Special Instructions

THIS QUESTIONNAIRE WILL BE ADMINISTERED USING WEB-BASED INTERVIEW TECHNOLOGY. AS THE RESPONDENT TYPES RESPONSES TO THE QUESTIONS INTO THE COMPUTER, THE INTERVIEW PROGRAM WILL 1) DISPLAY THE CORRECT TENSE OF VERBS, 2) PROVIDE ALTERNATE ANSWERS TO QUESTIONS (E.G., NOT APPLICABLE, “I DON’T KNOW”), 3) NAVIGATE COMPLEX SKIP PATTERNS, AND 4) PERFORM OTHER USEFUL FUNCTIONS. THE PROGRAMMING SPECIFICATIONS FOR THE INTERVIEW ARE NOT INCLUDED IN THIS PRINTED VERSION OF THE QUESTIONNAIRE.

1. This questionnaire focuses on your district’s policies and practices regarding school policy and environment.
2. For the purposes of this questionnaire, “policy” means any law, rule, regulation, administrative order, or similar kind of mandate issued by the local school board or other local agency with authority over schools in your district. SHPPS is most interested in what is required by the district, not what is recommended or contained in non-binding guidance documents, unless the question specifically asks about recommendations.
3. If a district policy is worded in such a way that it requires schools to develop and adopt their own policies on a given topic, for the purpose of this questionnaire please consider it the same as a district-wide requirement.
4. District may sometimes grant policy exceptions or waivers, but please answer each question based on what is considered the general policy and standard practice in your district.
5. Please do not consider school practices or policies when answering the questions. This information is gathered during data collection from schools across the country.
6. For the purposes of this questionnaire, “elementary school” refers to a school that contains any of grades K–5. “Middle school” refers to a school that contains any of grades 6–8. Some jurisdictions may refer to these schools as “junior high schools.” “High school” refers to a school that contains any of grades 10–12. Some jurisdictions may refer to these schools as “senior high schools.”

The next questions ask about green building design. Green building design is a way of designing a building so that it minimizes impact on the environment. For example, the design of such a building conserves resources such as energy and water, protects the existing landscape, and provides healthy indoor air.

95. Has your district adopted a policy to include green design when building new school buildings or renovating existing buildings?

Yes.....	1
No.....	2

→SKIP TO THE INTRODUCTION TO Q97

96. Buildings constructed or renovated under a green building policy may be inspected by an independent or third party, and rated, certified, or labeled as meeting certain green building conditions. Examples of third party rating or labeling systems include Collaborative for High Performance Schools (CHPS), LEED for Schools from the U.S. Green Building Council, and Green Globes. Does your district’s policy on green building design require the use of a third party green building certification, labeling, or rating system?
