#### **SUPPLEMENTARY INFORMATION:**

*Title:* Coastal Impact Assistance Program.

*OMB Control Number:* 1010-0170.

*Abstract:* With the passage of the Energy Policy Act of 2005 (EPAct), the Bureau of Ocean Energy Management, Regulation and Enforcement (BOEMRE) was given responsibility for the Coastal Impact Assistance Program (CIAP) through the amendment of Section 31 of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a Appendix A). The following requirements from this amendment necessitate the collection of information.

"(d) AUTHORIZED USES.—

(1) IN GENERAL.—A producing State or coastal political subdivision shall use all amounts received under this section, including any amount deposited in a trust fund that is administered by the State or coastal political subdivision and dedicated to uses consistent with this section, in accordance with all applicable Federal and State law, only for 1 or more of the following purposes:

(A) Projects and activities for the conservation, protection, or restoration of coastal areas, including wetland.

(B) Mitigation of damage to fish, wildlife, or natural resources.

(C) Planning assistance and the administrative costs of complying with this section.

(D) Implementation of a federally-approved marine, coastal, or comprehensive conservation management plan.

(E) Mitigation of the impact of outer Continental Shelf activities through funding of onshore infrastructure projects and public service needs.

(2) COMPLIANCE WITH AUTHORIZED USES.—If the Secretary determines that any expenditure made by a producing State or coastal political subdivision is not consistent with this subsection, the Secretary shall not disburse any additional amount under this section to the producing State or the coastal political subdivision until such time as all amounts obligated for unauthorized uses have been repaid or reobligated for authorized uses.

(3) LIMITATION.—Not more than 23 percent of amounts received by a producing State or coastal political subdivision for any 1 fiscal year shall be used for the purposes described \* \* \*

Information needs to be submitted by the government jurisdictions to meet all the requirements of the CIAP State Plan Guidelines as well as requirements on the procurement contracts. Responses are mostly required to obtain or retain a benefit. No questions of a "sensitive" nature are asked. BOEMRE protects information considered proprietary according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2).

According to the EPAct, in order to receive funds, the states must submit CIAP State Plans that contain required components including an implementation plan of the state's program and identification of the proposed use of CIAP funds. The identification will be provided in the Plan as brief descriptions of the proposed projects. Upon approval of a Plan, recipients will be able to submit grant applications for a project. Applicants submit proposals for funding in response to a Notice of Funding Availability that we publish on [Grants.gov](http://Grants.gov) and on our program web pages. Proposals are submitted through [Grants.gov](http://Grants.gov). An application consists of OMB required forms for grants; a detailed project description or narrative to demonstrate that the project has maintained the integrity of the brief description in the Plan and still meets EPAct criteria; and documentation such as Federal, State, or local government required permits with which the recipient is stating it has met Federal, State, or local laws.

Once an application for a project is approved, BOEMRE is required to monitor the projects to determine that the CIAP funds are being used for appropriate expenses. The monitoring will be achieved through the grant regulations that require, at a minimum, a recipient to provide an annual progress and financial status reports. Recipients are evaluated by contracting officers via [Grants.gov](http://Grants.gov) application efforts. The recipients that are determined by the evaluations to likely have difficulties in implementing and managing the CIAP funded projects will be required to submit semi-annual reports. Once the recipient has demonstrated the ability to implement and manage their projects, the requirement can be returned to annual reports.

BOEMRE needs the information required so that technical experts can determine how well it addresses the requirements identified in the authorizing EPAct legislation and monitor the projects to meet specific requirements.
