

Welcome to your school's PISA 2009 website

We are pleased to share your school's results on the Program for International Student Assessment (PISA) 2009. This website allows you to compare your school's performance with that of the United States and other participating countries, as well as schools similar to yours based on characteristics you select. You can also explore school contexts around the world by looking at PISA school principals' responses to questions about their schools. This website will remain active until **March 7, 2011**. Please download or print any information that you would like to keep.

This is the first page site users see after clicking “Explore my school’s performance in PISA 2009” on the previous page. This filter compares the school’s performance against OECD and United States comparison groups.

School B Performance Compared to...

Compare my school's results to:

Each comparison is based on a single school characteristic shared with your school (for example, school enrollment), not all of the variables shown.

Country / Group	Reading Literacy				Mathematics Literacy	Science Literacy
	Overall	Access and Retrieve	Integrate and Interpret	Reflect and Evaluate		
Private schools	▲	▲	▲	▲	○	▲
Schools with 1500 or more students	▲	○	○	○	○	▼
Schools with 40% to 59.9% students whose first language is not the test language	○	▲	▲	▲	▼	▲
Schools located in a rural area	▲	▲	▲	▲	○	▲
Schools with a similar proportion (+/- 10%) of students eligible for free or reduced-price lunch	▲	▼	○	▲	○	○

How your school's average scores compare with the comparison group:	
▲	Your school's average score is higher
○	Your school's average is not different
▼	Your school's average score is lower
