## Pediatric Quality of Life Inventory

Version 4.0

### YOUNG CHILD REPORT (ages 5-7)

Instructions for interviewer:

***I am going to ask you some questions about things that might be a problem for some children. I want to know how much of a problem any of these things might be for you.***

Show the child the template and point to the responses as you read.

***If it is not at all a problem for you, point to the smiling face***

***If it is sometimes a problem for you, point to the middle face***

***If it is a problem for you a lot, point to the frowning face***

***I will read each question. Point to the pictures to show me how much of a problem it is for you. Let's try a practice one first.***

	Not at all	Sometimes	A lot
<b>Is it hard for you to snap your fingers</b>			

Ask the child to demonstrate snapping his or her fingers to determine whether or not the question was answered correctly. Repeat the question if the child demonstrates a response that is different from his or her action.

**Think about how you have been doing for the last few weeks. Please listen carefully to each sentence and tell me how much of a problem this is for you.**

After reading the item, gesture to the template. If the child hesitates or does not seem to understand how to answer, read the response options while pointing at the faces.

<b>PHYSICAL FUNCTIONING (problems with...)</b>	<b>Not at all</b>	<b>Sometimes</b>	<b>A lot</b>
1. Is it hard for you to walk	0	2	4
2. Is it hard for you to run	0	2	4
