Agency Information Collection; Activities Under OMB Review; Comment Request

AGENCY: Bureau of Reclamation, Interior.

SUPPLEMENTARY INFORMATION:

Title: Forms to Determine Compliance by Certain Landholders, 43 CFR part 426.

Abstract: Identification of limited recipients—Some entities that receive Reclamation irrigation water may believe that they are under the Reclamation Reform Act of 1982 (RRA) forms submittal threshold and, consequently, may not submit the appropriate RRA form(s). However, some of these entities may in fact have a different RRA forms submittal threshold due to the number of natural persons benefiting from each entity and the location of the land held by each entity. In addition, some entities that are exempt from the requirement to submit RRA forms due to the size of their landholdings (directly and indirectly owned and leased land) may in fact be receiving Reclamation irrigation water for which the full-cost rate must be paid because the start of Reclamation irrigation water deliveries occurred after October 1, 1981 [43 CFR 426.6(b)(2)]. The information obtained through

completion of the Limited Recipient Identification Sheet (Form 7–2536) allows us to establish entities' compliance with Federal reclamation law. The Limited Recipient Identification Sheet is disbursed at our discretion.

Trust review—In order to administer section 214 of the RRA and 43 CFR 426.7, we are required to review all trusts. Land held in trust generally will be attributed to the beneficiaries of the trust rather than the trustee if the criteria specified in the RRA and 43 CFR 426.7 are met. When we become aware of trusts with a relatively small landholding (40 acres or less), we may extend to those trusts the option to complete and submit for our review the Trust Information Sheet (Form 7–2537) instead of actual trust documents. If we find nothing on the completed Trust Information Sheet that would warrant the further investigation of a particular trust, that trustee will not be burdened with submitting trust documents to us for in-depth review. The Trust Information Sheet is disbursed at our discretion.

Acreage limitation provisions applicable to public entities—Land farmed by a public entity can be considered exempt from the application of the acreage limitation provisions provided the public entity meets certain criteria pertaining to the revenue generated through the entity's farming activities (43 CFR 426.10 and the Act of July 7, 1970, Pub. L. 91–310). We are required to ascertain whether or not public entities that receive Reclamation irrigation water meet such revenue criteria regardless of how much land the public entities hold (directly or indirectly own or lease) [43 CFR 426.10(a)]. To minimize the burden on public entities, standard RRA forms are submitted only when the public entity holds more than 40 acres subject to the acreage limitation provisions westwide, which makes it difficult to apply the revenue criteria as required to those public entities that hold less than 40 acres. When we become aware of such public entities, we request them to complete and submit the Public Entity Information Sheet (Form 7–2565). This form allows us to establish compliance with Federal reclamation law for those public entities that hold 40 acres or less and, thus, do not submit a standard RRA form because they are below the RRA forms submittal threshold. In addition, for those public entities that do not meet the exemption criteria, we must determine the proper rate to charge for Reclamation irrigation water deliveries. The Public Entity Information Sheet is disbursed at our discretion.

Acreage limitation provisions applicable to religious or charitable organizations—Some religious or charitable organizations that receive Reclamation irrigation water may believe that they are under the RRA forms submittal threshold and, consequently, may not submit the appropriate RRA form(s). However, some of these organizations may in fact have a different RRA forms submittal threshold depending on whether these organizations meet all of the required criteria for full special application of the acreage limitation provisions to religious or charitable organizations [43 CFR 426.9(b)]. In addition, some organizations that (1) Do not meet the criteria to be treated as a religious or charitable organization under the acreage limitation provisions, and (2) are exempt from the requirement to submit RRA forms due to the size of their landholdings (directly and indirectly owned and leased land), may in fact be receiving Reclamation irrigation water for which the full-cost rate must be paid because the start of Reclamation irrigation water deliveries occurred after October 1, 1981 [43 CFR 426.6(b)(2)]. The Religious or Charitable Organization Identification Sheet (Form 7–2578) allows us to establish certain religious or charitable organizations' compliance with Federal reclamation law. The Religious or Charitable Organization Identification Sheet is disbursed at our discretion.

There are no proposed revisions to the Limited Recipient Identification Sheet, the Trust Information Sheet, or the Religious or Charitable Organization Sheet. A single change was made to the Public Entity Identification Sheet prior to the 60-day comment period initiated by the notice published in the **Federal Register** (75 FR 59738, Sept. 28, 2010). This change is designed to further delineate the identification of certain excess land as required by 43 CFR 426.12(g). The proposed revision to the Public Entity Identification Sheet will be included starting in the 2012 water year. No public comments were received in response to that notice.

Frequency: Generally, these forms will be submitted only once per identified entity, trust, public entity, or religious or charitable organization. Each year, we expect new responses in accordance with the following numbers.

Respondents: Entity landholders, trusts, public entities, and religious or charitable organizations identified by Reclamation that are subject to the acreage limitation provisions of Federal reclamation law.

Estimated Total Number of Respondents: 500.

Estimated Number of Responses per Respondent: 1.0.

Estimated Total Number of Annual Responses: 500.

Estimated Total Annual Burden on Respondents: 72 hours.
