IF R IS ELIGIBLE:

You are eligible to participate in our interview. Let me tell you a little about the study. The purpose of the study is to get feedback on how easy or difficult different questions about alcohol use, drug use, and health care coverage are to answer. These questions will be presented on a laptop computer. We are doing this research to improve the questions about use of prescription drugs in a large national survey, called the National Survey on Drug Use and Health, which is given to about 70,000 people every year. The survey is conducted by RTI International, and is funded by the Substance Abuse and Mental Health Services Administration or SAMHSA. We will interview about 20 adults and 20 adolescents, and the interview will take about 90 minutes. We are trying to schedule interviews to start in September. If you take part in the interviews, you will receive a \$40 Visa gift card for completing the interviews.

Taking part in the study is voluntary.

[IF CALLER IS RESPONDING TO RECRUITMENT FROM OUTSIDE OF A TREATMENT PROGRAM, READ:] It will be conducted at our office in (Research Triangle Park/Chicago/DC).

What you say during the interview will remain private and confidential. As such, we will not share information you give us with anyone other than project staff.

Are you available to participate in this study?

- 1 YES [GET AVAILABILITY DATES/TIMES AND SCHEDULE A CALLBACK TO CONFIRM.]
- 2 NO

[IF NO] If you'd like to tell us, we'd be interested in knowing why you decided that you don't want to take part in this study. [USE AVAILABLE SPACE FOR RESPONSES. THEN THANK THE R FOR HIS/HER TIME.]
