APPENDIX A: GUIDE - OVERVIEW SECTION

The *Overview* Section describes the general characteristics of the SACWIS system, including its objectives, applications, and architecture. It provides general identifying information that will help other States and ACF understand the overall size, cost, and programmatic functionality of the system. See Chapter 3 of the SACWIS Assessment Review Guide for instructions on how to complete this section of the Guide.

	T . T	
4.	What i	is the process for expunging information on unsubstantiated allegations?
5.	Can th	le alleged victim and/or perpetrator request that the State seal or purge unsubstantiated
J.	inform	

A. VI: Lessons Learned

Describe any lessons learned from the project that might be helpful to other States. For example, consider what advice the State might offer with regard to conversion, training, implementation, field involvement, cultural change, change management, pilot, application support, enhancements, policy and procedures, development approach, contractor support, and advantages or disadvantages of the State's selected approach.

A. VII: Enclosures

The following information should be provided, and cross-referenced to the State's responses in the Process Section of this Guide. (See Appendix B),. If the requested information or documentation is not currently available, the State project staff should discuss this with the Federal Review Team Leader. Alternative documents that provide similar information may be provided.

- System diagrams of both the technical architecture and elementary processes performed by the system
- An Organizational Chart
- Current user manual
- Training manual and materials
- Data element dictionary
- Numbered list of system screen prints
- Numbered list of system alerts/ticklers, with a brief description of the alerts/ticklers
- Numbered list of system notices, with a brief description of the notices
- Numbered list of reports, including management and financial
- Planned schedule for submitting NCANDS Detailed Case Data Component (DCDC) data, if the State's Child Abuse & Neglect system is included within the SACWIS
- Copies of SACWIS reports used to complete the Form CB-496, the *Title IV-E Programs Quarterly Financial Report* (formerly IV-E 1);
- Other cross-reference material the State may wish to provide.

APPENDIX B: GUIDE - PROCESS SECTION

The *Process* Section describes the SACWIS system's conformance with program requirements derived from statute and regulation. The questions in this section are derived from the SACWIS Action Transmittal (AT) number ACF-OISM-001, dated February 24, 1995.

Functions marked with an asterisk (*) are mandatory. Any function identified in the regulation as "optional" *but for which the State was approved funding becomes mandatory with APD approval.*

In the Guide below, the State must describe how the automated system meets all of the SACWIS functions. In each sub-section (e.g., Intake, Screening, Assessment, Investigations) space is provided for the State to cite reference sources, such as a User's Manual, and to cross-reference screens, alerts/ticklers, notices, and reports to the responses in that sub-section. For example, the system-generated reports produced by the system should be identified and cross-referenced to the enclosed list of reports for those that are related to the relevant sub-section. Note that multiple citations may be required for a single question. See Chapter III of the SACWIS Assessment Review Guide for instructions on how to complete this section of the Guide.

Finally, the reader should note that some of the questions in this Guide cover more than one topic. Care should be taken to respond to all of the different components of a question.

APPENDIX B SUMMARY TABLE

This table is updated by ACF as the report is finalized and reflects the findings recorded in the questionnaire by the Federal review team. As findings are resolved by the State, this table will display the status of each functional component, whether the component has an *Action Plan* associated with it, and the page number where the component is discussed. This table will allow the reader to focus on unresolved findings, as well as identify those components with an approved *Action Plan*, which requires tracking in the State's Advance Planning Document.

The table makes use of the bookmark functionality in Word. The State should not type in this table, nor delete this table. As the State completes the questionnaire, the page reference numbers in the table may not match the actual pages in the questionnaire. It is not necessary for the State to update the table to refresh the page numbers. If the State wishes to update the page numbers on the Summary Table, the writer may highlight the entire document by clicking Ctrl A and then click the F9 key. This will update the page reference numbers on the table.

B. I: Intake Management

Goal: Through the effective and efficient use of automation, provide for the administration of the processes necessary to ensure that the child welfare services (CWS) agency can respond to those who need assistance through the proper identification of the individuals and provision of appropriate assessment procedures.

A: Intake

Goal: To provide an automated entry point into the child welfare services (CWS) agency for children and families who seek services, are referred for services, and/or who are reported to the agency.

