Routine Customer Feedback” (OMB Control Number: 3045-0137)**

TITLE OF INFORMATION COLLECTION:

AmeriCorps Member Exit Survey Response Bias Study

PURPOSE:

To identify whether there is non-response bias in the AmeriCorps Member Exit Survey. The Exit Survey is administered on a rolling basis to all AmeriCorps members as they exit the program. The current response rate is around 45%, which presents the risk that respondents are systematically different than non-respondents and therefore the results may be biased. The study will identify whether there is such a systematic difference.

DESCRIPTION OF RESPONDENTS:

Former AmeriCorps members who completed their term between 10/1/2012 and 9/30/2013.

I certify the following to be true:

1. The collection is voluntary.
2. The collection is low-burden for respondents and low-cost for the Federal Government.
3. The collection is non-controversial and does not raise issues of concern to other federal agencies.
4. The results are not intended to be disseminated to the public.
5. Information gathered will not be used for the purpose of substantially informing influential policy decisions.
6. The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the future.

Name: Robin Ghertner

To assist review, please provide answers to the following question:

Personally Identifiable Information:

1. Is personally identifiable information (PII) collected? Yes No
2. If Yes, will any information that is collected be included in records that are subject to the Privacy Act of 1974? Yes No
3. If Yes, has an up-to-date System of Records Notice (SORN) been published? Yes No

Gifts or Payments:

Is an incentive (e.g., money or reimbursement of expenses, token of appreciation) provided to participants? Yes No

Our survey plan will first send an email invitation to the survey respondents. For those that do not respond, we will follow-up with a mail survey. The mail survey will include a \$5 pre-incentive. This incentive is necessary because we are surveying a population that has already proved non-responsive to our surveys; the incentive will hopefully motivate them to take this survey. We are offering a pre-incentive because research shows that pre-incentives of a lower amount than post-incentives can be more effective in situations like this.

BURDEN HOURS

Category of Respondent	No. of Respondents	Participation Time	Burden

FEDERAL COST: The estimated annual cost to the Federal government is \$70,000 (one time cost for contractor expenses)

If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

The sampling frame is all AmeriCorps members who exited from 10/1/2012 through 9/30/2013. There are three AmeriCorps programs: AmeriCorps State & National, National Civilian Conservation Corps, and VISTA. We will select a random sample of all individuals in the sampling frame, stratified by program to ensure we have adequate power for our analysis within each of the 3 programs.

Administration of the Instrument
