Foreign Tank Vessels Carrying Oil in Bulk

The change in burden hours is an ADJUSTMENT. There is no proposed change to the reporting and recordkeeping requirements of this collection. The reporting and recordkeeping requirements and the methodology for calculation burden remain unchanged.

The following listed below are revisions to the collection:

- Increase in burden (respondents/responses/burden hours) is due to an increase in the tank vessel population (increase in respondents (+77), responses (+165), burden hours (+104)).
- USCG has created printable instructions for this collection of information.
