ATTENTION QUESTIONNAIRE RESPONDENTS

Report table quantities in:

- (1) 1,000 pounds (total, on a 100 percent active ingredient basis);**
- (2) 1,000 pounds (in solution, as produced/sold); and**
- (3) 1,000 pounds (in powder, as produced/sold)**

When reporting (2) and (3), report the corresponding weighted average percentage of active ingredients contained. Quantities should be net of returns.

These quantities should reconcile as follows:

Total quantity on a 100 percent active ingredient basis should equal the sum of the quantity in solution as produced/sold multiplied by the weighted average percentage of active ingredients contained in solution, plus the quantity in powder as produced/sold multiplied by the weighted average percentage of active ingredients contained in powder.

For example, 1,000 pounds of 93 percent active ingredient powder converts to 930 pounds on a 100 percent active ingredient basis, and 1,000 pounds of 22 percent active ingredient solution converts to 220 pounds on a 100 percent active ingredient basis. Therefore, if you report 1,000 pounds of 93 percent active powder and 1,000 pounds of 22 percent active solution, you would also report a total quantity of 1,150 pounds on a 100 percent active ingredient basis.

Follow the same methodology for the reporting of all CSOBAs and Fluorescent Brightener 71.

PART III.--FINANCIAL INFORMATION

Address questions on this part of the questionnaire to **Charles Yost (202-205-3432, charles.yost@usitc.gov)**.

III-1. Please identify the individual to be contacted regarding the confidential information requested in part III?

Name and title: _____

Please indicate the manner by which Commission staff may contact the individual responsible for part III with questions regarding the submitted confidential information.

E-mail: _____ Telephone: () _____

Fax: () _____

III-2. **General guidance:**--Financial data are requested on a product-line basis that is CSOBAs according to the definition of the product in the instruction booklet. Inputs your firm receives from affiliates to produce CSOBAs should be stated at cost (i.e., intra-firm profits eliminated—see question III-7) while transfers of CSOBAs to related affiliates should be stated at fair market value. Total sales in this section should equal total shipments plus exports in Part II Trade information of this questionnaire. Values reported should be net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods), f.o.b. your U.S. point of shipment.

Report quantities in (1) 1,000 pounds (total, on a 100 percent active ingredient basis); (2) 1,000 pounds (in solution, as produced/sold); and (3) 1,000 pounds (in powder, as produced sold. When reporting (2) and (3), report the corresponding weighted average percentage of active ingredients contained. Quantities should be net of returns. These quantities should reconcile as follows: total quantity on a 100 percent active ingredient basis should equal the sum of the quantity in solution as produced/sold multiplied by the weighted average percentage of active ingredients contained in solution, plus the quantity in powder as produced/sold multiplied by the weighted average percentage of active ingredients contained in powder. For example, 1,000 pounds of 93 percent active powder converts to 930 pounds on a 100 percent active basis and 1,000 pounds of 22 percent active solution converts to 220 pounds on a 100 percent active basis. Therefore, if you report 1,000 pounds of 93 percent active powder and 1,000 pounds of 22 percent active solution, you would also report a total quantity of 1,150 pounds on a 100 percent active ingredient basis. Follow the same methodology for the reporting of other CSOBAs and Fluorescent Brightener 71.

III-3. **Accounting system.**--Briefly describe your financial accounting system.

IV-2—Continued

Please note that the total quarterly sales values, on a shipment basis, should be reported two ways:

(1) **Delivered** to U.S. customers (paper companies)--

Please report transactions on a delivered sales basis. The total quarterly quantities should correspond to sales values shown on a delivered shipment basis. Total dollar figures should reflect the FINAL NET amount paid to your firm (i.e., should be net of all deductions for discounts, allowances, rebates, and the value of returned goods).

And, to the extent possible,

(2) **Estimated f.o.b. U.S. plant(s), excluding all U.S.-inland freight**, to U.S. customers (paper companies)--

Deduct from the delivered price (a) an estimate of U.S.-inland freight and shipping charges from your U.S. shipping point(s) to the U.S. customers and (b) an estimate of any U.S.-inland freight from your firm's U.S. plant(s) to its non-plant U.S. shipping points, and report the resulting estimated f.o.b. U.S. plant sales value.

Please report transactions only where your firm can report values on an (estimated) f.o.b. U.S. plant(s) sales basis. The total quarterly quantities should correspond to sales values shown on estimated f.o.b. U.S. plant(s) basis. Total dollar figures should reflect the FINAL NET return to your firm (i.e., should be net of all deduction for discounts, allowances, rebates, absorbed freight, and the value of returned goods).