- 3. (12) <u>Generate documents as needed in response to investigation</u> * Describe how the system supports the preparation of
 - a) alerts/ticklers,
 - b) notifications, and
 - c) reports required during, and as a result of, the investigative process.

Please Note -- Generation of documents is a common functional requirement and appears in relation to other system functionality. The State's response to this question should address the system's overall capabilities related to the generation of alerts/ticklers, notices, and reports as well as the specifics related to the Investigation functional area. The State's responses to similar questions appearing subsequently in other functional areas can refer to this response for system-level performance, and then may address the specific outputs related to the functional area in question.

B. II: Eligibility

This function consists of determining programs for which funding support is available for clients receiving services. Program eligibility may include funding for foster care/adoption payments and determining the type of programs that will allow a client to receive Medicaid coverage. This function is usually initiated sometime during the Intake Function.

Goal: To provide efficient and effective system support for the identification and qualification of children for program funding.

A: Initial Eligibility Determination

Goal: To provide automated support for the timely qualification of potential program beneficiaries.

 - a) alerts/ticklers,
 - b) notices, and
 - c) reports (e.g., exception reports) needed to provide information on and track the changes in eligibility status.
 - d) Are the Child Welfare Workers alerted to changes made in the title IV-A, title IV-D, and title XIX systems (the mandatory interfaces)?

The State may refer to question 12 for a description of the general system capabilities related to this component of the system.

ACF Comments for Requirement: 28						
Conforms? Y/C/N Action Plan? Y/N/Blank Resolution Date						
Finding Summary Worksheet Completed? Yes or Blank						

B. III: Case Management

This function entails the preparation of service plans, determining whether the agency can provide the services, authorizing the provision of services, and managing the delivery of those services.

Goal: To provide system support for the efficient and effective administration of the processes necessary to ensure that the child welfare services agency identifies, communicates, evaluates and monitors the services which will ameliorate the conditions necessitating agency involvement and ensure the safety of the child.

A: Service / Case Plan

Goal: To provide a mechanism where the needs of the child/children/family and the services necessary to resolve the problems are maintained and tracked to an appropriate outcome, including estimated time frames for completion of the services.

Cross Reference Box for the SERVICE / CASE PLAN Section					
Reference Sources (Document/Chapter):

1. (29) Prepare and document service/case plan * —

a) Describe how the automated system supports the development of case plans for children and families by documenting services that are required to meet the specific needs identified in the assessment function.

- b) The State's response should address how the SACWIS supports case plan development in the following areas:
 - 1) Adoption (records and tracks information about adoptive placements and post-adoptive services, including subsidy benefits);
 - 2) Family preservation (institute in-home services to prevent the need for placement);
 - 3) Foster care (determines and tracks level of care, placement information, reunification services, and legal requisites);
 - 4) Independent living (determines and tracks services to provide transitional living assistance for State foster care youths); and
 - 5) Interstate compact (process/submit supervision requests from/with other States for children and youth).

B: Case Review / Evaluation

Goal – The Goal is to provide automated support for the administration of timely reviews, either internal to the agency or with the input of the judicial system. Furthermore, the system should enable the agency to insure that services are progressing toward the stated outcome; to determine if additional services are to be provided; and to evaluate the time frames and the outcomes in the services/case plan.

B. IV: Resource Management

This function supports the maintenance and monitoring of information on an array of service providers, including prevention programs, placement services, and foster care providers.

Goal: To provide system support for the efficient and effective administration of the processes involved in the determination of appropriate service providers and/or placement resources necessary to accomplish the goals of the service/case plan.

A: Facilities Support

Goal: To provide for the timely, efficient and effective identification of new resources, the addition of new information regarding existing resources, and the identification of gaps in resource/service availability.

B. VIII: Interfaces

This function creates an electronic link between the child welfare system and other systems to receive, transmit, and verify case and client information.

Goal: To provide for the effective and efficient transfer of information between SACWIS and other automated systems.

Cross Reference Box for the INTERFACE Sections				
Reference Sources (Document/Chapter):

A: Required Interfaces

Goal: To ensure that the automated system supports the effective and efficient administration of the processes necessary to transfer information between SACWIS and other automated systems.

