## eLANDINGS AND LOGBOOKS

All catcher/processors and motherships that are issued an FFP under 50 CFR part 679.4(b) must use a combination of daily cumulative production logbook (DCPL) and eLandings or other NMFS-approved software to daily record and report groundfish.

For more information on eLandings, <http://alaskafisheries.noaa.gov/elandings/faq.htm#ecr>.

All catcher vessels that are issued a FFP under 50 CFR part 679.4(b) must use a daily fishing logbook (DFL) to daily record and report groundfish. Two types of catcher vessel DFL are available: one if using trawl gear and one is using longline or pot gear.

You may request that a logbook be sent to you separately from the permit. The logbook will be sent by regular, first class mail, unless you indicate another method.

Order a logbook through NMFS Alaska Region website at <https://alaskafisheries.noaa.gov>, by telephone at 907-586-7228, or by fax at 907-586-7465.

	Dimensions (inches)	Weight (lb,oz)

1. Area of operation  
Check one or both areas of operation (GOA or BSAI) to indicate the areas of operation for which you are requesting.
2. Vessel Operation Categories  
A vessel permitted as a catcher vessel, catcher/processor, mothership, and/or tender vessel may conduct all operations authorized for a support vessel. A vessel permitted as a support vessel may not conduct activities as a catcher vessel, catcher-processor, mothership, and/or tender vessel.

Indicate one or a combination of the vessel operation categories in the groundfish fisheries for which you are requesting.

Catcher Vessel - A vessel that is used for catching fish and that does not process fish on board.

Catcher/Processor - A vessel that is used for catching fish and processing that fish.

Mothership - A vessel that receives and processes groundfish from other vessels.

Tender Vessel (buying station) - A vessel that is used to transport unprocessed fish received from another vessel to a shoreside processor, stationary floating processor, or mothership.

If the permit request is for a catcher vessel or catcher/processor, indicate the gear type(s) used for groundfish operations.
4. GOA Inshore Processing Endorsement  
An operator of a catcher/processor under 125' LOA that wishes to process GOA inshore pollock or GOA inshore Pacific cod must apply for a GOA inshore processing endorsement by checking No. 4 of Block C on the application.

A catcher/processor with a GOA inshore processing endorsement is prohibited from processing more than 126 mt of GOA pollock and GOA Pacific cod, in the aggregate, during any reporting week.

Once issued, a GOA inshore processing endorsement cannot be rescinded for the duration of a fishing year. It may be changed for the next fishing year by submitting an application for a permit amendment prior to the beginning of that fishing year.

If you plan to participate in the directed fisheries for Pacific cod, pollock, and/or Atka mackerel with any gear other than jig gear, your FFP must be endorsed for these species in the management area(s) in which you plan to participate.

Vessels participating in these directed fisheries in the EEZ off Alaska are required to have onboard and use a Vessel Monitoring System (VMS) while the directed fisheries are open, regardless of where the vessel is fishing at the time (including Alaska State waters) or what the vessel is targeting.
