

Ms. Michelle Stephens
Nebraska Department of Education
301 Centennial Mall South
Lincoln, Nebraska 68509-4987

Dear Ms. Stephens:

The enclosed DVD provides you with the necessary information and instructions for responding to the 2009-2010 School District Review Program conducted by the U.S. Census Bureau. The review program is of vital importance for your state's allocation under Title I of the Elementary and Secondary Education Act as amended by the No Child Left Behind Act of 2001, Public Law (P.L.) 107-110. The *Readme.txt* on the data DVD contains a complete list of materials that your state will receive.

The DVD contains a full set of school district and other geographic entity boundary shapefiles for your state and the MAF/TIGER Partnership Software (MTPS). The MTPS is software developed by the Census Bureau that allows you to review and update school district boundaries. Additional Geographic Information System (GIS) software is not required to use the MTPS. The MTPS application includes Computer Based Training tutorials that we strongly encourage you to review before attempting any updates within the MTPS. We request that you use the MTPS application to:

1. Review the Census Bureau's representation of your school district boundaries against your current boundaries.
2. Make updates to your school district boundaries.

The DVD also contains data files that list information about the 2007-2008 school districts that we currently have in our files. For selected states, there is also a list of school districts that are coextensive with other legal areas such as counties, cities, towns, and townships. If these data files are included on your DVD, we request that you review the information contained in them and provide us with any updates and corrections to:

- School district names.
- Federal Local Education Agency codes.

- Grade ranges for allocating children if two school districts occupy the same area.
- Counties in which school districts are located.
- Relationships where school districts are coextensive with other legal areas such as counties, cities, towns, and townships.

2

The Census Bureau will place the data files and instructions on the Census Bureau Web site where they can be viewed and downloaded by state and local education officials. The URL for the School District page is: http://www.census.gov/geo/www/schdist/sch_dist.html.

We request that the school district information you submit reflect the 2009-2010 school districts as they exist or will exist on January 1, 2010. We are prepared to accept your updates as soon as possible and request that you submit your school district changes by **October 30, 2009**.

If you have any questions or comments, please contact Colleen Joyce, Ian Millett, Pat Ream, or Lyndsey Abel of my staff. They can be reached by telephone at 301-763-1099 or by e-mail at geo.school.list@geo.census.gov.

We look forward to working with you to ensure the successful completion of the 2009-2010 School District Review Program and thank you in advance for your participation.

Sincerely,

Timothy F. Trainor
Chief, Geography Division

The enclosed DVD provides you with the necessary information and instructions for responding to the 2009-2010 School District Review Program conducted by the U.S. Census Bureau. The review program is of vital importance for your state's allocation under Title I of the Elementary and Secondary Education Act as amended by the No Child Left Behind Act of 2001, Public Law (P.L.) 107-110. The *Readme.txt* on the data DVD contains a complete list of materials that your state will receive.

The DVD contains a full set of school district and other geographic entity boundary shapefiles for your state and the MAF/TIGER Partnership Software (MTPS). The MTPS is software developed by the Census Bureau that allows you to review and update school district boundaries. Additional Geographic Information System (GIS) software is not required to use the MTPS. The MTPS application includes Computer Based Training tutorials that we strongly encourage you to review before attempting any updates within the MTPS. We request that you use the MTPS application to:

21. Review the Census Bureau's representation of your school district boundaries against your current boundaries.
22. Make updates to your school district boundaries.

The DVD also contains data files that list information about the 2007-2008 school districts that we currently have in our files. For selected states, there is also a list of school districts that are coextensive with other legal areas such as counties, cities, towns, and townships. If these data files are included on your DVD, we request that you review the information contained in them and provide us with any updates and corrections to:

- School district names.

- Federal Local Education Agency codes.
- Grade ranges for allocating children if two school districts occupy the same area.
- Counties in which school districts are located.
- Relationships where school districts are coextensive with other legal areas such as counties, cities, towns, and townships.

The Census Bureau will place the data files and instructions on the Census Bureau Web site where they can be viewed and downloaded by state and local education officials. The URL for the School District page is: http://www.census.gov/geo/www/schdist/sch_dist.html.

We request that the school district information you submit reflect the 2009-2010 school districts as they exist or will exist on January 1, 2010. We are prepared to accept your updates as soon as possible and request that you submit your school district changes by **October 30, 2009**.

If you have any questions or comments, please contact Colleen Joyce, Ian Millett, Pat Ream, or Lyndsey Abel of my staff. They can be reached by telephone at 301-763-1099 or by e-mail at geo.school.list@geo.census.gov.

We look forward to working with you to ensure the successful completion of the 2009-2010 School District Review Program and thank you in advance for your participation.

Sincerely,

Timothy F. Trainor
Chief, Geography Division
