form of the test (i.e.,	
subject burden during	
norming)	
3. Number of items	4 plus 1 practice item
expected to be in the <u>fin</u>	
<u>form</u> of the test	"Daint your finger like this ?
4. Instructions to subjects	"Point your finger like this."
	"I am going to move my finger from point A to B, like this."
	"Now let's move your finger from point A to point B and then back to point A. I am going to help you."
	"Now, take your finger back to B by yourself."
	If the participant completes the task correctly, say: " That's right. " If the participant does not complete task correctly, repeat the instructions above.
	"Now, we are going to do this again so you can feel it without looking this time. Here is point A; now we are going to point B. Now I am moving you back to point A. Find point B."
	"We are using this box to block your vision. I will move your finger from location A to B and then back to A. Then, I want you to move it back to B by yourself. Ready?"
	For the next three trials:
	"Again, I will move your finger from location A to B and then back to A. Then, I want you to move it back to B by yourself. Ready?"
	Now let's use your other hand to do the pointing.
	(then same instructions as for the other hand)
