Dear Employer,

As the American economy adapts to a changing marketplace and a wider selection of energy alternatives, measuring the number and types of new jobs created is of critical importance. We are collecting information to help us measure the number of jobs associated with the use of green technologies and practices.

Thank you for participating in our survey.

Thank you for reporting your information to the Green Technologies and Practices Survey. In order to measure the green economy, it is important that we collect accurate information on the use of green technologies and practices from establishments as well as employment information on employees using green technologies and practices. You reported that during the pay period you had employees at your establishment involved in:

- Reducing or eliminating the creation of waste materials during business operations
- Conserving natural resources used during business operations
- Generating energy from renewable sources for use within the establishment
- Improving your establishment's own energy efficiency
- Reducing greenhouse gas emissions resulting from business operations
- Reducing or eliminating the creation or release of pollutants or toxic compounds resulting from operations

How many employees spent more than half of their time involved in the green technologies and practices listed above?

- Please count employees only once if they are included in more than one activity above.
- Please do not include contractors or consultants working at your establishment that are not on your payroll.
- If no employees spent more than half their time using green technologies or practices, please enter 0 (zero).
