Reminder Email Invitation to Residents

STUDY OF SUBSTANCE ABUSE DOC.COM MODULE PROJECT

March 2011

Attachment B4-b: Reminder Email Invitation to Residents

Dear Residents:

I hope this email finds you well. I wanted to follow up on an initial email that I sent last week.

I am the Principal Investigator of a National Institute on Drug Abuse (NIDA) sponsored research study of residents to assess how well an interactive online teaching module can enhance the *knowledge* of healthcare professionals about substance use disorders, their *attitudes* towards patients with substance use disorders, and their skills and degree of confidence in *communicating* about substance use with their patients.

I would like to speak with you during one of your regularly scheduled meetings to explain the study to you and invite you to participate. Participants in the study will receive modest gift cards as incentives.

Your participation in this research study is voluntary. There is no penalty if you choose not to join the research study.

Please contact me via email if you would like to participate or if you have any questions.

I look forward talking to you!

(Investigator)
