GENERAL INSTRUCTIONS
See card in pocket for instructions on how to complete Patient Record.

REPORTING DATES: Your reporting dates are: Monday, _____ through Sunday, _____

PATIENT SIGN-IN SHEET
Record the name of every patient seen during the Reporting Period on a Sign-In Sheet maintained by your clinic. Record each patient in the order registered by the receptionist or seen by the provider. If two or more patients are seen during a single provider visit, the patients should be listed in the sequence registered or the sequence seen. It is important to record every patient visit including those not seen by the provider but attended to by the staff. Patients who visit the provider more than once during the Reporting Period should be recorded on the Sign-In Sheet at each visit.

PATIENT RECORD
Follow the Sampling Pattern below to determine for which visit(s) a Patient Record should be completed.
START WITH _____ **TAKE EVERY** _____

The START WITH designates the FIRST PATIENT for whom a Patient Record should be completed. The TAKE EVERY designates every patient thereafter for whom a Patient Record should be completed. For example, for a Start With of 2 and Take Every of 3, a Patient Record will be completed for the second patient listed on the clinic Sign-In Sheet and every third patient listed thereafter (e.g., 2, 5, 8, etc.). It is essential that the Take Every Number is extended each day from one Sign-In Sheet to another. For example, if your clinic uses a new Sign-In Sheet each day, then the Take Every Number has to be extended from the last patient visit selected on Monday to the new list on Tuesday. If a single Sign-In Sheet is used during the entire Reporting Period, then the Take Every Number needs to be extended as new patient names are added to the list.

Please refer to the NHAMCS-123 Instruction Book for more detailed information on the sampling pattern.

DEFINITIONS
For purposes of this study:
1. An *ambulatory patient* is an individual presenting for personal health services, not currently admitted to any health care institution on the premises. **Include** patients the physician sees; and patients the physician does not see but who receive care from a physician assistant, nurse, nurse practitioner, etc. **Exclude** persons who visit only for administrative reasons, such as to complete an insurance form; patients who do not seek care or services (e.g., pick up a prescription or leave a specimen); persons currently admitted as inpatients to the hospital (**nursing home patients should be included**); and telephone/e-mail contacts with patients.
2. A *visit* is a direct, personal exchange between an ambulatory patient and a physician or hospital staff member under a physician's supervision for the purpose of seeking care and rendering personal health services.

DISPOSITION OF MATERIALS
As each Patient Record is completed, place it in the pocket of the folio. At the end of each day, review all forms to be sure they are properly completed, verify that the total number of completed Patient Records equals the number appearing on the last completed Patient Record. At the end of the Reporting Period, detach patient's name, return all Patient Records and all unused materials to the field representative as arranged. **DO NOT RETURN THE DETACHED PAGES OF THE PATIENT RECORD THAT CONTAIN THE PATIENT'S NAME.**