1. (82) Does the automated system provide for an electronic data interface with the following systems? *:

SYSTEM	Is the Interface Operational? Yes/No	Effective Date that the Interface Became (or Will Become) Operational.
Title IV-A (TANF)		
Title IV-D (Child Support Enforcement)		
Title XIX (Medicaid)		
Child abuse and neglect data system ¹		

- a. (83) Title IV-A (TANF): Describe how the interface with the title IV-A system is used to:
 - a) Capture and exchange relevant information;
 - b) Identify potential resources for the IV-E child; and
 - c) Avoid duplicate payments under the title IV-E and title IV-A programs.

State Response:_

B. Optional Interfaces

Goal: To support the effective and efficient administration of the processes necessary to transfer information between SACWIS and other automated systems.

2. (87) Does the automated system provide additional interfaces with automated systems within the State, such as:

SYSTEM	Is the Interface Operational? Yes/No	Effective Date that the Interface Became (or Will Become) Operational.
State Central Registry on Child Abuse and Neglect		
Social Security Administration		
State financial system		
State licensing systems		
Vital Statistics		
Court system		
Juvenile Justice		
Mental health / retardation		
State Department of Education		
Other		
Other		

Please describe how each optional interface works - State Response:

ACF Comments for Requirement: 87						
Conforms? Y/C/N Action Plan? Y/N/Blank Resolution Date						
Finding Summary Worksheet Completed? Yes or Blank						

B. IX: Quality Assurance

This function provides for the review of case files for accuracy, completeness, and compliance with Federal requirements and State standards.

1. (88) Which of the following Quality Assurance features does the system incorporate?

Indicators	Yes	No
Does the automated system provide appropriate edits, range checks, and prompts for		
critical or incomplete data? (Critical data are defined as those required for State or		
Federal reporting or audit, such as AFCARS reporting, Child and Family Services		
Reviews, and IV-E eligibility reviews).		
Does the automated system incorporate procedures for appropriate supervisory		
oversight and authorization related to case-file review?		
Does the automated system allow for random sampling based on variable		
characteristics for audit purposes?		
Is the system capable of recording and tracking the results of an audit as well as any		
necessary corrective actions identified?		
Does the automated system facilitate the establishment and tracking of outcome		
measures by program managers, and support trend analysis of results?		
Does the automated system generate summary management reports on client		
demographics and needs?		
Does the automated system produce reports on the length of time in foster care		
categorized by identified service needs and services provided?		
Does the automated system track referrals and all required time-sensitive actions for		
title IV-B and IV-E related cases, such as initial and ongoing Administrative Case		
Reviews, investigations, and time sensitive treatment and service plans?		
At the point a required action is delayed beyond a Federal, State, or court mandated		
time frame, does the system alert line, supervisory and management staff, when		
appropriate?		
In cases where a reviewer enters information on an apparent problem of abuse or		
neglect in a foster home, does the automated system automatically request an		
investigation and track the case to its completion?		
Does the automated system maintain and link variable and static data used to		
determine eligibility for title IV-E payments?		
Does the automated system also establish data entity relationships between providers,		
clients, and payments?		
Does the automated system (or separate financial system) account for appropriate		
financial reconciliation of payments, including overpayments and recovery, by		
occurrence?		
Does the automated system contain all data necessary to effectively manage a case?		

Indicators	Yes	No
Is the automated system able to track a child across multiple occurrences and/or		
cases?		
Does the quality assurance function support the review of case files for accuracy,		
completeness, and compliance with Federal requirements and State standards?		
Does the system capture and transmit all known cases in the AFCARS report,		
including cases with incomplete information or untimely actions?		

State Response:_		

ACF Comments for Requirement: 88					
Conforms? Y/C/N		Action Plan? Y/N/Blank		Resolution Date	
	Fi	nding Summary Works	heet Comple	eted? Yes or Blank	

2. (89) Please describe other quality assurance functions or related features supported by the SACWIS.

Stat	te Response:_

ACF Comments	

APPENDIX D: Sample Interview Questions

This appendix includes examples of questions likely to be asked by Federal team members; they represent some of the issues to be addressed during the SACWIS assessment review. The questions are organized by the agenda session in which the issues are likely to arise. See the sample agenda (Appendix E) for information on other topics covered in each session.

