## Recruitment Procedures

### Description of Cognitive Interview Participant Recruitment Process

#### Advertisement:

The cognitive interviews will be advertised at a variety of locations and through a variety of media in the Research Triangle Park and Washington, D.C. areas to maximize exposure to diverse postsecondary student populations, such as:

- Central locations at colleges, universities and other postsecondary institutions;
- Community locations such as coffee shops;
- College/university and city newspapers; and
- Online resources such as the RTI Intranet classifieds and Craigslist.org.

The advertisements will describe the purpose of the cognitive interviews and details of participation, including the time commitment, incentive for participation, and RTI-PRISM contact information. A sample flyer is presented below.

#### Recruitment:

Students who are interested in participating in a cognitive interview will be asked to call RTI to complete a brief screening interview to determine eligibility. Eligible participants will be those determined to be first-time beginning students (FTB) in the desired institution types with a range of demographic characteristics and education experiences.

The cognitive interview participants will be selected to reflect the following characteristics:

Institution type:

- 4-year,
- 2-year, and
- Less-than-2-year.

Participants within each group will be selected to provide a range of FTB student types across the following demographic variables:

- Age;
- Sex; and
- Degree program.

For each institution level, approximately 48 students (16 per institution type) will be recruited to ensure the desired number of participants (30 students total, approximately 10 participants per institution type.)

### NPSAS:12 Cognitive Interview Eligibility Screening Questions

---

Thank you for inquiring about this study. Thirty total interviews are planned. The screening is expected to take approximately 3-5 minutes. Each full interview is expected to last approximately 90 minutes. The interviews will be recorded so that we can review your ideas and comments. We will prepare a report that does not single out any one person, but reports what we heard from the group as a whole. We will keep the recording only until our report is finished. No names will be mentioned in the report.

Participation will involve answering questions and reviewing a survey for an upcoming study that will be used to learn about students' paths through postsecondary education. During the interview, we will ask you to complete a survey and give us your thoughts on the questions you are being asked. In addition, we will ask you questions as you go in order to measure your understanding and interpretation of the questions in the survey. But, I will first need to ask you a few questions to determine if you are eligible to participate in the study.

1. Have you completed your high school requirements and received a **high school** diploma, a GED, or a high school completion certificate?

-Yes-a high school diploma \_\_\_\_\_ (date)  
or a GED \_\_\_\_\_ (date)  
or a high school completion certificate \_\_\_\_\_ (date)

9. Do you [or your spouse] have any children whom you support financially?

- Yes
- No

10. Are you working full-time?

- Yes
- No

11. What is your name? \_\_\_\_\_

12. What is the best telephone number to reach you? \_\_\_\_\_

13. What is your email address? \_\_\_\_\_

14. What days of the week and times of day would you be available to attend an interview?

\_\_\_\_\_

*Thank you for answering our questions. Once the interviews have been scheduled, you will be contacted by phone and e-mail to notify you of the date, time, and location. At that point, you must RSVP to the invitation to guarantee an interview time. Upon completion of the interview you will receive \$50.*

## Attachment III Sample Consent Form

### Consent to Participate in Research

**Title of Research: National Postsecondary Student Aid Study – Cognitive Interviews 2011**

#### Introduction

You are being asked to participate in a cognitive interview which is part of a larger research study sponsored by the National Center for Education Statistics (NCES) of the U.S. Department of Education. The study is designed to examine the decisions and experiences of students throughout their postsecondary education and the factors that influence their decisions. Before you decide if you want to take part in this study, you need to read this Informed Consent form so that you understand what the interview is about and what you will be asked to do. This form also tells you who can participate in the interviews, the risks and benefits of participating, how we will protect your information, and who you can call if you have questions. Please ask the researcher to explain anything you don't understand before you make your decision.

#### Purpose

The interview is being conducted by RTI International, a research organization located in Research Triangle Park, North Carolina.

Participation will involve answering questions and reviewing a survey for an upcoming study that will be used to learn about students' paths through postsecondary education. During the interview, we will ask you to complete a web survey and give us your thoughts on the questions you are being asked. In addition, we will ask you questions as you go in order to measure your understanding and interpretation of the questions in the survey. The information from the interviews will help us finalize development of the questions for the larger study that will be conducted early next year.

#### Procedures

You are one of approximately 30 individuals participating in these cognitive interviews.

The interview will be audio recorded to make sure we don't miss anything that you say and to help us write a report summarizing the results of the interviews. Upon completion of the written report, the recording will be destroyed. Your name will never be used in the report that we write.

## **Study Duration**

Your participation in the cognitive interview will take approximately 90 minutes.

## **Possible Risks or Discomforts**

We do not anticipate that any of the discussion topics will make you uncomfortable or upset. However you may refuse to answer any question or take a break at any time.

## **Benefits**

### **Your Benefits**

There are no direct benefits to you from participating in this study.

### **Benefits for Other People**

However, we hope that this study will identify issues that can inform the U.S. Department of Education about the types of concerns that postsecondary students have.

### **Payment for Participation**

You will be paid \$50 upon completion of the interview.

## **Confidentiality**

RTI International is conducting this study for the National Center for Education Statistics (NCES) of the U.S. Department of Education. This study is authorized by law under the Education Sciences Reform Act (ESRA 2002). Your participation is voluntary. Your responses are protected by federal statute (20 U.S.C., § 9573) and may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law.

## **Future Contacts**

We will not contact you in the future.

## **Your Rights**

Your decision to take part in this research study is completely voluntary. You can refuse any part of the study and you can stop participating at any time. You can refuse to answer any question.

## **Your Questions**

If you have any questions about the study, you may call Jennifer Wine at RTI International (919-541-7006). If you have any questions about your rights as a study participant, you may call RTI's Office of Research Protection at 1-866-214-2043 (a toll-free number).

### NPSAS:12 Field Test Survey Specifications

#### Notes:

- Cognitive testing will focus on 15 items that have been revised since our last clearance, based on the results of field test data collection. The basic constructs tested for each of these highlighted items will remain the same as they were during the field test, but we will use probing on these items and feedback from cognitive interviews to determine more efficient and effective ways to ask the items of respondents. Item content may iterate through cognitive testing as improvements are identified.
- We will administer the entire student interview during the cognitive interviews to provide respondents with context for the highlighted items, though the majority of the cognitive interviewing time will be spent probing respondents on the highlighted items. We will also accept and consider any feedback from cognitive interview respondents on improvement for all interview items.

**QuestionName** N12REMEVER

Wording Since you completed high school, have you taken any remedial or developmental courses to improve your basic skills, such as in mathematics, reading, writing, or studying?

(Remedial courses are used to strengthen your skills before you take your first college-level course in math, reading, or other subjects. Students are usually assigned to remedial courses on the basis of a placement test taken before the school year begins. Often, remedial courses do not count for credit toward graduation.)

### **Generic Cognitive Interview Probes**

Generic probes will be administered to participants on an as-needed basis to elicit additional information about the cognitive testing process. Examples of the generic probes are presented below.

- 1. Probes to assess the understanding of the questions.**
  1. Did you have any difficulties answering this question?
  2. How did you interpret “X”?
  3. Are there any categories missing?
  4. Do any of the categories overlap?
  5. Are any of the terms unclear?
- 2. Probes to assess clarity of instructions, explanations and other messages to respondents.**
  1. Did the instructions provided make sense?
  2. Were the instructions provided helpful?
  3. If not, what additional information would be helpful?
- 3. Probes to assess clarity related to the visual layout of each item .**
  1. Was it clear how to proceed through this item on screen?
  2. What is your general impression of the look/layout of this item?
- 4. Probes to assess comparisons among versions of item response scales .**
  1. Which of the versions of “item X” do you prefer?
  2. Why?
- 5. Probes to assess the clarity of specific terms, particularly in items involving financial aid terminology that is possibly unfamiliar to students (e.g. private loans) and items used to determine eligibility for the BPS cohort.**
  1. Are you familiar with the term “X”?
  2. What does the term “X” mean to you?
  3. How did you interpret “x” when you answered this question?
  4. Did the definition of “X”/Did the explanation of “X” [found in parenthesis] match your interpretation of the term(s)?
- 6. Probes to solicit additional opinions about the survey**
  1. Do you have any overall opinions, comments, or suggestions about the survey questions or response items?
  2. Encourage/explain think-aloud interviewing.
