Words-In-Noise (WIN)

Name of test: Words-In-Noise (WIN)

Estimated time burden: 5 minutes

Number of items: 70 (Up to 35 for each ear)

Instructions to subjects:

You will hear a woman asking you to repeat various words. Repeat the words she asks you to say out loud so that I can hear you. For example, if you hear her say 'Say the word dog,' you would say 'dog.' If you are not sure what she said, just say what you think you heard. You will also hear people talking in the background. Do your best to ignore them and to focus on the woman's voice asking you to repeat the words. Do you have any questions? Let's begin.

Copies of questions/items: See recording forms (below)

Representative screen shots: None
