

**Justification of Revision**

CNCS Universal Application  
March 31, 2011

Two changes have been made in this Information Collection Request as a result of the new five-year strategic plans, and the need for better data to track volunteer generation for the Volunteer Generation Fund authorized by the Serve America Act.

An item which distinguishes new from existing volunteers has been added to the Demographic Information. A narrative field focusing on the activities of the volunteers has been added to the narratives.

The ICR is identical to the approved collection except for these two minor change. The burden remains the same.
