Proposed Project: Evaluation of SAMHSA Primary Care Behavioral Health Integration Grant Program. Emergency Information Collection Clearance Request—OMB No. 0990-NEW-Assistant Secretary for Planning and Evaluation .

Abstract: The Assistant Secretary for Planning and Evaluation (ASPE) and the Substance Abuse and Mental Health Administration are funding an independent evaluation of the Substance Abuse and Mental Health Administration/Center for Mental Health Services' (SAMHSA/CMHS) Primary Care Behavioral Health Integration (PBHCI) grant program. Four-year PBHCI grants were awarded to thirteen grantees on October 1, 2009. A second group of nine grants and a third group of up to 38 additional grants will be awarded prior to October 1, 2010. The purpose of the PBHCI grants is to improve the overall wellness and

physical health status of people with serious mental illnesses (SMI), including individuals with co-occurring substance use disorders, by supporting communities to coordinate and integrate primary care services into publicly funded community mental health and other community-based behavioral health settings. The information collected through the evaluation will assist SAMHSA in assessing whether integrated primary care services produce improvements in the physical and mental health of the SMI population receiving services from community-based behavioral health agencies.

Background and Brief Description

CDC is requesting OMB approval to continue its data collection, "Requirements for a Special Permit to Import *Cynomolgus*, African Green, or Rhesus Monkeys into the United States", for another three years. This data collection is currently approved under OMB Control No. 0920-0263. There are no revisions proposed to the currently approved information collection request.

A registered importer must request a special permit to import *Cynomolgus*, African Green, or Rhesus monkeys. To receive a special permit to import nonhuman primates, the importer must submit a written plan to the Director of CDC which specifies steps that will be taken to prevent exposure of persons and animals during the entire importation and quarantine process for the arriving nonhuman primates.

Under the special permit arrangement, registered importers must submit a plan to CDC for importation and quarantine if they wish to import the specific monkeys covered. The plan must address disease prevention procedures to be carried out in every step of the chain of custody of such
