

# 2010-2011 HEAD START PROGRAM INFORMATION REPORT

OMB NO. 0980-0017

## REPORTING REQUIREMENTS

The annual Head Start Program Information Report (PIR) must be completed by **ALL** programs funded by the federal government to operate Head Start and Early Head Start programs. A separate PIR must be completed for each grantee and each delegate agency. Separate reports must be completed for Head Start and Early Head Start Programs.

### **DEADLINE:** The 2010-11 PIR is due no later than **August 31, 2011**

Programs are encouraged to submit their reports as soon as their enrollment year is complete.

#### **Submitting the PIR**

All programs are required to submit PIR data electronically using the Head Start Enterprise System (HSES), located at <http://hses.ohs.acf.hhs.gov/hsprograms>.

This will eliminate the need for standalone versions of the software. The online reporting system includes numerous new error checks and provides program-level reports based on 2011 data. The system will automatically calculate certain totals; therefore, they are not included in this form as data entry fields.

Delegate programs will submit their PIR survey through HSES to their grantee agency for review and approval. When all of an agency's PIRs are complete, grantees will submit the PIRs through HSES to the Office of Head Start.

There are three steps to submitting the PIR:

1. Input or upload the PIR, review and answer all questions
2. Use the system validation function to check the program's PIR for errors and make any necessary corrections
3. If validation is successful, mark the PIR complete

Submission of the PIR to the Office of Head Start constitutes approval by the authorized representative of the grantee agency.

#### **Guidance and Reference Materials**

2010-2011 PIR Guidance and Reference materials are available at <http://eclkc.ohs.acf.hhs.gov/pir>.

Instructions and definitions in the report can be activated and deactivated by selecting the "Hide" and "Show" buttons at the top of each PIR section.

Frequently Asked Questions are answered at <http://eclkc.ohs.acf.hhs.gov/pir>.

This copy of the 2010-2011 PIR Survey Form is provided as a reference for programs that are preparing their data for submission.

The 2010-2011 PIR Survey Changes document provides an item-by-item listing of changes made to this year's PIR.

#### **Assistance and Support**

Please contact the HSES Help Desk at [hseshelp@acf.hhs.gov](mailto:hseshelp@acf.hhs.gov) or (866) 771-4737 if you require assistance with reporting.

The Paperwork Reduction Act of 1995 (Public Law 104-13) Public reporting burden for this collection of information is estimated to average 4 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing collection information. The project description is approved under the Office of Management and Budget (OMB) control number 0980-0017. An agency may not collect or sponsor and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

## ENROLLMENT YEAR

### Enrollment dates

**Instructions and Definitions**

**Enrollment Year** - The period of time, not to exceed 12 months, during which the program provides center-based or home-based services to a group of children and their families.

- **Full-year options** - Define the enrollment year based on the significant turnover that tends to occur in conjunction with the beginning of the school year. Therefore, please define an enrollment year as a 12-month period that must begin between August 1 and September 15.
- **Part-year options** - Use the first and last dates on which classes and/or home visits begin and end to specify the program's Enrollment Year.
- **Migrant programs** - May report both start and end dates either in the same calendar year or in different years, not to exceed a 12 month period. Any of the following Migrant program examples would be acceptable:

	Enrollment start date	Enrollment end date
Example 1:	04/25/2010	10/28/2010
Example 2:	06/13/2011	08/26/2011
Example 3:	08/22/2010	05/19/2011

**Do not** report on children and families enrolled for the first time that will begin services in the next enrollment year.

A.1 Enrollment Year:	<i>Date (mm/dd/yyyy)</i>
a. Start Date	
b. End Date	

## FUNDED ENROLLMENT

**Instructions and Definitions**

Funded Enrollment is the total number of enrollees (children and pregnant women) the program was funded to serve for the 2010-2011 enrollment year.

**ACF Funded Enrollment** - The total number of Head Start children and/or Early Head Start children and pregnant women identified on the Grantee's most recent Financial Assistance Award (FAA).

**Non-ACF Funded Enrollment** - The total number of Head Start children and/or Early Head Start children and pregnant women fully funded by a non-federal source who receive comprehensive services in compliance with Head Start Program Performance Standards. This may include, for example, slots funded by the state or local school district.

Funded enrollment in the PIR is reported at the program and delegate level.

