GK-12 Monitoring System Screenshots: Award

Graduate STEM Fellows in K-12 Education (GK-12)

The National Science Foundation (NSF) Graduate STEM Fellows in K-12 Education (GK-12 program) is a crosscutting education initiative managed by the Division of Graduate Education in the Directorate for Education and Human Resources. The program supports fellowships and associated training that will enable graduate students and advanced undergraduates in science, technology, engineering, and mathematics disciplines to serve as resources in K-12 schools.

Survey Privacy

The Federal Government has a continuing commitment to monitor its awards to identify and address any inequities based on gender, race, ethnicity, or disability of the principal investigators, co-principal investigators, graduate fellows, cooperating teachers or other participants.

Information from this data collection system will be retained by the NSF, a Federal agency, and will be an integral part of its Privacy Act System of Records in accordance with the Privacy Act of 1974 and maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998). All individually identifiable information supplied by individuals or institutions to a Federal agency may be used only for the purposes outlined in the system of records notice and may not be disclosed or used in identifiable form for any other purpose, unless otherwise compelled by law. These are confidential files accessible only to appropriate NSF officials, their staffs, and their contractors responsible for monitoring, assessing, and evaluating NSF programs. Only data in highly aggregated form, or data explicitly requested "for general use," will be made available to anyone outside of the NSF for research purposes. Data submitted will be used in accordance with criteria established by NSF for monitoring research and education grant and in response to Public Law 99-383 and 42 USC 1885c. The Social Security number (SSN) and date of birth will be maintained in accordance with the requirements of the Privacy Act of 1974. Submission of the SSN is voluntary. It is used for survey quality control, program evaluation, and matching with other data sets maintained in the Education and Training System of Records 63 Fed. Reg. 264, 272 (January 5, 1998).

Public Burden

Submission of the requested information is voluntary. Failure to provide full and complete information, however, may reduce the possibility for continuing support through the award/project subject to this survey. Each Principal Investigators' average reporting burden is 23 hours, each Fellow's average reporting burden is 1 hour, and each Cooperating Teacher's average reporting burden is 2 hours. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Suzanne Plimpton, Reports Clearance Officer for OMB Collection 3145-0136 GK-12 Program, National Science Foundation, 4201 Wilson Boulevard., Suite 295, Arlington, VA 22230 or to Desk Officer for National Science Foundation (OMB 3145-0136 GK-12 Program), Room 10102 New Executive Office Building, 725 17th Street NW, Washington, DC 20503.

Survey Tasks

▶ **PART 1: PREPARE PROFILES FOR SURVEY RELEASES** *Completed*

You must complete and verify all lists in Part 1 before releasing the survey to graduate fellows and cooperating teachers in Part 2. Please provide accurate information about institutions, schools, key project staff, graduate fellows, and cooperating teachers who participated in your GK-12 project during the current reporting period (6/01/2009 - 5/31/2010). For your convenience, participants have been preloaded from the lists your project may have submitted last year. Please delete any preloaded participants that were not active during the current reporting period.

PIs/Co-PIs and Project Coordinators (15)

List all PIs, co-PIs and project coordinator(s), if any, who participated on your project during the current reporting period. You will complete their profiles and add award evaluators and other key project staff in Part 3. If any of the key project staff who are not PIs, co-PIs or project coordinators must have access to this survey before you release the survey to your graduate fellows and lead/NSF-supported teachers, you may enter their profiles via Part 3 now.

Graduate Fellows (13)

List all graduate fellows who participated on your project during the current reporting period. You will release the survey to each graduate fellow in Part 2 and complete their profiles in Part 3.

Cooperating Teachers (16)

Beginning this year only lead and NSF-supported teachers (consult the Glossary for guidance) participate in the survey. List all cooperating teachers who participated on your project during the current reporting period regardless of whether they are lead and/or NSF-supported teachers. You will release the survey to each lead and/or NSF-supported teacher in Part 2 and complete their profiles in Part 3.

Partnerships and Collaborations (25)

List all academic and non-academic institutions with which you partnered or collaborated during the current reporting period. Include all home institutions for PIs, co-PIs, and graduate fellows, and include worksites for any graduate fellows who interacted with K-12 students from a setting not associated with a K-12 school (i.e. museums, science centers, laboratories, etc.).

