

Attachment 5A: PHHS Block Grant Management Information System (BG-MIS) Annual Report

There are no changes to the information being collected.

Upon OMB approval, the OMB control information and the burden statement on the BG-MIS login screen will be updated as shown below:

(Note: the new expiration date is TBD)

Form Approved
OMB No. 0920-0106
Exp. Date: XX-XX-XXXX

Public reporting burden for this collection of information is estimated to average 15 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collected information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road, NE, MS D-74, Atlanta, Georgia 30333: ATTN: PRA (0920-0106).

Log in Tips
Type the User ID and password assigned to you for this application.

- Passwords are case-sensitive.
- After three unsuccessful attempts of logging in, your account will be temporarily locked.
- For security reasons, a period of 4 hours of inactivity requires that you log in again.
- **CDC Users:** Type the ID and your CDC network password. This is the same user ID and password you use to log into the network each day.

Public Reporting Burden Statement:
Public reporting burden to collect information is estimated to average 25 hours per response for the Work Plan and 30 hours per response for the Annual Progress Report, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collected information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road, NE, MS D-74, Atlanta, Georgia 30333: ATTN: PRA (0920-0106)

Food Safety

Issue
Not available

Intervention

Funds from the Block Grant allowed the Alabama Department of Public Health to hold a training course in Chinese for local Chinese restaurant operators in Montgomery County in February, 2005. The class was conducted by a native Chinese language speaker employed as a Public Health Environmentalist with the Montgomery County Health Department. The course was acknowledged by attendees as a great help in understanding health regulations and by health department staff as a great help in bridging the language barrier. The course has been requested by other counties.

> General food safety training provided by Central Office staff partially funded by the Block Grant was put to great practical use in the aftermath of Hurricane Katrina. The local environmentalists were tasked with making food

Review

Issue

Does the Issue Statement:

1. Have a strong lead sentence? Yes No
2. Provide state, regional, or local information about the issue? (e.g., cost burden, death rate, extent of inefficiency using current programs or methodologies) Yes No
3. Tie the health burden, training burden, or degree of threat to a cost burden? Yes No
4. Specify the affected population? Yes No
5. Provide an emotional hook in addition to public health data? Yes No
6. Avoid wordiness, passive language, and grammatical errors? Yes No
7. Make a clear, concise statement about a single issue? Yes No

Suggestions for improvement:

Title
Food Safety

Issue
Not available

Intervention
Funds from the Block Grant allowed the Alabama Department of Public Health to hold a training course in Chinese for local Chinese restaurant operators in Montgomery County in February, 2005. The class was conducted by a native Chinese language speaker employed as a Public Health Environmentalist with the Montgomery County Health Department. The course was acknowledged by attendees as a great help in understanding health regulations and by health department staff as a great help in bridging the language barrier. The course has been requested by other counties.

Impact
Does the Impact Statement:

1. Give specific outcomes? (e.g., money saved, change in health status, numbers impacted) Yes No
2. Avoid broad, sweeping statements? (e.g., noticeable increase in healthy eating habits, significant amount of money was saved) Yes No
3. Provide conclusions that effectively wrap-up the story? Yes No

Suggestions for improvement:
