SUPPLEMENTARY INFORMATION:

Background.--On June 15, 1987, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of tapered roller bearings from China (52 FR 22667). On May 15, 1989, Commerce issued antidumping duty orders on imports of ball bearings from France, Germany, and Italy (54 FR 20900, 20902, and 20903). Following first and second five-year reviews by Commerce and the Commission, effective July 11, 2000 and September 15, 2006, respectively, Commerce issued continuations of the antidumping duty orders on imports of certain bearings from China, France, Germany, and Italy (65 FR 42665 and 71 FR 54469). The Commission is now conducting third reviews to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.--The following definitions apply to these reviews:

- (1) **Subject Merchandise** is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.
- (2) The **Subject Countries** in these reviews are China, France, Germany, and Italy.
- (3) The **Domestic Like Product** is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the **Subject Merchandise**. In its original determination concerning tapered roller bearings from China (Investigation No. 731-TA-344), the Commission found one **Domestic Like Product**: tapered roller bearings and parts thereof--finished or unfinished; flange, take-up cartridge, and hanger units incorporating tapered roller bearings, and tapered roller housings (except pillow blocks) incorporating tapered rollers, with or without spindles, and whether or not for automotive use. In its original determinations concerning ball bearings from France, Germany, and Italy (Investigation Nos. 731-TA-391A-393A), the Commission found ball bearings to be a single **Domestic Like Product**. One Commissioner defined the **Domestic Like Product** differently in the original ball bearings final determinations. In its full first and second five-year review determinations concerning the existing orders on certain bearings, the Commission defined ball bearings and tapered roller bearings as separate **Domestic Like Products**, coextensive with Commerce's scope definitions for each type of bearing. For purposes of this notice, you should report information separately on each of the following two **Domestic Like Products**: (1) ball bearings and (2) tapered roller bearings.
- (4) The **Domestic Industry** is the U.S. producers as a whole of the **Domestic Like Product**, or those producers whose collective output of the **Domestic Like Product** constitutes a major proportion of the total domestic production of the product. In its original determination concerning tapered roller bearings from China (Inv. No. 731-TA-344), the Commission found one **Domestic Industry** devoted to the production of the **Domestic Like Product**, as defined above. In its original determinations concerning ball bearings from France, Germany, and Italy (Investigation Nos. 731-TA-391A-393A), the Commission found one **Domestic Industry** devoted to the production of ball bearings. One Commissioner defined the **Domestic Industry** differently in the original ball bearings final determinations. In its full first and second five-year review determinations concerning the existing orders on tapered roller bearings and ball bearings, the Commission found two separate **Domestic Industries**, each devoted to the production of one of the two **Domestic Like Products**, as defined above. For purposes of this notice, you should report information on two

Domestic Industries, each devoted to the production of one of the following two *Domestic Like Products*: (1) ball bearings and (2) tapered roller bearings.

- (5) An **Importer** is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the reviews and public service list.--Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the reviews as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the *Federal Register*. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the reviews.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics official has advised that a five-year review is not considered the "same particular matter" as the corresponding underlying original investigation for purposes of 18 U.S.C. § 207, the post employment statute for Federal employees, and Commission rule 201.15(b)(19 CFR § 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics. Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR § 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202-205-3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.--Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in these reviews available to authorized applicants under the APO issued in the reviews, provided that the application is made no later than 21 days after publication of this notice in the *Federal Register*. Authorized applicants must represent interested parties, as defined in 19 U.S.C. § 1677(9), who are parties to the reviews. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.--Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with these reviews must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.--Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is August 31, 2011. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is October 25, 2011. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The

Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission's rules, as amended, 67 FR 68036 (November 8, 2002). Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the reviews you do not need to serve your response).

Inability to provide requested information.--Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determinations in the reviews.

INFORMATION TO BE PROVIDED IN RESPONSE TO THIS NOTICE OF INSTITUTION: Please provide the requested information separately for each *Domestic Like Product*, as defined by the Commission in its determinations, and for each of the products identified by Commerce as *Subject Merchandise*.  - (c) the quantity and value of U.S. commercial shipments of each *Domestic Like Product* produced in your U.S. plant(s);

Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the *Domestic Like Products* produced in the United States, *Subject Merchandise* produced in the *Subject Countries*, and such merchandise from other countries.