Local/county office interviews

General questions

How did you get your SACWIS/network passwords? How often do you have to change it?

What parts of the system do you use most often? What helps most to manage workload?

How often do you use the following help features? Do you have suggestions for improving them?

- on-line help
- local support
- internet support
- help desk
- training

Are error messages clear? What do you do when you get an error message?

Can you show me ticklers/alerts that you use?

Can you demonstrate searches for the following?

- a case
- persons in a case
- investigations
- foster parents
- other resources

Can you demonstrate some of the edit checks (e.g. do you have to enter data in a certain order, are there required fields, things that the system will not accept, or does the system compare data in different fields to prevent entry of erroneous data)? Are there reports that help you to identify missing or questionable data?

Can you show me how you record case notes?

Can you show me some of the forms and notifications SACWIS generates for you?

Are there reports you would like that the system does not produce? Do you generally view reports on the screen or do you need to print out copies?

Intake questions

What is the practice during intake? Can you show me the steps as you enter a new report into the system?

Investigation questions

How is risk assessment conducted? Can you show me how this is entered into the system?

Does the automated system provide for the input of information collected during the investigation process, including the recording of dates for each event and the recording of contacts made during the investigation?

Case assessment questions

What is the practice at your office for recording family problems/issues/strengths? How are service objectives recorded?

Can you show me an example where you record strengths and weaknesses of a family? How do you determine needed services?

Can you show me an example of establishing a case plan goal for a family or case? How do you determine the case plan goal?

Can I get copies of the case reports you most commonly use?

How does the system make service referrals? What are the steps followed? How are referrals tracked?

Eligibility determination questions

Can you demonstrate how eligibility is determined? How is it re-determined?

Can you show me how foster families are licensed?

Can you show me what happens if a foster family or other facility loses its license?

Case management questions

Could you demonstrate the case management activities that SACWIS saves information on and tracks?

Could you demonstrate how the SACWIS supports the following programs?

- Adoption Assistance Program
- Independent Living
- Family Preservation & Support Services
- Foster Care
- Child Abuse and Neglect

ICPC

Resource management questions

How would you know if an abuse/neglect report were lodged against a foster care family?

How do you go about selecting a foster family for a specific child? How do you find other types of service providers?

Court processing questions

What court documents do you commonly see and work with? Are any of them generated by the system?

Are any of the court documents only available in paper? Does information from court records get into SACWIS?

How does the system support the requirements of the Indian Child Welfare Act (ICWA)? Does the system flag tribal children? Is the tribe notified that a child is in custody? If the tribe is notified, how is the tribe notified?

Staff management questions

Do supervisors use the system in case assignment?

How do managers use the system to ensure worker compliance with State and Federal regulations?

AFCARS Interview

If the State has not submitted AFCARS data, what is the time schedule for submitting data from the new SACWIS?

Has the State tested the AFCARS extraction routine and created an AFCARS test file?

Is the State using the Data Quality Utility and Data Compliance Utility to identify errors in the data?

Optional and mandatory interfaces interview

How does the SACWIS capture the absent parent information needed by the IV-D program to open a IV-D case?

Central office program and policy staff interview

What is the procedure to allow clients to review information in their record?

How does the SACWIS support court ordered mandates?

Technical Staff Interview

What is the State's policy, including repercussions, for unauthorized access to client information?

What is the State's policy regarding archiving and purging of case information from the information system?

At what point and to whom are unique identifiers assigned? Are IDs given to individual children, related individuals, families, perpetrators, incidents, or cases?

Does the system produce data quality reports highlighting possibly erroneous or inconsistent data?

Financial review/administration review

How does the SACWIS support provider payments functions? How does it track payments? Does it include alerts or reports for possible problems? Is it easy to understand and use these functions?

Are there range checks to ensure appropriate payments?

How does the system handle overpayments?

What sort of resource tracking does the system do? Does it include a mechanism for licensing renewal? Does it indicate when a license has expired? Are complaints logged in the system?

APPENDIX E: Sample SACWIS Assessment Review Agenda

This table provides a suggested list of activities and interviews.

D /E	A state /D	D 1.10

1 hour	Formal exit conference	Department Administrators
		SACWIS project manager
		Staff selected by SACWIS
		project manager
Alternatively, hold a preliminary exit conference and schedule the formal exit conference at a		
later date.		

