

REQUEST FOR DETERMINATION OF RESEARCH STATUS

To be completed by the staff member with lead responsibility for the project and approved by branch chief (if applicable) and Division ADS. A separate PGO funding memo is required if project is research and involves human subjects regardless of the CDC staff role.

Instructions:	 (1) Use this form to declare: (a) the research status of any project, (b) role or roles of CDC staff (2) A short summary should be attached offering specific details about the project and the role of staff. (3) Be sure to complete all applicable items, obtain appropriate signatures and submit this form for approval.

- Please prepare and attach a short summary paragraph (<1 page);
 - Be sure to include the purpose of the project, specific details about the project and the role of the CDC staff member(s) in the project. In explaining one's role as a consultant be particularly careful to identify involvement in things like: study design decisions, oversight of protocol development, participation in review of data collection procedures, and participation in data analysis and/or manuscript preparation, as well as whether there will be access to identifiable or personal data.
 - Explain your project status selection (research--non-exempt, exempt, no CDC investigator or not involving human subjects; public health practice). If you selected research not involving human subjects be sure to indicate if the data includes any personal information (e.g., name, SSN), linkable study identification numbers or codes, or geographical information.

The purpose of this project is to assess programmatic activities among local, state, territorial, and tribal education agencies (LEA, SEA, TEA, and TG) funded by the Centers for Disease Control and Prevention (CDC), Division of Adolescent and School Health (DASH) through funding announcement DP08-801. The Indicators for School Health Programs (Indicators) are a set of four questionnaires that are used to provide basic process evaluation data on HIV prevention activities, coordinated school health program for physical activitiy, nutrition, and tobacco-use prevention (CSHP/PANT) activities, and asthma management activities conducted under FOA DP08-801. The CDC staff members involved in the project will provide assistance in the analysis and reporting of the data.

The Indicators provide basic program evaluation data on the activities of DASH-funded partners as part of routine public health practice. The data (basic process evaluation data) describe activities such as the types of materials distributed, the number of professional development events held, and the topics of technical assistance provided. All data collected are representative of education agency activities. No information is collected about individuals; no personal data are collected.

8. Please list the primary project site and all collaborating site(s).

Explanation of project components:

If project involves research that is funded extramurally, list amount of award that should be restricted pending IRB approval and describe which project components will be affected, if known:
