. It will collect data on where, when, and how the vehicle is driven (including speed, braking, and sudden changes in direction). The device will transmit data to Westat whenever the vehicle is being driven. Your name and any other identifying information will not be identified in any report that we write about the project nor will your information be released to any administrative agencies. The device is designed to sound an alert when you exceed the speed limit, speed up or stop suddenly, or make an erratic change in course.

Each study participant will be asked to keep this device in their vehicle for approximately 12 weeks. After the data collection period, study participants will be interviewed about their

experience with the device. Installation and removal of the device should take no more than an hour, and will take place at the Westat offices in Rockville, Maryland. If you complete the study you will be paid \$150 for your participation.

If you are interested, I will need to ask you a few questions to determine your eligibility. Are you interested in participating? *(If yes, complete rest of form).*

*(If no, ask:)* Would you be interested in being contacted for other studies? If so we will add your name to our recruitment database. *(if so, just fill out items 1-2)*

---

**1** How old are you?:

a. 21-30 years                      OR                      b. 30 and above

***(If not 21 or above, stop asking and thank them for their time)***

**Now I have a few questions about your travel patterns:**

2. Do you have a valid driver license? *(if No, skip to items 8)*

- a. Yes
- b. No

3. What type of vehicle do you usually drive?

**Make:** \_\_\_\_\_ **Model:** \_\_\_\_\_ **Year:** \_\_\_\_\_

4. How frequently do you drive your vehicle? ***(Read Aloud)***

- a. Almost everyday
- b. 2-3 days a week
- c. Once a week
- d. Less than once a week

5. Can you estimate the number of miles you travel in a normal week? ***(Read Aloud)***

- e. 0-19 miles
- f. 20-49 miles
- g. 50-99 miles
- h. 100 miles or more

6. Does anyone else drive this vehicle on a regular basis?

- a. Yes
- b. No *(if No, skip to item 7)*

6a. How often?

- a. Almost everyday
- b. 2-3 days a week
- c. Once a week
- d. Less than once a week