K-12 Schools (7)

List all K-12 schools with which your project partnered or collaborated during the current reporting period. Also include all home institutions for your co-PIs who might be based at a school, if any.

▶ **PART 2: MANAGE FELLOW AND TEACHER SURVEYS** *In Progress. Due April 30* **Overdue**

▶ **PART 3: COMPLETE AWARD SURVEY** *In Progress. Due May 14*

Part 3: Complete Award Survey - Academic Achievements Related to GK-12 Activities and Themes

Provide information on any academic achievements resulting from your GK-12 program to which you (the PI) or any other personnel or fellows (co-PI, fellows, teachers) associated with your GK-12 program contributed during the June 1, 2009 - May 31, 2010 reporting period. In addition, you can add other general academic achievements.

Asterisks indicate required fields; you must complete them in order to submit your data. We will follow up with all award sites that have missing information. Be sure to include only new achievements and products not previously reported in earlier reporting cycles.

Use any standard citation format such as APA with the following adjustment:

Use an asterisk (*) to denote authors who participated in your GK-12 project at any time.

Examples:

Part 3: Complete Award Survey - Describe Development Activities ▢

Enter information about the development activities associated with the GK-12 project during the current reporting period (June 1, 2009 - May 31, 2010). For help with unfamiliar terms, consult the [glossary](#).

Identify those professional development activities associated with your GK-12 project during the reporting period (June 1, 2009 - May 31, 2010). The first part looks at participation of the majority of GK-12 **fellows**; the second part looks at participation by **teachers** associated with the GK-12 award. Because some of these activities were ongoing, throughout the entire reporting period, while others were limited to summer institutes, we ask that you indicate when these professional development activities occurred by checking "Summer," or "Yearlong," or both, if applicable.

Survey Tasks > Part 3: Complete Award Survey > Report Program Impact

Part 3: Complete Award Survey - Report Program Impact

A feature of GK-12 is to have a program strategy and plan for recruiting, mentoring, retaining, and graduating graduate students, including efforts aimed at **members of groups underrepresented** in science and engineering. With these goals in mind, please respond to the following questions for this reporting period. Asterisks indicate required fields; these fields must be completed in order to submit your data. For help with unfamiliar terms, consult the [glossary](#).

Overall Plan

*Do you have an overall plan in place and active with a specific set of goals and timelines for recruitment and retention of GK-12 fellows including specifics for broadening participation of groups underrepresented in science and engineering?

Yes No

Best Practices

Regardless of your response to the previous question, please describe up to three of the best practices you employed to recruit qualified fellows to your GK-12 program during this reporting period.

*Best Practice 1:
(Please limit responses to no more than 150 words.)

Recruiting Fellows

Please describe the extent to which each of the following practices has been productive for recruiting fellows overall to your GK-12 program during this reporting period.

*Relationships with NSF programs that can provide an undergraduate pool of potential GK-12 fellows (e.g., REU's NSF Centers)

*Relationships with faculty and programs at other academic institutions

*Use of recruiting resources on the GK-12 campus (e.g., career service office, graduate studies office)

*Collaboration with other NSF funded programs to improve recruitment

*Use of professional meetings, conferences, associations to communicate, research, and market to potential GK-12 Fellows

Other (please specify):

Recruiting Underrepresented Minority and Women Fellows

Please describe the extent to which each of the following practices has been productive for recruiting underrepresented minority and women fellows overall to your GK-12 program during this reporting period.

Part 3: Complete Award Survey - Verify Fellows' Interactions with K-12 Students

Please review the class data entered by your fellows and teachers to ensure that each class is entered only once and that the number of students in each class during the current reporting period is accurately reported.

- **In-classroom GK-12 activities** are part or whole of a fellow's regular assignment that occur inside the classrooms and during normal school hours.
- **Out-of-classroom GK-12 activities** are part or whole of a fellow's regular assignments that occur outside the classrooms and normal school hours, such as field trips, after school science clubs, regular GK-12 assignments in informal educational settings like a science center or museum, working in science fairs, regular community outreach, etc.
- **Out-of-school GK-12 activities** are not part of a fellow's regular assignment and only occur occasionally.

Verify the in-classroom locations.
