**FEDERAL COST:** The estimated one-time cost to the Federal government is \$6,244.00

(1) 2 support consultants 10 hours each to call volunteer respondents and 20 hours to translate the results into recommendations for functional and technical requirements (40 x \$143.00 = \$5,720.00) (\$143.00 is a blended rate for support consultants).

(2) 1 GS-14 project manager 8 hours to direct and assist with the results analysis and to respond to any specific customer inquiries about the purpose of the outreach, if necessary (8 x \$65.53 = \$524.00).

\$65.53 per hour: The hourly rate for a GS-14 step 1 is currently \$50.41 according to the U.S. Office of Personnel Management wage chart including locality pay for the Washington, D.C. area. When 30% is added to account for a fully loaded hourly rate (benefits and overhead), the rate per hour for a GS-14, step 1 is \$65.53 (\$50.41 + \$15.12 = \$65.53)

**If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:**

**The selection of your targeted respondents**

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?  
 Yes  No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

USPTO will send an e-mail to the current Patent eAlert and Trademark eAlert list serves and also to Financial Profile users to seek volunteers interested in providing feedback regarding the fee processing next generation effort. Participation is strictly voluntary, though we are asking those interested to categorize their customer role to help ensure that we get a representative cross

sample of USPTO customers to take advantage of the full spectrum of customer experiences and requirements. We are not conducting a scientific survey, so a sampling plan is not required. We will call volunteers based on their self-classification to cover a cross-section of respondents. Phone interview facilitators will follow the provided script and participants will have the option to end the conversation at any point.