APPENDIX E: Sample State Exit Conference Month DD, YYYY

Strengths:

- Dedicated, conscientious State and county staff
- Preparation for the visit is to be commended; extra effort for the visit team's comfort was appreciated
- Nearly all outstanding SACWIS requirements have been addressed and completed since the last review; reflects effective collaboration and teamwork between program and project teams
- Appropriate system access through security profiles
- Improved usability heuristics since last review including:
 - o Tabbed windows
 - Easier referrals
 - Contact copy feature
 - Definitions that are available for each assessment area
 - O Inclusion of word processing capabilities such as spell check
- Case assignments/transfers and supervisory approval processes are effective
- Have implemented a sufficiently automated IV-E determination/re-determination process that is typically a complex undertaking
 - O Monthly re-determinations are invoked prior to monthly batch executions
 - o Trend analyses are conducted on IV-E determination process
- Strong set of online and ad hoc reports to support management decisions
- Effective interface with the courts (e.g., petitions, hearings, TPR, court language), also a complex SACWIS area
- Before and after snapshot of case and referral data resulting in history tables that provide audit trail capabilities (who changed, date, timestamp)
- Freezing at strategic points in business processes, e.g., Investigation, Case Plan, Safety Plan, Case Notes
- The Assessment System is an effective tool for creating referrals to providers who perform a battery of assessments that help determine if a child remains in the home or is placed out of the home; if the latter is recommended, the type of placement is also included
- Training content seems helpful to workers--see worker suggestions below
- Case management activities appear more efficient with the incorporation and effective use of new technology
- When a relationship is created in SACWIS, the system creates an inverse relationship
- When used, Help Desk support is valued by the user community
 - o ACD (Add, Change, Delete) module to track application fixes/modifications
- Progressive use of new technology includes:

- O Workload listing, which is the gateway to the application with color coding: existing (black), new assignment (red), pending approvals (blue)
- o Calendar display of ticklers with scrolling reminder bar for priority due items
- O Export of report data to Excel for data manipulation and analysis
- O Ability to send records to PDA and back again with a single button enabling offline capabilities for investigation, assessments, providers, contacts, child care checklist; also, PDAs have portable keyboards that enable direct data capture, and cameras for digital imaging that enable workers to:
 - Attach photo images to contacts
 - Print images on court reports
 - Identify missing children
- o A Web-based application for providers that enables:
 - Tree navigation
 - Invoice select, filter and sort
 - Private agency management of their agencies
 - Online placement changes
 - Multiple home approvals
 - Worker notification after database update.

Concerns:

- Outstanding requirements:
 - O Requirement #83 addresses the bi-directional capabilities between SACWIS and the IV-A system that supports TANF. During the visit, it was noted that the interface from was one way. However, the state had identified an action plan of completion in the latest SARR (dated MM-DD-YYYY). As of MM-DD-YYYY, the state has:
 - Modified SACWIS to complete data transfer capabilities between SACWIS and the IV-A system;
 - Provided documentation to ACF detailing the process that will be used to transfer data between SACWIS and the IV-A system,, including a data layout indicating what data will be transferred from SACWIS and the IV-A system

This modification was implemented on Month DD, YYYY.

- Technical Assistance:
 - O The state may want to consider associating email notes to ticklers to insure ownership of tasks through completion.
- Workers' Suggestions:
 - o To make the merge function less time consuming

- O To validate merge information between clients
- O To have a more granular sort feature, e.g., additional filters, greater sort flexibility, sort combinations in addition to "and"
- O To have fewer screens in SACWIS
- O To consolidate the treatment plan into a single report document
- O To combine the outcomes reports to render it more useful for court
- O To make SACWIS more accessible prior to formal training class
- o To make SACWIS available after workers have completed CBTs, and
- O To offer advanced training to workers after they have received field experience.

Next Steps:

- ACF will prepare a draft letter that indicates that the State has completed all requirements, or has an action plan in place to complete those requirements.
- The State will have an opportunity to review the draft and provide feedback or make changes.
- ACF will incorporate the changes and feedback and prepare a final letter to be distributed to the State and designated management.
- The State must provide progress updates to ACF on the outstanding requirement in their annual APD Update.