Where "# of children / pregnant women" is used, it refers to:

- The total number of children enrolled if entering data for a Head Start program.
- The total number of children and pregnant women enrolled if entering data for an Early Head Start program

### Funded enrollment by funding source

A.2 Funded Head Start or Early Head Start Enrollment:	<i># of children / pregnant women</i>
a. ACF Funded Enrollment	
b. Non-ACF Funded Enrollment	

## Funded enrollment by program option – children

### Instructions and Definitions

Refer to regulations on program options, [45 CFR 1306 Head Start Staffing Requirements and Program Options](#).

Report funded enrollment for the program option used for the greatest part of the year when more than one program option is used with the same group of children. For example, programs with center-based services in the school year (9 months) and home-based services for the summer months (3 months) would report funded enrollment as center-based services. This example is an implementation of consecutive program options in a single program year, **not** a combination option.

**Center-based option** - services provided to children primarily in classroom settings.

- **Full-day enrollment** - services provided for more than 6 hours per day.
  - **Full-working-day enrollment** - services provided for not less than 10 hours per day as permitted by State law (including regulation) for the provision of services.
  - **Full-calendar-year** - all the days of the year other than Saturday, Sunday, and a legal public holiday.
- **Part-day enrollment** - services provided for 6 hours or less per day
  - **Double session option** - option in which a single teacher is employed to work with one group of children in the morning and a different group of children in the afternoon.

The double session option **does not** refer to a program that employs a teacher to work with one group of children in the morning and a different teacher to work with a different group of children in the afternoon, even if the same classroom space is used.

**Home-based option** - services provided to children, primarily in the child's home, through intensive work with the child's parents and family as the primary factor in the growth and development of the child.

**Combination option** - services provided to children in both a center setting and through intensive work with the child's parents and family at home.

The combination option **does not** refer to a program that operates a center-based option during one part of the year and a home-based option during another part of the year (consecutively). When consecutive program options are operating within the same program year, report funded enrollment for the primary option.

For example, programs may operate center-based services for teen parents during the school year and home-based services in the summer months. In this example, report the center-based option funded enrollment and note the details of the home-based services in the question comments box.

**Family child care option** - services provided to children receiving child care primarily in the home of a family child care provider or other family-like setting.

- **Full-working-day enrollment** - services provided for not less than 10 hours per day as permitted by State law (including regulation) for the provision of services.
- **Full-calendar-year** - all the days of the year other than Saturday, Sunday, and a legal public holiday.

**Locally designed option** - services provided through an alternative program variation that has been formally approved by the Office of Head Start.

<i>Include only those children served through a partner organization; not those in your own program's extended day or wrap-around care.</i>	

# CENTERS AND CLASSES

## Centers

**Instructions and Definitions** Grantees are responsible for assuring that all centers are accounted for and that every facility which has been purchased, constructed or received major renovations using Head Start or Early Head Start funds has a notice of Federal Interest filed and has indicated this in the center record in HSES.

Refer to [45 CFR 1309 Head Start Facilities Purchase, Major Renovation and Construction](#) of the Head Start Program Performance Standards for additional guidance on Federal Interest and facilities.

**Centers** and **Classrooms** refer to actual physical space.

**Class** - A group of children that functions as a single unit, including preschool, infants/toddlers, and mixed-age groupings.

**Double Session Classes** - Classes for which a single teacher is employed to work with one group of children in the morning and a different group of children in the afternoon. Count each session as a separate class. For example, if a program had 5 classes that operated mornings and 5 that operated afternoons with the same 5 teachers, this would count as 10 classes.

## Screening

**Instructions and Definitions** The Head Start Act requires all children to receive a developmental, sensory, and behavioral screening within 45 days of entering the program, in order to determine if further evaluation is needed. If a child was enrolled in Head Start as a three-year-old, received the screening, and is returning to Head Start as a four-year-old, that child does NOT need to be re-screened (see [Policy Clarification OHS-PC-C-002](#)).

This question asks about the initial screenings within 45 days of entry for children who are enrolled in the program for the first time. These screenings may take place prior to the child receiving services, for example, developmental screening of children during summer months before classes start at the beginning of fall.

This does not include ongoing screenings that children may receive as part of their regularly scheduled EPSDT visits nor does it include ongoing assessment of children's health and development.

Report on **ALL** children enrolled for the first time, including children who were screened but then left the program prior to 45 days.
