Global Standards Information (<http://gsi.nist.gov>):

A website and RSS feed of global standards news, events, resources, and reports.

NCSCI/Standards Information Center & World Trade Organization Technical Barriers to Trade Inquiry Point and Notification Authority:

The U.S. source for standards and related information. The Center provides information on U.S. and international voluntary standards, mandatory government regulations, and conformity assessment procedures for nonagricultural products.

Notify U.S. Database:

A free database that offers U.S. entities an opportunity to review proposed foreign technical barriers to trade that can affect business and access to international markets.

Standards.gov:

A gateway to information about federal agency use of standards for regulatory purposes.

Standards Incorporated by Reference (SIBR) Database:

A database of voluntary consensus standards, government unique standards, private industry standards, and international standards referenced in the Code of Federal Regulations (CFR).

Standards in Trade Program:

A program designed to introduce U.S. stakeholders to emerging standards and conformity assessment issues in other countries; identify regulatory information and market access issues; and provide timely information to foreign officials on U.S. practices in standards, metrology, and conformity assessment.

4. What type of standards and conformity assessment information do you regularly need or seek? (Select all that apply.)

Federal Laboratory Accreditation/Certification Information

Educational & Training Resources

Mutual Recognition Agreements (MRAs)

Voluntary Standards News, Information and Documents

Database Tools

Standards as Technical Barriers to Trade

Federal Standards and Conformity Assessment Policy

Mandatory Regulatory Requirements

Other (please specify)

Phone Number:

9. Please add any comments you would like to share.

This collection of information contains Paperwork Reduction Act (PRA) requirements approved by the Office of Management and Budget (OMB). Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA unless that collection of information displays a currently valid OMB control number. Public reporting burden for this collection is estimated to be 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the National Institute of Standards and Technology, Attn: Clare Allocca (clare.allocca@nist.gov).
